The agreement may not be inconsistent with the rights of the bondholders or persons operating the turnpike project under a lease or other contract.

(b) The department may use its engineering and other personnel, including consulting engineers and traffic engineers, to conduct feasibility studies under Subsection (a).

(c) An obligation or expense incurred by the commission or department under this section is a part of the cost of the turnpike project for which the obligation or expense was incurred. The commission or department may require money contributed by the commission or department under this section to be repaid from tolls or other revenue of the turnpike project on which the money was spent. Money repaid as required by the commission or department shall be deposited to the credit of the fund from which the contribution was made. (e) A turnpike project developed by an authority may not be part of the state highway system unless otherwise agreed to by the authority and the department.

(f) The commission may grant or loan department money to an authority for the acquisition of land for or the construction, maintenance, or operation of a turnpike project. The commission may require the authority to repay money provided under this section from toll revenue or other sources on terms established by the commission.

(e) An authority may authorize the investment of public and private money, including debt and equity participation, to finance a function described by this section.

(f) An authority may not directly provide water, wastewater, natural gas, petroleum pipeline, electric transmission, electric distribution, telecommunications, information, or cable television services.

(g) Nothing in this chapter, or any contractual right obtained under a contract with an authority authorized by this chapter, supersedes or renders ineffective any provision of another law applicable to the owner or operator of a public utility facility, including any provision of the Utilities Code regarding licensing, certification, and regulatory jurisdiction of the Public Utility Commission of Texas or Railroad Commission of Texas.

(h) If an authority enters into an agreement with a private entity that includes the collection by the private entity of tolls for the use of a transportation project, the private entity shall submit to the authority for approval:

The entity may impose and collect taxes to pay the interest on the bonds and to provide a sinking fund for the redemption of the bonds.

(b) In addition to the powers provided by Subsection (a), a

governmental entity may, to the extent constitutionally permitted, agree with an authority to:

(1) a leasehold interest in the transportation project; or
(2) the right to operate or retain revenue from the operation of the transportation project.

Sec. 370.306. PROCESS FOR ENTERING INTO COMPREHENSIVE DEVELOPMENT AGREEMENTS. (a) If an authority enters into a comprehensive development agreement, the authority shall use a competitive procurement process that provides the best value for the authority. The authority may accept unsolicited proposals for a proposed transportation project or solicit proposals in accordance with this section.

(b) An authority shall establish rules and procedures for accepting unsolicited proposals that require the private entity to include in the proposal:

(1) information regarding the proposed project location, scope, and limits;

(2) information regarding the private entity's qualifications, experience, technical competence, and capability to develop the project; and

(3) a proposed financial plan for the proposed project that includes, at a minimum:

(A) projected project costs; and

(B) proposed sources of funds.

(c) An authority shall publish a request for competing proposals and qualifications in the Texas Register that includes the criteria used to evaluate the proposals, the relative weight given to the criteria, and a deadline by which proposals must be received if:

(1) the authority decides to issue a request for qualifications for a proposed project; or

(2) the authority authorizes the further evaluation of an unsolicited proposal.

(d) A proposal submitted in response to a request published under Subsection (c) must contain, at a minimum, the information required by Subsections (b)(2) and (3).

(e) An authority may interview a private entity submitting an unsolicited proposal or responding to a request under Subsection (c). The authority shall evaluate each proposal based on the criteria described in the notice. The authority must qualify at least two private entities to submit detailed proposals for a project under

Subsection (f) unless the authority does not receive more than one proposal or one response to a request under Subsection (c).

(f) An authority shall issue a request for detailed proposals from all private entities qualified under Subsection (e) if the authority proceeds with the further evaluation of a proposed project. A request under this subsection may require additional information relating to:

- (1) the private entity's qualifications and demonstrated technical competence;
- (2) the feasibility of developing the project as proposed;
- (3) detailed engineering or architectural designs;
- (4) the private entity's ability to meet schedules;
- (5) costing methodology; or
- (6) any other information the authority considers relevant or necessary.

(g) In issuing a request for proposals under Subsection (f), an authority may solicit input from entities qualified under Subsection (e) or any other person. An authority may also solicit input regarding alternative technical concepts after issuing a request under Subsection (f).

(h) An authority shall rank each proposal based on the criteria described in the request for proposals and select the private entity whose proposal offers the best value to the authority.

(i) An authority may enter into discussions with the private entity whose proposal offers the apparent best value. The discussions shall be limited to:

- (1) incorporation of aspects of other proposals for the purpose of achieving the overall best value for the authority;
- (2) clarifications and minor adjustments in scheduling, cash flow, and similar items; and
- (3) matters that have arisen since the submission of the proposal.

(j) If at any point in discussions under Subsection (i), it appears to the authority that the highest ranking proposal will not provide the authority with the overall best value, the authority may enter into discussions with the private entity submitting the next-highest ranking proposal.

(k) An authority may withdraw a request for competing proposals and qualifications or a request for detailed proposals at any time. The authority may then publish a new request for competing proposals

and qualifications.

(l) An authority may require that an unsolicited proposal be accompanied by a nonrefundable fee sufficient to cover all or part of its cost to review the proposal.

(m) An authority may pay an unsuccessful private entity that submits a response to a request for detailed proposals under Subsection (f) a stipulated amount of the final contract price for any costs incurred in preparing that proposal. A stipulated amount must be stated in the request for proposals and may not exceed the value of any work product contained in the proposal that can, as determined by the authority, be used by the authority in the performance of its functions. The use by the authority of any design element contained in an unsuccessful proposal is at the sole risk and discretion of the authority and does not confer liability on the recipient of the stipulated amount under this subsection. After payment of the stipulated amount:

(1) the authority owns the exclusive rights to, and may make use of any work product contained in, the proposal, including the technologies, techniques, methods, processes, and information contained in the project design; and

(2) the work product contained in the proposal becomes the property of the authority.

(n) An authority shall prescribe the general form of a comprehensive development agreement and may include any matter the authority considers advantageous to the authority. The authority and the private entity shall negotiate the specific terms of a comprehensive development agreement.

(o) Subchapter A, Chapter 223, of this code and Chapter 2254, Government Code, do not apply to a comprehensive development agreement entered into under Section 370.305.

proposals under Section 370.306, the following information is confidential, is not subject to disclosure, inspection, or copying under Chapter 552, Government Code, and is not subject to disclosure, discovery, subpoena, or other means of legal compulsion for its release until a final contract for a proposed project is entered into:

(1) all or part of a proposal submitted by a private entity for a comprehensive development agreement, except information provided under Sections 370.306(b)(1) and (2);

(2) supplemental information or material submitted by a private entity in connection with a proposal for a comprehensive development agreement; and

(3) information created or collected by an authority or its agent during consideration of a proposal for a comprehensive development agreement.

(1) ensure the proper performance of the agreement; and

(2) protect:

(A) the authority; and

(B) payment bond beneficiaries who have a direct contractual relationship with the private entity or a subcontractor of the private entity to supply labor or material.

(b) A performance and payment bond or alternative form of security shall be in an amount equal to the cost of constructing or maintaining the project.

(c) If an authority determines that it is impracticable for a private entity to provide security in the amount described by

Subsection (b), the authority shall set the amount of the bonds or the alternative forms of security.

(d) A payment or performance bond or alternative form of security is not required for the portion of an agreement that includes only design or planning services, the performance of preliminary studies, or the acquisition of real property.

(e) The amount of the payment security must not be less than the amount of the performance security.

(f) In addition to performance and payment bonds, an authority may require the following alternative forms of security:

(1) a cashier's check drawn on a financial entity specified by the authority;

(2) a United States bond or note;

(3) an irrevocable bank letter of credit; or

(4) any other form of security determined suitable by the authority.

(b) Notwithstanding Subsection (a), an authority may enter into an agreement that provides for the lease of rights-of-way, the granting of easements, the issuance of franchises, licenses, or permits, or any lawful uses to enable a private entity to construct, operate, and maintain a transportation project, including supplemental facilities. At the termination of the agreement, the transportation project, including the facilities, must be in a state of proper maintenance as determined by the authority and shall be returned to the authority in satisfactory condition at no further cost.

SUBCHAPTER I. TRANSIT SYSTEMS

Sec. 370.351. TRANSIT SYSTEMS. (a) An authority may construct, own, operate, and maintain a transit system.

(b) An authority shall determine each transit route, including transit route changes.

(c) This chapter does not prohibit an authority, municipality, or transit provider from providing any service that complements a transit system, including providing parking garages, special transportation for persons who are disabled or elderly, or medical transportation services.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.352. PUBLIC HEARING ON FARE AND SERVICE CHANGES. (a) In this section:

(1) "Service change" means any addition or deletion resulting in the physical realignment of a transit route or a change in the type or frequency of service provided in a specific, regularly scheduled transit route.

(2) "Transit revenue vehicle mile" means one mile traveled by a transit vehicle while the vehicle is available to public passengers.

(3) "Transit route" means a route over which a transit vehicle travels that is specifically labeled or numbered for the purpose of picking up or discharging passengers at regularly scheduled stops and intervals.

(4) "Transit route mile" means one mile along a transit route regularly traveled by transit vehicles while available to public passengers.

(b) Except as provided by Section 370.353, an authority shall hold a public hearing on:

- (1) a fare change;
 - (2) a service change involving:
 - (A) 25 percent or more of the number of transit route miles of a transit route; or
 - (B) 25 percent or more of the number of transit revenue vehicle miles of a transit route, computed daily, for the day of the week for which the change is made; or
 - (3) the establishment of a new transit route.
- (c) An authority shall hold the public hearing required by Subsection (b) before the cumulative amount of service changes in a fiscal year equals a percentage amount described in Subsection (b)(2)(A) or (B).

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.353. PUBLIC HEARING ON FARE AND SERVICE CHANGES: EXCEPTIONS. (a) In this section, "experimental service change" means an addition of service to an existing transit route or the establishment of a new transit route.

- (b) A public hearing under Section 370.352 is not required for:
- (1) a reduced or free promotional fare that is instituted daily or periodically over a period of not more than 180 days;
 - (2) a headway adjustment of not more than five minutes during peak-hour service and not more than 15 minutes during nonpeak-hour service;
 - (3) a standard seasonal variation unless the number, timing, or type of the standard seasonal variation changes; or
 - (4) an emergency or experimental service change in effect for 180 days or less.

(c) A hearing on an experimental service change in effect for more than 180 days may be held before or while the experimental service change is in effect and satisfies the requirement for a public hearing if the hearing notice required by Section 370.354 states that the change may become permanent at the end of the effective period. If a hearing is not held before or while the experimental service change is in effect, the service that existed before the change must be reinstated at the end of the 180th day after the change became effective and a public hearing must be held

in accordance with Section 370.352 before the experimental service change may be continued.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.354. NOTICE OF HEARING ON FARE OR SERVICE CHANGE. (a) After calling a public hearing required by Section 370.352, the authority shall:

(1) at least 30 days before the date of the hearing, publish notice of the hearing at least once in a newspaper of general circulation in the territory of the authority; and

(2) post notice in each transit vehicle in service on any transit route affected by the proposed change for at least two weeks within 30 days before the date of the hearing.

(b) The notice must contain:

(1) a description of each proposed fare or service change, as appropriate;

(2) the time and place of the hearing; and

(3) if the hearing is required under Section 370.352(c), a description of the latest proposed change and the previous changes.

(c) The requirement for a public hearing under Section 370.352 is satisfied at a public hearing required by federal law if:

(1) the notice requirements of this section are met; and

(2) the proposed fare or service change is addressed at the meeting.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.355. CRIMINAL PENALTIES. (a) An authority by resolution may prohibit the use of the transit system by a person who fails to possess evidence showing that the appropriate fare for the use of the system has been paid and may establish reasonable and appropriate methods, including using peace officers under Section 370.181(c), to ensure that persons using the transit system pay the appropriate fare for that use.

(b) An authority by resolution may provide that a fare for or charge for the use of the transit system that is not paid incurs a

penalty, not to exceed \$100.

(c) The authority shall post signs designating each area in which a person is prohibited from using the transit system without possession of evidence showing that the appropriate fare has been paid.

(d) A person commits an offense if:

(1) the person or another for whom the person is criminally responsible under Section 7.02, Penal Code, uses the transit system and does not possess evidence showing that the appropriate fare has been paid; and

(2) the person fails to pay the appropriate fare or other charge for the use of the transit system and any penalty on the fare on or before the 30th day after the date the authority notifies the person that the person is required to pay the amount of the fare or charge and the penalty.

(e) The notice required by Subsection (d)(2) may be included in a citation issued to the person by a peace officer under Article 14.06, Code of Criminal Procedure, in connection with an offense relating to the nonpayment of the appropriate fare or charge for the use of the transit system.

(f) An offense under Subsection (d) is a Class C misdemeanor.

(g) An offense under Subsection (d) is not a crime of moral turpitude.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. [2702](#)), Sec. 2.76, eff. June 14, 2005.

SUBCHAPTER J. ACQUIRING TRANSIT SYSTEMS

Sec. 370.361. TRANSFER OF TRANSIT SYSTEMS. (a) In this section, "unit of election" means a political subdivision that previously voted to join the service area of a transit provider.

(b) An authority may request in writing a transit provider to transfer the provider's transit system and taxing authority to the authority if the board determines that the traffic needs of the counties in which the authority operates could be most efficiently and economically met by the transfer.

(c) On receipt of a written request under Subsection (b), the governing body of the transit provider may authorize the authority to solicit public comment and conduct at least one public hearing on the

proposed transfer in each unit of election in the transit provider's service area. Notice of a hearing must be published in the Texas Register, one or more newspapers of general circulation in the transit provider's service area, and a newspaper, if any, published in the counties of the requesting authority. The notice shall also solicit written comments on the proposed transfer. The transit provider may participate fully with the authority in conducting a public hearing.

(d) A board may approve the acquisition of the transit provider if the governing body of the transit provider approves transfer of its operations to the authority and dissolution of the transit provider is approved in an election ordered under Subsection (e). Before approving the acquisition, the board shall consider public comments received under Subsection (c).

(e) After considering public comments received under Subsection (c), the governing body of the transit provider may order an election to dissolve the transit provider and transfer all services, property, funds, assets, employees, debts, and obligations to the authority. The governing body of the transit provider shall submit to the qualified voters in the units of election in the transit provider's service area a proposition that reads substantially as follows: "Shall (name of transit provider) be dissolved and its services, property, funds, assets, employees, debts, and obligations be transferred to (name of regional mobility authority)?"

(f) An election under Subsection (e) shall be conducted so that votes are separately tabulated and canvassed in each participating unit of election in the transit provider's service area.

(g) The governing body of the transit provider shall canvass the returns and declare the results of the election separately with respect to each unit of election. If a majority of the votes received in a unit of election are in favor of the proposition, the proposition is approved in that unit of election. The transit provider is dissolved and its services, property, funds, assets, employees, debts, and obligations are transferred to the authority only if the proposition is approved in every unit of election. If the proposition is not approved in every unit of election, the proposition does not pass and the transit provider is not dissolved.

(h) A certified copy of the order or resolution recording the results of the election shall be filed with the department, the comptroller, and the governing body of each unit of election in the

transit provider's service area.

(i) The authority shall assume all debts or other obligations of the transferred transit provider in connection with the acquisition of property under Subsection (g). The authority may not use revenue from sales and use tax collected under this subchapter or other revenue of the transit system in a manner inconsistent with any pledge of that revenue for the payment of any outstanding bonds, unless provisions have been made for a full discharge of the bonds.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.362. SALES AND USE TAX. (a) If an authority acquires a transit provider that has taxing authority, the authority may impose a sales and use tax at a permissible rate that does not exceed the rate approved by the voters residing in the service area of the transit provider's transit system at an election under this subchapter.

(b) The authority by resolution may:

(1) decrease the rate of the sales and use tax to a permissible rate; or

(2) call an election for the increase or decrease of the sales and use tax to a permissible rate.

(c) If an authority orders an election, the authority shall publish notice of the election in a newspaper of general circulation in the territory of the authority at least once each week for three consecutive weeks, with the first publication occurring at least 21 days before the date of the election.

(d) A resolution ordering an election and the election notice required by Subsection (c) must show, in addition to the requirements of the Election Code, the hours of the election and polling places in election precincts.

(e) A copy of the election notice required by Subsection (c) shall be furnished to the commission and the comptroller.

(f) The permissible rates for a sales and use tax imposed under this subchapter are:

(1) one-quarter of one percent;

(2) one-half of one percent;

(3) three-quarters of one percent; or

(4) one percent.

(g) Chapter 322, Tax Code, applies to a sales and use tax imposed under this subchapter.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.363. MAXIMUM TAX RATE. (a) An authority may not adopt a sales and use tax rate, including a rate increase, that when combined with the rates of all sales and use taxes imposed by all political subdivisions of this state having territory in the service area of the transferred transit system exceeds two percent in any location in the service area.

(b) An election to approve a sales and use tax or increase the rate of an authority's sales and use tax has no effect if:

(1) the voters in the service area approve the authority's sales and use tax rate or rate increase at an election held on the same day on which a municipality or county having territory in the jurisdiction of the service area adopts a sales and use tax or an additional sales and use tax; and

(2) the combined rates of all sales and use taxes imposed by the authority and all political subdivisions of this state would exceed two percent in any part of the territory in the service area.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.364. ELECTION TO CHANGE TAX RATE. (a) At an election ordered under Section 370.362(b)(2), the ballots shall be printed to permit voting for or against the proposition: "The increase (decrease) of the local sales and use tax rate for mass transit to (percentage)."

(b) The increase or decrease in the tax rate becomes effective only if it is approved by a majority of the votes cast.

(c) A notice of the election and a certified copy of the order canvassing the election results shall be:

(1) sent to the commission and the comptroller; and

(2) filed in the deed records of the county.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

Sec. 370.365. SALES TAX: EFFECTIVE DATES. (a) A sales and use tax implemented under this subchapter takes effect on the first day of the second calendar quarter that begins after the date the comptroller receives a copy of the order required to be sent under Section 370.364(c).

(b) An increase or decrease in the rate of a sales and use tax implemented under this subchapter takes effect on:

(1) the first day of the first calendar quarter that begins after the date the comptroller receives the notice provided under Section 370.364(c); or

(2) the first day of the second calendar quarter that begins after the date the comptroller receives the notice, if within 10 days after the date of receipt of the notice the comptroller gives written notice to the board that the comptroller requires more time to implement tax collection and reporting procedures.

Added by Acts 2005, 79th Leg., Ch. 281 (H.B. 2702), Sec. 2.76, eff. June 14, 2005.

SUBCHAPTER K. DESIGN-BUILD CONTRACTS

Sec. 370.401. SCOPE OF AND LIMITATIONS ON CONTRACTS. (a) Notwithstanding the requirements of Chapter 2254, Government Code, an authority may use the design-build method for the design, construction, financing, expansion, extension, related capital maintenance, rehabilitation, alteration, or repair of a transportation project.

(b) A design-build contract under this subchapter may not grant to a private entity:

(1) a leasehold interest in the transportation project; or

(2) the right to operate or retain revenue from the operation of the transportation project.

(c) In using the design-build method and in entering into a contract for the services of a design-build contractor, the authority and the design-build contractor shall follow the procedures and requirements of this subchapter.

(d) An authority may enter into not more than two design-build contracts for transportation projects in any fiscal year.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

(2) "Design-build method" means a project delivery method by which an entity contracts with a single entity to provide both design and construction services for the construction, rehabilitation, alteration, or repair of a facility.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.403. USE OF ENGINEER OR ENGINEERING FIRM. (a) To act as an authority's representative, independent of a design-build contractor, for the procurement process and for the duration of the work on a transportation project, an authority shall select or designate:

(1) an engineer;

(2) a qualified firm, selected in accordance with Section 2254.004, Government Code, that is independent of the design-build contractor; or

(3) a general engineering consultant that was previously selected by an authority and is selected or designated in accordance with Section 2254.004, Government Code.

(b) The selected or designated engineer or firm has full responsibility for complying with Chapter 1001, Occupations Code.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.404. OTHER PROFESSIONAL SERVICES. (a) An authority

shall provide or contract for, independently of the design-build firm, the following services as necessary for the acceptance of the transportation project by the authority:

- (1) inspection services;
- (2) construction materials engineering and testing; and
- (3) verification testing services.

(b) An authority shall ensure that the engineering services contracted for under this section are selected based on demonstrated competence and qualifications.

(c) This section does not preclude the design-build contractor from providing construction quality assurance and quality control under a design-build contract.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.405. REQUEST FOR QUALIFICATIONS. (a) For any transportation project to be delivered through the design-build method, an authority must prepare and issue a request for qualifications. A request for qualifications must include:

- (1) information regarding the proposed project's location, scope, and limits;
- (2) information regarding funding that may be available for the project and a description of the financing to be requested from the design-build contractor, as applicable;
- (3) criteria that will be used to evaluate the proposals, which must include a proposer's qualifications, experience, technical competence, and ability to develop the project;
- (4) the relative weight to be given to the criteria; and
- (5) the deadline by which proposals must be received by the authority.

(b) An authority shall publish notice advertising the issuance of a request for qualifications in the Texas Register and on an Internet website maintained by the authority.

(c) An authority shall evaluate each qualifications statement received in response to a request for qualifications based on the criteria identified in the request. An authority may interview responding proposers. Based on the authority's evaluation of qualifications statements and interviews, if any, an authority shall

qualify or short-list proposers to submit detailed proposals.

(d) An authority shall qualify or short-list at least two, but no more than five, firms to submit detailed proposals under Section 370.406. If an authority receives only one responsive proposal to a request for qualifications, the authority shall terminate the procurement.

(e) An authority may withdraw a request for qualifications or request for detailed proposals at any time.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.406. REQUEST FOR DETAILED PROPOSALS. (a) An authority shall issue a request for detailed proposals to proposers qualified or short-listed under Section 370.405. A request for detailed proposals must include:

- (1) information on the overall project goals;
- (2) the authority's cost estimates for the design-build portion of the work;
- (3) materials specifications;
- (4) special material requirements;
- (5) a schematic design approximately 30 percent complete;
- (6) known utilities, provided that an authority is not required to undertake an effort to locate utilities;
- (7) quality assurance and quality control requirements;
- (8) the location of relevant structures;
- (9) notice of any rules or goals adopted by the authority pursuant to Section 370.183 relating to awarding contracts to disadvantaged businesses;
- (10) available geotechnical or other information related to the project;
- (11) the status of any environmental review of the project;
- (12) detailed instructions for preparing the technical proposal required under Subsection (c), including a description of the form and level of completeness of drawings expected;
- (13) the relative weighting of the technical and cost proposals required under Subsection (c) and the formula by which the proposals will be evaluated and ranked, provided that the formula shall allocate at least 70 percent of the weighting to the cost

proposal; and

(14) the criteria and weighting for each element of the technical proposal.

(b) A request for detailed proposals shall also include a general form of the design-build contract that the authority proposes if the terms of the contract may be modified as a result of negotiations prior to contract execution.

(c) Each response to a request for detailed proposals must include a sealed technical proposal and a separate sealed cost proposal.

(d) The technical proposal must address:

(1) the proposer's qualifications and demonstrated technical competence, provided that the proposer shall not be requested to resubmit any information that was submitted and evaluated pursuant to Section 370.405(a)(3);

(2) the feasibility of developing the project as proposed, including identification of anticipated problems;

(3) the proposed solutions to anticipated problems;

(4) the ability of the proposer to meet schedules;

(5) the conceptual engineering design proposed; and

(6) any other information requested by the authority.

(e) An authority may provide for the submission of alternative technical concepts by a proposer. If an authority provides for the submission of alternative technical concepts, the authority must prescribe a process for notifying a proposer whether the proposer's alternative technical concepts are approved for inclusion in a technical proposal.

(f) The cost proposal must include:

(1) the cost of delivering the project;

(2) the estimated number of days required to complete the project; and

(3) any terms for financing for the project that the proposer plans to provide.

(g) A response to a request for detailed proposals shall be due not later than the 180th day after the final request for detailed proposals is issued by the authority. This subsection does not preclude the release by the authority of a draft request for detailed proposals for purposes of receiving input from short-listed proposers.

(h) An authority shall first open, evaluate, and score each

responsive technical proposal submitted on the basis of the criteria described in the request for detailed proposals and assign points on the basis of the weighting specified in the request for detailed proposals. The authority may reject as nonresponsive any proposer that makes a significant change to the composition of its design-build team as initially submitted that was not approved by the authority as provided in the request for detailed proposals. The authority shall subsequently open, evaluate, and score the cost proposals from proposers that submitted a responsive technical proposal and assign points on the basis of the weighting specified in the request for detailed proposals. The authority shall rank the proposers in accordance with the formula provided in the request for detailed proposals.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.407. NEGOTIATION. (a) After ranking the proposers under Section 370.406(h), an authority shall first attempt to negotiate a contract with the highest-ranked proposer. If an authority has committed to paying a stipend to unsuccessful proposers in accordance with Section 370.409, an authority may include in the negotiations alternative technical concepts proposed by other proposers.

(b) If an authority is unable to negotiate a satisfactory contract with the highest-ranked proposer, the authority shall, formally and in writing, end all negotiations with that proposer and proceed to negotiate with the next proposer in the order of the selection ranking until a contract is reached or negotiations with all ranked proposers end.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.408. ASSUMPTION OF RISKS. (a) Unless otherwise provided in the final request for detailed proposals, including all addenda and supplements to that request, the authority shall assume:

- (1) all risks and costs associated with:
 - (A) scope changes and modifications, as requested by

the authority;

(B) unknown or differing site conditions;

(C) environmental clearance and other regulatory permitting for the project; and

(D) natural disasters and other force majeure events;

and

(2) all costs associated with property acquisition, excluding costs associated with acquiring a temporary easement or work area associated with staging or construction for the project.

(b) Nothing herein shall prevent the parties from agreeing that the design-build contractor should assume some or all of the risks or costs set forth in Subsection (a) provided that such agreement is reflected in the final request for detailed proposals, including all addenda and supplements to the agreement.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.409. STIPEND AMOUNT FOR UNSUCCESSFUL PROPOSERS. (a) Pursuant to the provisions of the request for detailed proposals, an authority shall pay an unsuccessful proposer that submits a responsive proposal to the request for detailed proposals a stipend for work product contained in the proposal. The stipend must be specified in the initial request for detailed proposals in an amount of at least two-tenths of one percent of the contract amount, but may not exceed the value of the work product contained in the proposal to the authority. In the event the authority determines that the value of the work product is less than the stipend amount, the authority must provide the proposer with a detailed explanation of the valuation, including the methodology and assumptions used in determining value. After payment of the stipend, the authority may make use of any work product contained in the unsuccessful proposal, including the techniques, methods, processes, and information contained in the proposal. The use by the authority of any design element contained in an unsuccessful proposal is at the sole risk and discretion of the authority and does not confer liability on the recipient of the stipend under this subsection.

(b) An authority may provide in a request for detailed proposals for the payment of a partial stipend in the event a

procurement is terminated prior to securing project financing and execution of a design-build contract.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

Sec. 370.410. PERFORMANCE AND PAYMENT BOND. (a) An authority shall require a design-build contractor to provide:

- (1) a performance and payment bond;
- (2) an alternative form of security; or
- (3) a combination of the forms of security described by Subdivisions (1) and (2).

(b) Except as provided by Subsection (c), a performance and payment bond, alternative form of security, or combination of the forms of security shall be in an amount equal to the cost of constructing or maintaining the project.

(c) If the authority determines that it is impracticable for a private entity to provide security in the amount described by Subsection (b), the authority shall set the amount of the security.

(d) A performance and payment bond is not required for the portion of a design-build contract under this section that includes design services only.

(e) An authority may require one or more of the following alternative forms of security:

- (1) a cashier's check drawn on a financial entity specified by the authority;
- (2) a United States bond or note;
- (3) an irrevocable bank letter of credit drawn from a federal or Texas chartered bank; or
- (4) any other form of security determined suitable by the authority.

(f) Chapter 2253, Government Code, does not apply to a bond or alternative form of security required under this section.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1345 (S.B. 1420), Sec. 38, eff. September 1, 2011.

A notice of nonpayment may also be served by an employee of a governmental entity operating an international bridge at the time a vehicle with a record of nonpayment seeks to enter or leave this state.

(b) Each written notice of nonpayment issued under Subsection (a) shall include a warning that the failure to pay the amounts in the notice may result in the toll project entity's exercise of the habitual violator remedies under this subchapter.

(c) An owner who is served a written notice of nonpayment under Subsection (a) and fails to pay the proper toll and administrative fee within the time specified in the notice commits an offense. Each failure to pay a toll or administrative fee under this subsection is a separate offense.

(d) An offense under Subsection (c) is a misdemeanor punishable by a fine not to exceed \$250. The court in which an owner is convicted of an offense under this section may also collect the proper toll and administrative fee and forward the toll and fee to the toll project entity.

(f) It is a defense to prosecution under Subsection (c) that the vehicle in question was stolen before the failure to pay the proper toll occurred and was not recovered by the time of the failure to pay, but only if the theft was reported to the appropriate law enforcement authority before the earlier of:

- (1) the occurrence of the failure to pay; or
- (2) eight hours after the discovery of the theft.

(1) was issued at least two written notices of nonpayment that contained:

(A) in the aggregate, 100 or more events of nonpayment within a period of one year, not including events of nonpayment for which:

(i) the registered owner has provided to the toll project entity information establishing that the vehicle was subject to a lease at the time of the nonpayment, as provided by applicable toll project entity law; or

(ii) a defense of theft at the time of the nonpayment has been established as provided by applicable toll project entity law; and

(B) a warning that the failure to pay the amounts specified in the notices may result in the toll project entity's exercise of habitual violator remedies; and

(2) has not paid in full the total amount due for tolls and administrative fees under those notices.

(b) If the toll project entity makes a determination under Subsection (a), the toll project entity shall give written notice to the person at:

(1) the person's address as shown in the vehicle registration records of the Texas Department of Motor Vehicles or the analogous agency of another state or country; or

(2) an alternate address provided by the person or derived through other reliable means.

(c) The notice must:

(1) be sent by first class mail and is presumed received on the fifth day after the date the notice is mailed; and

(2) state:

(A) the total number of events of nonpayment and the total amount due for tolls and administrative fees;

(B) the date of the determination under Subsection (a);

(C) the right of the person to request a hearing on the

determination; and

(D) the procedure for requesting a hearing, including the period during which the request must be made.

(d) If not later than the 30th day after the date on which the person is presumed to have received the notice the toll project entity receives a written request for a hearing, a hearing shall be held as provided by Section 372.107.

(e) If the person does not request a hearing within the period provided by Subsection (d), the toll project entity's determination becomes final and not subject to appeal on the expiration of that period.

Added by Acts 2013, 83rd Leg., R.S., Ch. 491 (S.B. 1792), Sec. 1, eff. June 14, 2013.

Sec. 372.107. HEARING. (a) A justice court has jurisdiction to conduct a hearing in accordance with this section.

(b) A hearing requested under Section 372.106 shall be conducted in a justice court in a county in which the toll collection facilities where at least 25 percent of the events of nonpayment occurred are located.

(c) A party requesting a hearing shall pay a filing fee of \$100 to the clerk of the justice court. If that party prevails under the justice's finding under Subsection (f), the other party shall reimburse the prevailing party for the amount of the filing fee within 10 days after issuance of the finding.

(d) The issues that must be proven at the hearing by a preponderance of the evidence are:

(1) whether the registered owner was issued at least two written notices of nonpayment for an aggregate of 100 or more events of nonpayment within a period of one year, not including events of nonpayment for which:

(A) the registered owner has provided to the toll project entity information establishing that the vehicle was subject to a lease at the time of the nonpayment, as provided by applicable toll project entity law; or

(B) a defense of theft at the time of the nonpayment has been established as provided by applicable toll project entity law; and

(2) whether the total amount due for tolls and administrative fees specified in those notices was not paid in full by the dates specified in the notices and remains not fully paid.

(e) Proof under Subsection (d) may be by oral testimony, documentary evidence, video surveillance, or any other reasonable evidence.

(f) If the justice of the peace finds in the affirmative on each issue in Subsection (d), the toll project entity's determination that the registered owner is a habitual violator is sustained and becomes final. If the justice does not find in the affirmative on each issue in Subsection (d), the toll project entity shall rescind its determination that the registered owner is a habitual violator. Rescission of the determination does not limit the toll project entity's authority to pursue collection of the outstanding tolls and administrative fees.

(g) A registered owner who requests a hearing and fails to appear without just cause waives the right to a hearing, and the toll project entity's determination is final and not subject to appeal.

(h) A justice of the peace court may adopt administrative hearings processes to expedite hearings conducted under this section.

Added by Acts 2013, 83rd Leg., R.S., Ch. 491 (S.B. [1792](#)), Sec. 1, eff. June 14, 2013.

Sec. 372.108. APPEAL. (a) A registered owner may appeal the justice of the peace's decision by filing a petition not later than the 30th day after the date on which the decision is rendered:

(1) in the county court at law of the county in which the justice of the peace precinct is located; or

(2) if there is no county court at law in that county, in the county court.

(b) The registered owner must send a file-stamped copy of the petition, certified by the clerk of the court, to the toll project entity by certified mail not later than the 30th day after the date the appeal petition is filed.

(c) The court shall notify the toll project entity of the hearing not later than the 31st day before the date the court sets for the hearing.

(d) A trial on appeal is a trial de novo on the issues under

Section 372.107(d).

(e) Neither the filing of the appeal petition nor service of notice of the appeal stays the toll project entity's exercise of the habitual violator remedies unless the person who files the appeal posts a bond with the toll project entity issued by a sufficient surety in the total amount of unpaid tolls and fees owed by the registered owner to the toll project entity.

Added by Acts 2013, 83rd Leg., R.S., Ch. 491 (S.B. 1792), Sec. 1, eff. June 14, 2013.

Sec. 372.109. PERIOD DETERMINATION IS EFFECTIVE. (a) A final determination that a person is a habitual violator remains in effect until:

(1) the total amount due for the person's tolls and administrative fees is paid; or

(2) the toll project entity, in its sole discretion, determines that the amount has been otherwise addressed.

(2) as required under Subsection (b).

(b) A local toll project entity shall reimburse the department for the department's actual costs to acquire a right-of-way transferred to the local toll project entity. (b) An agreement entered into by a local toll project entity and the department in connection with a toll project that is developed, financed, constructed, or operated by the local toll project entity and that is on or directly connected to a highway in the state highway system does not create a joint enterprise for liability purposes.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1196 (S.B. 19), Sec. 1, eff. June 17, 2011.

(b) If a citation is issued under this section, the commissioners court may assess an administrative penalty against the person cited.

(c) The commissioners court may assess the administrative penalty in an amount not to exceed \$100 for each day the violation exists. In determining the amount of the penalty, the commissioners court shall consider the seriousness of the violation.

(d) If, after examination of a possible violation and the facts relating to that possible violation, the commissioners court determines that a violation has occurred, the commissioners court shall issue a preliminary report that states the facts on which the conclusion is based, the fact that an administrative penalty is to be imposed, and the amount to be assessed. Not later than the 10th day after the date on which the commissioners court issues the preliminary report, the commissioners court shall send a copy of the report to the person charged with the violation, together with a statement of the right of the person to a hearing relating to the alleged violation and the amount of the penalty.

Failure either to request a hearing or to remit the amount of the administrative penalty within the time provided by this subsection results in a waiver of a right to a hearing under this section. If the person charged requests a hearing, the county judge or the judge's representative shall conduct the hearing in the manner provided for a contested case hearing under Chapter 2001, Government Code, as if the commissioners court were a state agency under that law. If it is determined after hearing that the person has committed the alleged violation, the county judge or the judge's representative shall give written notice to the person of the findings established by the hearing and the amount of the penalty, and the commissioners court shall enter an order requiring the person to pay the penalty. Not later than the 30th day after the date on which the notice is received, the person charged shall pay the administrative penalty in full.

(f) The person charged is entitled to an appeal by trial de novo in district court on the issue of the amount of the penalty or the fact of the violation. If, after judicial review, it is determined that no violation occurred or that the amount of the penalty should be reduced, the commissioners court shall remit any appropriate amount to the person charged with the violation not later

than the 30th day after the date on which the judicial determination becomes final.

(g) An administrative penalty recovered under this section shall be deposited in the county treasury to the credit of the general fund.

The contract may provide for reimbursement of the owner for costs or payment to the contractor.

(c) An authority may acquire by eminent domain any interest in real property, including a fee simple interest and the use of air or subsurface space. The exercise of the right of eminent domain may not unduly interfere with interstate commerce or authorize the authority to run an authority vehicle on a railroad track that is used to transport property.

(d) If an authority, through the exercise of a power under this chapter, makes necessary the relocation or rerouting of, or alteration of the construction of, a road, alley, overpass, underpass, railroad track, bridge or associated property, an electric, telegraph, telephone, or television cable line, conduit, or associated property, or a water, sewer, gas, or other pipeline or associated property, the relocation or rerouting or alteration of the construction must be accomplished at the sole cost and expense of the authority, and damages that are incurred by an owner of the property must be paid by the authority.

(2) declares the public necessity for and interest in the acquisition; and

(3) states that the acquisition is necessary and proper for the construction, extension, improvement, or development of the transit authority system.

(b) At least 30 days before the date of the adoption of a resolution under Subsection (a), the board shall hold a public hearing on the question of the acquisition. The hearing must be held at a place convenient to the residents of the area where the property to be acquired is located.

(c) The board shall publish notice of the hearing in a newspaper of general circulation in the county where the property is located at least once each week for two weeks before the date of the hearing.

(d) A resolution adopted under this section is conclusive evidence of the public necessity for the acquisition described in the resolution and that the property interest is necessary for public use.

(e) Except as otherwise provided by this chapter, Chapter 21, Property Code, applies to an eminent domain proceeding by an authority.

(3) fulfill the terms of any other agreement with the holders of bonds described by Subdivision (2) or with a person acting on behalf of the bondholders.

(b) It is intended by this chapter that the compensation imposed under Subsection (a) and taxes imposed by the authority not exceed the amounts necessary to produce revenue sufficient to meet the obligations of the authority under this chapter.

(c) Fares for passenger transportation may be set according to a zone system or other classification that the authority determines to be reasonable.

(d) Except as provided by Subsection (d-1), the fares, tolls, charges, rents, and other compensation established by an authority in which the principal municipality has a population of less than 1.9 million may not take effect until approved by a majority vote of a committee composed of:

(e) This section does not limit the state's power to regulate taxes imposed by an authority or other compensation authorized under this section. The state agrees with holders of bonds issued under this chapter, however, not to alter the power given to an authority under this section to impose taxes, fares, tolls, charges, rents, and other compensation in amounts sufficient to comply with Subsection (a), or to impair the rights and remedies of an authority bondholder, or a person acting on behalf of a bondholder, until the bonds, interest on the bonds, interest on unpaid installments of interest, costs and expenses in connection with an action or proceeding by or on behalf of a bondholder, and other obligations of the authority in connection with the bonds are discharged.

(f) Personal identifying information collected by an authority is confidential and not subject to disclosure under Chapter 552, Government Code, including a person's:

(c) The authority shall post signs designating each area in which a person is prohibited from using the transportation system without possession of evidence showing that the appropriate fare has been paid.

(A) the unit's apportioned share of the authority's outstanding obligations; and

(B) the amount, not computed in Subdivision (1)(A), that is necessary and appropriate to allocate to the unit because of financial obligations of the authority that specifically relate to the unit; minus

(2) the unit's apportioned share of the unencumbered assets of the authority that consist of cash, cash deposits, certificates of deposit, and bonds, stocks, and other negotiable securities.

(b) An authority's outstanding obligations under Subsection (a)(1)(A) is the sum of:

(1) the obligations of the authority authorized in the budget of, and contracted for by, the authority;

(5) the amount necessary for the full and timely payment of the obligations of the authority, to avoid a default or impairment of those obligations, including contingent liabilities.

(c) The apportioned share of a unit's obligation or assets is the amount of the obligation or assets times a fraction, the numerator of which is the number of inhabitants of the withdrawing unit of election and the denominator of which is the number of inhabitants of the authority, including the number of inhabitants of the unit.

(d) The board shall determine the amount of each component of the computations required under this section, including the components of the unit's apportioned share, as of the effective date of withdrawal. Sec. 451.613. COLLECTION OF SALES AND USE TAX AFTER WITHDRAWAL.

(a) Until the amount of revenue from an authority's sales and use tax collected in a withdrawn unit of election after the effective date of withdrawal and paid to the authority equals the net financial obligation of the unit, the sales and use tax continues to be collected in the territory of the unit of election.

(b) After the amount described by Subsection (a) has been collected or if the share of the authority's assets computed for the unit of election under Section 451.611 is greater than the gross financial obligation of the unit to the authority, the comptroller shall discontinue collecting the tax in the territory of the unit of election.

(1) that is in excess of the net financial obligation of the unit and was collected in the unit after the date of withdrawal; or

(2) if the unit's share of authority assets exceeded the unit's gross financial obligation to the authority, that was collected in the unit after the date of withdrawal.

(b) The comptroller may:

(1) determine the amount refundable under Subsection (a) in any reasonable manner;

(2) subtract any deduction otherwise allowed by law; and

(3) determine whether to pay a refund under this section from the suspense account of the authority or from other sales and use tax revenue of the authority.

(c) If the withdrawn unit of election has continuously been a part of the authority since the authority was confirmed at the initial confirmation election, the comptroller shall also refund to the governing body of the unit an amount equal to the amount by which the unit's apportioned share of the authority's assets exceeds the gross financial obligation of the unit.

Sec. 451.615. USE OF REFUNDED REVENUE. (a) The governing body of a unit of election that receives a refund under Section 451.614 may use the refund only for public purposes directly related to the functions of government that will benefit the residents of the unit as a whole.

(b) If the governing body distributes refund revenue to any other person, the governing body shall:

(1) ensure that the recipient spends the amount received to benefit the residents of the unit of election as a whole;

(2) ensure that the amount distributed is spent for public purposes that are the predominant purpose of the distribution; and

(3) condition the distribution by contract or other legal manner to provide the governing body with sufficient control of the use of the amounts distributed to ensure that the public purposes for which the distribution is made are carried out and to protect the public investment in the revenue.

(b) The authority and the unit of election that has withdrawn shall determine the amount of the cost of providing services to persons with disabilities. If the authority and the unit of election cannot agree on the amount, the comptroller shall determine the amount.

A participating unit may use proceeds received under this subsection only for advanced transportation or mobility enhancement purposes in the territory of the authority.

(h) Payments under Subsection (g) shall be made monthly beginning the first day of the month after the month in which the authority receives proceeds of the sales and use tax imposed under this section.

(i) The governing body of the district shall place one-fourth of the proceeds of the sales and use tax in a separate account. Funds in the account, together with interest or other revenues earned on those funds, may be used as determined by the governing body of the district only to provide the appropriate amount to the Texas Department of Transportation, a county or municipality in which the district is located, or a local government corporation created under Chapter 431 as the local share of a state or federal grant, including a transfer of money by the Texas Department of Transportation or another state or federal entity under an agreement with a county, municipality, or local government corporation created by the county or municipality under Chapter 431, for advanced transportation or mobility enhancement purposes in the territory of the district.

(j) For projects to be funded under Subsection (i), the governing body of the district shall:

(1) obtain recommendations from the appropriate metropolitan planning organization;

(2) prioritize projects eligible for funding under that subsection; and

(3) consider in the selection and prioritization process the geographic location of other state or federally funded transportation projects, advanced transportation projects, and mobility enhancement projects so as to foster geographic equity in the planning and development of the projects.

(k) Pursuant to its authority under Subsection (i), the governing body of the district may enter into an agreement or other contractual arrangement with a county, municipality, or local government corporation created under Chapter 431 by a county or municipality to transfer proceeds of the district's sales and use tax identified in Subsection (i) to the county, municipality, or local government corporation to finance any cost relating to mobility enhancement purposes in the territory of the district. The county, municipality, or local government corporation may pledge and create a lien on the proceeds transferred. The lien and pledge are subject to Chapter 1208, Government Code. Money of the district other than the portion of the district's sales and use tax identified in Subsection

(i) may not be used or obligated for purposes identified in Subsection (i).

(1) Notwithstanding any other provision of this chapter, the governing body of a district may, by order or resolution, without the necessity of an election specifically concerning the matter:

(1) pledge the sales and use tax proceeds identified in Subsection (f) from a sales and use tax imposed by an election held under this section after May 21, 1999, to one or more series of sales and use tax revenue bonds issued under Subchapter H, subject to Subsection (1-1); and

(2) enter into an agreement or contractual arrangement under Subsection (k).

(1-1) The governing body of a district may not pledge sales and use tax proceeds under Subsection (1) unless the board has conducted a public hearing concerning the issuance of the bonds to which the proceeds are pledged and published notice of the hearing at least 14 days before the date of the hearing in a newspaper of general circulation in the principal municipality of the authority.

(m) As a condition of a payment under Subsection (i), the county, municipality, or local government corporation shall provide the governing body of the district a certificate indicating that the county, municipality, or local government corporation will use the money in conformity with this subchapter.

(1) in each municipality in the authority; and

(2) in the unincorporated area of each county in the authority.

Added by Acts 1999, 76th Leg., ch. 155, Sec. 1, eff. May 21, 1999.

(a) If the initial election under Section 451.702 is held only in the principal municipality, or if the voters of another municipality or the unincorporated area of a county do not vote to join the district at the initial election under Section 451.702, the governing body of the

other municipality or the commissioners court of the county may order an election in the municipality or the county at a later date on the question of joining the district, except that the election may not be held if the governing body of the district determines that the addition of the municipality or unincorporated area would create a financial hardship on the district because:

(1) the territory to be added is not contiguous to the territory of the existing district; or

(2) the addition of the territory would impair the imposition of the sales and use tax authorized by this subchapter.

(b) An election ordered under this section shall be held in the same manner as the initial election, except that the governmental entity ordering the election shall pay the costs of the election, and the governing body of that entity shall canvass the vote, declare the results, and notify the district of the results of the election.

(c) If after an election held under this subchapter, the imposition of the district's tax would not exceed the limit imposed by Section 451.706(a), at the election the ballot shall be prepared to permit voting for or against substantially the following proposition: "Joining the Advanced Transportation District and authorizing a sales and use tax at the rate of ____ (rate imposed elsewhere in the district)."

(b) If the approval of the district's tax at an election held under Section 451.705 would cause the tax in a political subdivision to exceed the limit imposed under Subsection (a), the governing body of the political subdivision holding an election under Section 451.705 shall prepare the ballot to allow the voters of the subdivision to determine which portion of other sales taxes of that subdivision will be repealed if the voters approve joining the

district, except that the following may not be reduced:

- (1) the sales and use tax of the authority; and
- (2) a sales and use tax of not more than one percent imposed by a municipality under Section 321.101(a) or 321.103(a), Tax Code.

SUBCHAPTER P. LOCAL CONTROL OF PEACE OFFICER EMPLOYMENT MATTERS IN CERTAIN AUTHORITIES

Sec. 451.751. APPLICABILITY. This subchapter applies only to an authority in which the principal municipality has a population of more than 1.5 million.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.752. DEFINITIONS. In this subchapter:

(1) "Association" means an organization in which peace officers employed by the authority participate and that exists for the purpose, wholly or partly, of dealing with the authority

concerning grievances, labor disputes, wages, rates of pay, hours of work, or conditions of work affecting peace officers.

(2) "Public employer" means an authority that is required to establish the wages, salaries, rates of pay, hours of work, working conditions, and other terms and conditions of employment of peace officers employed by the authority.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.753. GENERAL PROVISIONS RELATING TO AGREEMENTS, RECOGNITION, AND STRIKES. (a) An authority may not be denied local control over the wages, salaries, rates of pay, hours of work, or other terms and conditions of employment to the extent the public employer and the association recognized as the sole and exclusive bargaining agent under Section 451.754 agree as provided by this subchapter. Applicable statutes and applicable local rules and regulations apply to an issue not governed by the agreement.

(b) An agreement under this subchapter must be written.

(c) This subchapter does not require a public employer or a recognized association to meet and confer on any issue or reach an agreement.

(d) A public employer and the recognized association may meet and confer only if the association does not advocate an illegal strike by public employees.

(e) A peace officer of an authority may not engage in a strike or organized work stoppage against this state or a political subdivision of this state. A peace officer who participates in a strike forfeits any civil service rights, reemployment rights, and other rights, benefits, or privileges the peace officer may have as a result of the person's employment or prior employment with the authority. This subsection does not affect the right of a person to cease work if the person is not acting in concert with others in an organized work stoppage.

(f) The public employer's chief executive officer or the chief executive officer's designee shall select a group of persons to represent the public employer as its sole and exclusive bargaining agent for issues related to the employment of peace officers by the authority.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.754. RECOGNITION OF PEACE OFFICER ASSOCIATION. (a)

In an authority that chooses to meet and confer under this subchapter, the public employer shall recognize an association submitting a petition for recognition signed by a majority of the peace officers employed by the authority, excluding the head of the peace officer department of the authority and the assistant department heads in the rank or classification immediately below that of the department head, as the sole and exclusive bargaining agent for all of the peace officers employed by the authority, excluding the department head and assistant department heads, until recognition of the association is withdrawn by a majority of the peace officers eligible to sign a petition for recognition.

(b) Whether an association represents a majority of the covered peace officers shall be resolved by a fair election conducted according to procedures agreeable to the parties. If the parties are unable to agree on election procedures, either party may request the American Arbitration Association to conduct the election and to certify the results. Certification of the results of an election under this subsection resolves the question concerning representation. The association is liable for the expenses of the election, except that if two or more associations seeking recognition as the bargaining agent submit petitions signed by a majority of the peace officers eligible to sign the petition, the associations shall share equally the costs of the election.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.755. OPEN RECORDS. (a) A proposed agreement and a document prepared and used by the authority in connection with a proposed agreement are available to the public under Chapter 552, Government Code, only after the agreement is ratified by the governing body of the authority.

(b) This section does not affect the application of Subchapter C, Chapter 552, Government Code, to a document prepared and used by the authority in connection with the agreement.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.756. RATIFICATION AND ENFORCEABILITY OF AGREEMENT.

(a) An agreement under this subchapter is enforceable and binding on the public employer, the recognized association, and the peace officers covered by the agreement only if:

(1) the authority's governing body ratified the agreement by a majority vote; and

(2) the recognized association ratified the agreement by conducting a secret ballot election at which only the peace officers of the authority in the association were eligible to vote, and a majority of the votes cast at the election favored ratifying the agreement.

(b) An agreement ratified as described by Subsection (a) may establish a procedure by which the parties agree to resolve disputes related to a right, duty, or obligation provided by the agreement, including binding arbitration on a question involving interpretation of the agreement.

(c) A state district court of a judicial district in which the majority of the territory within the corporate limits of the principal municipality in the authority is located has jurisdiction to hear and resolve a dispute under the ratified agreement on the application of a party to the agreement aggrieved by an action or omission of the other party when the action or omission is related to a right, duty, or obligation provided by the agreement. The court may issue proper restraining orders, temporary and permanent injunctions, or any other writ, order, or process, including contempt orders, that are appropriate to enforcing the agreement.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.757. AGREEMENT SUPERSEDES CONFLICTING PROVISIONS. (a)

A written agreement ratified under this subchapter preempts, during the term of the agreement and to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the state, by the authority or another political subdivision, or by a division or agent of the authority or other political subdivision, such as a personnel board or a civil service commission.

(b) An agreement ratified under this subchapter may not interfere with the right of a member of a bargaining unit to pursue

allegations of discrimination based on race, creed, color, national origin, religion, age, sex, or disability with the Commission on Human Rights or the federal Equal Employment Opportunity Commission or to pursue affirmative action litigation.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

Sec. 451.758. ELECTION TO REPEAL AGREEMENT. (a) Not later than the 60th day after the date an agreement is ratified by the public employer and the association, a petition signed by a number of registered voters who reside in the authority service area equal to 10 percent of the votes cast at the most recent general election in the county in which a majority of the territory within the corporate limits of the principal municipality in the authority is located may be presented to the county clerk of that county calling for the repeal of the agreement.

(b) If a petition is presented to the county clerk under Subsection (a), the authority shall:

(1) repeal the agreement; or

(2) certify that it is not repealing the agreement to the commissioners court of the county described by Subsection (a), which shall then call an election in the county to determine whether to repeal the agreement.

(c) An election called under Subsection (b)(2) may be held as part of the next regularly scheduled general election or at a special election called by the commissioners court for that purpose. The ballot shall be printed to provide for voting for or against the proposition: "Repeal the agreement ratified on _____ (date agreement was ratified) by the _____ (name of authority) and the peace officers employed by the authority concerning wages, salaries, rates of pay, hours of work, and other terms of employment."

(d) If a majority of the votes cast at the election favor the repeal of the agreement, the agreement is void.

Added by Acts 2001, 77th Leg., ch. 186, Sec. 1, eff. Sept. 1, 2001.

the authority to achieve the purposes of the program.

(b) An overall minority and women-owned business enterprise contract percentage goal may be established as a part of the program only after reasonable consultation with affected organizations and a qualified independent source and after public comment. In establishing a goal, the authority shall consider the various types of construction contracts the authority expects to award and the effect of market conditions on the feasibility of attaining the goals.

Sec. 452.455. COMPUTATION OF PERFORMANCE INDICATORS. (a) This section applies to an authority required under Section 452.454 to contract for a performance audit.

(b) An authority's operating cost per passenger is computed by dividing the authority's annual operating cost by the passenger trips for the same period.

(c) The sales and use tax receipts per passenger are computed by dividing the annual receipts from authority sales and use taxes by passenger trips for the same period.

(c-1) The subsidy per passenger is computed by subtracting annual operating revenues from annual operating costs and dividing that amount by the total number of passengers for the same period.

(d) The operating cost per revenue hour is computed by dividing the annual operating cost by the total of scheduled hours that authority revenue vehicles are in revenue service for the same period.

(e) The operating cost per revenue mile is computed by dividing the annual operating cost by the number of miles traveled by authority revenue vehicles while in revenue service.

(f) The fare recovery rate is computed by dividing the annual

revenue, including fares, tokens, passes, tickets, and route guarantees, provided by passengers and sponsors of passengers of revenue vehicles, by the operating cost for the same period. Charter revenue, interest income, advertising income, and other operating income are excluded from revenue provided by passengers and sponsors of passengers.

(g) The number of passengers per hour is computed by dividing the total number of annual passengers by the total number of revenue vehicle hours for the same period.

(h) On-time performance is computed by determining an annual percentage of revenue vehicle trips of revenue vehicles that depart from selected locations at a time not earlier than the published departure time and not later than five minutes after that published time. On-time performance is computed only for fixed route revenue service.

(i) The number of accidents per 100,000 miles is computed by multiplying the annual number of accidents by 100,000 and dividing the product by the number of miles for all service, including charter and nonrevenue service for the same period. In this subsection, "accident" includes:

(1) a collision that involves an authority's revenue vehicle, other than a lawfully parked revenue vehicle, and results in property damage, injury, or death; and

(2) an operating incident resulting in the injury or death of a person on board or boarding or alighting from an authority's revenue vehicle.

(j) The number of miles between mechanical service calls is computed by dividing the annual number of miles for all service, including charter service and nonrevenue service, by the number of mechanical service calls for the same period. In this subsection, "mechanical service call" means an interruption in revenue service that is caused by revenue vehicle equipment failure that requires assistance from a person other than the vehicle operator before the vehicle can be operated normally.

(k) In this section:

(1) "Operating cost" means an authority's costs of providing public transit service, including purchased transit service not performed by the authority, but excluding the costs of:

(A) depreciation, amortization, and capitalized charges;

- (B) charter bus operations; and
- (C) coordination of carpool and vanpool activities.

(2) "Passenger" or "passenger trips" means the number of all passenger boardings, including transfers, but excluding charter passengers and carpool and vanpool passengers whose trips are only coordinated by the authority.

(3) "Revenue service" means the time an authority revenue vehicle is in service to carry passengers, other than charter passengers.

(4) "Revenue vehicle" means a vehicle, or a combination of rail vehicles comprising a train, that is:

- (A) used to carry paying passengers; and
- (B) operated by an authority or as a purchased service.

The response must include each proposal for action relating to recommendations included in the report, whether the proposal for action is pending, adopted, or rejected.

(b) The authority shall make copies of the report and the response available for public inspection at the offices of the authority during normal business hours.

SUBCHAPTER P. ADDITION OF TERRITORY

Sec. 452.601. ADDITION OF TERRITORY BY MUNICIPAL ANNEXATION.

(a) When a municipality that is part of an authority annexes territory that before the annexation is not part of the authority, the annexed territory becomes part of the authority.

(b) When a contiguous municipality annexes additional territory, the annexed territory becomes a part of the subregional authority created by the contiguous municipality.

(c) Except for Subsection (b), this subchapter does not apply to an authority created by a contiguous municipality.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 452.602. ADDITION OF MUNICIPALITY BY ELECTION. (a) The territory of a municipality that is not part of an authority may be added to an authority if:

(1) any part of the municipality is located in a county in which the authority is located;

(2) the governing body of the municipality orders an election under this section on whether the territory of the municipality should be added to the authority; and

(3) a majority of the votes received in the election favor the measure.

(c) A municipality that does not have territory that is part of an authority may be added to the territory of an authority on a date determined by the executive committee if:

(1) any part of the territory of the municipality is located in a county in which the authority has territory or in a county that is adjacent to a county in which the authority has territory;

(2) the executive committee states, by resolution, the authority's intention to provide transportation services in the territory of the municipality;

(3) the governing body of the municipality calls an election on the addition of the territory of the municipality to the territory of the authority; and

(4) a majority of the votes cast in the election favor the proposition.

(d) The election in a municipality to approve the addition of the territory of the municipality to the territory of the authority is to be treated for all purposes as an election to reduce the rate of the municipality's special sales and use tax, on the effective date determined by the executive committee, to the highest rate that will not impair the imposition of the authority's sales and use tax.

(e) At any time after the date of the election approving the addition of the territory of the municipality to the territory of the authority, the executive committee and the governing body of the municipality may enter into an interlocal agreement that provides for the eventual admission of the territory of the municipality to the

territory of the authority.

(f) Notwithstanding Section 452.607, a sales and use tax imposed by the authority takes effect in the territory of the municipality on the first day of the first calendar quarter that begins after the date the comptroller receives a certified copy of an order adopted by the executive committee adding the territory of the municipality, accompanied by a map of the authority clearly showing the territory added.

addition of another subregion.

(a) A municipality with a population of at least 250,000 according to the most recent federal decennial census and located in a county that has no principal municipality with a population of more than 1.1 million according to the most recent federal decennial census may join a separate authority by complying with this chapter.

(b) If a municipality described by Subsection (a) joins a separate authority and another separate authority is subsequently established in a county that has no principal municipality with a population of more than 1.1 million according to the most recent federal decennial census, any municipality in that county that has voted to participate with any authority created under this chapter may at the time of the creation of the new authority:

- (1) remain in the authority that was created first;
- (2) join the new authority in the county in which the municipality is located; or
- (3) participate with both authorities.

(c) A municipality in which capital improvements have been made at its request by an authority must on its transfer to a different authority or participation with more than one authority continue to honor reimbursement obligations resulting from the improvements.

Sec. 452.606. EXECUTIVE COMMITTEE APPROVAL OF ANNEXATION: EFFECTIVE DATE. (a) The addition of territory approved under Section 452.602 or 452.603 does not take effect if, before the

effective date of the addition under Subsection (b), the executive committee of the authority gives written notice to the governing body of the municipality or the commissioners court of the county that held the election that the addition would create a financial hardship on the authority because:

(1) the territory to be added is not contiguous to the territory of the existing authority; or

(2) the addition of the territory would impair the imposition of the sales and use tax authorized by this chapter.

(b) In the absence of a notice under Subsection (a), the addition of territory approved under Section 452.602 or 452.603 takes effect on the 31st day after the date of the election.

Sec. 452.607. ADDED TERRITORY: EFFECTIVE DATE OF TAXES. (a) A sales and use tax imposed by an authority under Subchapter I, other than a tax imposed by an authority created by a contiguous municipality and except as provided by Section 452.403, takes effect in territory added to the authority under this subchapter on the first day of the first calendar quarter that begins after the date the comptroller receives:

(1) a certified copy of an order adding the territory or of an order canvassing the returns and declaring the result of the election; and

(2) a map of the authority showing clearly the territory added.

(b) The presiding officer of the executive committee shall send the order and map required under Subsection (a) to the comptroller by certified or registered mail.

If implementation is delayed, the tax takes effect on the first day of the second calendar quarter that begins after the date on which the comptroller receives the order and map. This subsection does not

apply to an authority created by a contiguous municipality.

(e) On the date of annexation of territory to a subregional authority created by a contiguous municipality, a tax imposed by the authority takes effect in the added territory.

(1) the authority shall cease providing transportation services in the withdrawn unit of election; and

(2) the financial obligations of the authority attributable to the withdrawn unit of election cease to accrue.

(b) Withdrawal from an authority does not affect the right of the authority to travel through the territory of the unit of election to provide service to a unit of election that is a part of the authority.

(c) In a unit of election that withdraws from an authority consisting of one subregion governed by a subregional board created under Subchapter O, title to all real estate in the unit of election, including improvements made by the authority, except a right-of-way or an improvement to a right-of-way, vests in the unit of election if the unit of election by resolution claims the real estate and improvements within 30 days after the effective date of the election.

(d) If the real estate and improvements are within 30 days after the effective date of the election determined by the authority to be necessary for the continuation of service to the remaining units of election, the authority may retain the use of the real estate and improvements for not longer than 15 years or the duration of the authority's remaining federal grant obligation for the facility, whichever is longer. If the authority retains the use, the authority is responsible for all operation and maintenance costs of the facility.

Sec. 452.658. COLLECTION OF SALES AND USE TAX AFTER WITHDRAWAL.

(a) Until the amount of revenue from an authority's sales and use tax collected in a withdrawn unit of election after the effective date of withdrawal and paid to the authority equals the total financial obligation of the unit, the sales and use tax continues to be collected in the territory of the election unit.

(b) After the amount described by Subsection (a) has been collected, the comptroller shall discontinue collecting the tax in the territory of the unit of election.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 452.659. DETERMINATION OF TOTAL AMOUNT OF FINANCIAL OBLIGATIONS OF WITHDRAWN UNIT. (a) Except as provided by Section 452.660, the total financial obligation of a withdrawn unit of

election to the authority is an amount equal to:

(1) the unit's apportioned share of the authority's outstanding obligations; and

(2) the amount, not computed in Subsection (a)(1), that is necessary and appropriate to allocate to the unit because of financial obligations of the authority that specifically relate to the unit.

(b) An authority's outstanding obligations under Subsection (a)(1) is the sum of:

(1) the obligations of the authority authorized in the budget of, and contracted for by, the authority;

(2) outstanding contractual obligations for capital or other expenditures, including expenditures for a subsequent year, the payment of which is not made or provided for from the proceeds of notes, bonds, or other obligations;

(4) the amount required by the authority to be reserved for all years to comply with financial covenants made with lenders, note or bond holders, or other creditors or contractors; and

(5) the amount necessary for the full and timely payment of the obligations of the authority, to avoid a default or impairment of those obligations, including contingent liabilities.

(c) The apportioned share of a unit's obligation or assets is the amount of the obligation or assets times a fraction, the numerator of which is the number of inhabitants of the withdrawing unit of election and the denominator of which is the number of inhabitants of the authority, including the number of inhabitants of the unit.

(d) The executive committee shall determine the amount of each component of the computations required under this section, including the components of the unit's apportioned share, as of the effective date of withdrawal. The number of inhabitants shall be determined according to the most recent and available applicable data of an agency of the United States.

(e) Notwithstanding any other provision of this chapter, in determining the total financial obligation of a withdrawn unit of election to an authority consisting of one subregion governed by a subregional board created under Subchapter N, Subsection (a)(2) does

not apply, and the amounts calculated under Subsection (a)(1) do not include any financial, contractual, or other obligations incurred by the authority between the date that an election to withdraw is ordered and the date of the canvass of the election. The executive committee shall determine the total financial obligation of the withdrawn unit of election not later than the 180th day after the date the election is called. This subsection:

(a) In addition to the amount determined under Sections 452.659(a)(1) and (2), the total financial obligations of a unit of election withdrawn from an authority consisting of one subregion governed by a subregional board created under Subchapter O include the amount of the cost incurred by the authority for any capital improvements transferred to the unit of election under Section 452.657(c), less the unit of election's share of the total amount of the unencumbered assets of the authority that consist of cash, cash deposits, certificates of deposit, and bonds, stocks, and other negotiable securities.

(b) The unit of election's share of the unencumbered assets of the authority under Subsection (a) is determined by the subregional board as an amount equal to the authority's total unencumbered assets described by Subsection (a), multiplied by the average of:

- (1) the number of inhabitants of the unit of election divided by the number of inhabitants of all units of election of the authority; and
- (2) the total sales tax contributed by the unit of election to the authority divided by the total sales tax contributed to the authority by all units of election of the authority.

(c) The number of inhabitants is determined as provided by Section 452.559(d).

(c) In an election ordered under Subsection (a) or (b) the following proposition shall be submitted to the voters: "Shall the (name of authority) be continued in the city of (name of city)?"

(d) If the majority of votes received in the election do not favor the proposition, the subregional authority ceases to exist on the day after the date of the canvass of the election and all financial obligations of that unit of election stop accruing at that time.

(e) Taxes shall continue to be collected until all financial obligations of the subregional authority are paid and may not be collected after the payment of those obligations.

Sec. 454.026. TRANSPORTATION SYSTEM FRANCHISE. In addition to encumbering the property of a mass transportation system under Section 454.025, a municipality, by the terms of an instrument evidencing that encumbrance, may grant to the purchaser under the power of sale in the instrument a franchise to operate the system and the system's property. A franchise under this section may not exceed 25 years.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 454.027. OPERATING EXPENSES AS LIEN ON REVENUE. If the revenue of a mass transportation system is encumbered under this chapter, the expenses of operation and maintenance, including all salaries, labor, materials, interest, repairs, and extensions necessary to render efficient service and each proper item of expense, are a first lien against the revenues. The expense of an extension may be a lien prior to an existing lien only if:

- (1) the governing body of the municipality considers the extension necessary to keep the system in operation and render adequate service to the municipality and its inhabitants; or
- (2) the extension is necessary to meet a condition that would otherwise impair the original securities.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 454.028. OBLIGATION OF TRANSPORTATION SYSTEM NOT MUNICIPAL DEBT. (a) An obligation of a mass transportation system:

- (1) is not a debt of the municipality;
- (2) is solely a charge on the property, including the pledged revenue, of the encumbered system; and
- (3) may not be included in determining the power of the

municipality to issue any bonds or notes for any purpose authorized by law.

(b) A municipality may make payments on bonds or notes issued under this chapter out of any other funds that lawfully may be used for that purpose.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 454.029. ADDITIONAL BONDS OR NOTES. (a) While bonds or notes that are payable from and secured by a pledge of the revenue of a mass transportation system are outstanding, the municipality that issued the bonds or notes may from time to time issue other bonds or notes for the purpose of:

(1) extending, improving, or both extending and improving the system; or

(2) acquiring another mass transportation system.

(b) Bonds or notes issued under Subsection (a) constitute a lien on the revenue, in the order of their issuance, inferior to the liens securing all issues and series of bonds or notes previously issued.

(c) Notwithstanding Subsection (b), a municipality may:

(1) adopt an ordinance or execute and issue a deed of trust, trust indenture, or similar instrument that provides for the subsequent issuance of additional bonds or notes on a parity with the previously issued bonds or notes; and

(2) authorize, issue, and sell additional bonds or notes, from time to time and in different series, payable from the revenue of the mass transportation system and the revenue of any additional sources, on a parity with the bonds or notes previously issued and secured by liens on the transportation system that are on a parity with the lien securing the previously issued bonds or notes, subject to the conditions of the ordinance or instrument described by Subdivision (1).

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 454.030. REFUNDING BONDS OR NOTES. (a) A municipality may issue refunding bonds or notes to refund one or more series or issues of bonds or notes.

(b) Refunding bonds or notes have the same priority of lien on the revenue pledged to their payment that the bonds or notes being refunded have, except that if all the outstanding bonds or notes of two or more series or issues of bonds or notes are refunded in a single issue of refunding bonds or notes, the lien of all refunding bonds or notes is equal. A refunding bond or note may not have a priority of lien greater than the highest priority of lien of the bonds or notes being refunded.

(c) Refunding bonds or notes must bear interest at the same or lower rate than that borne by the bonds or notes being refunded unless it is shown mathematically that:

(1) a saving will result in the total amount of interest to be paid; and

(2) the annual principal and interest burden will not be increased so as to impair the rights of the holders of any bonds or notes, if any, having a prior or inferior lien.

(d) Bonds or notes may be refunded by issuing refunding bonds or notes to be:

(1) exchanged for the bonds or notes being refunded or cancelled; or

(2) sold, with the proceeds of the sale being used to redeem and cancel the bonds or notes being refunded.

(e) A municipality may provide in a refunding bond or note issue money necessary for paying:

(1) any call premium; and

(2) interest to the date set for calling for redemption the outstanding bonds or notes.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

(b) The commission shall provide 80 percent of the cost of capital expenditures for a ride-sharing activity of a project it approves under this section.

(c) An applicant for financing of a ride-sharing activity must certify that:

(1) money is available to provide 20 percent of the cost of the capital expenditure;

(d) A recipient of money under this section must establish procedures to purchase van pool equipment that are satisfactory to the state and ensure that the equipment is operated for commuter purposes as a nonprofit activity in the manner required by Subsection (e).

(e) A recipient of money under this section must deposit all revenue in excess of operating expenses that is derived from the use

of state-financed van pool equipment in a contingency reserve account designated for use in the replacement of state-financed van pool equipment at the end of the useful life of the equipment.

(f) The state financial interest in the purchase of replacement van pool equipment is based:

(1) on the ratio that money from the contingency reserve account that is used in the purchase of replacement equipment bears to the total price of the equipment; and

(2) on the ratio that state money bears to the total price of the equipment being replaced.

(g) A recipient of money under this section shall return to the state the portion of any remaining money in the contingency reserve account when ride-sharing activities using state-financed van pool equipment cease that represents the ratio of state-to-local financing under the activities.

(c-1) This section shall not be construed to change the substantive law of any sales tax, including the allowed maximum rate or combined rate of local sales taxes.

(d) At any time after the date of an election approving the addition of a municipality under this section, the authority and the governing body of the municipality may enter into an interlocal agreement that provides for the eventual admission of the municipality to the territory of the authority and for the payment of proportional capital recovery fees as determined by the authority. The authority is not required to provide transportation services to the municipality until any capital recovery fees provided for in the agreement are paid to the authority.

(e) A sales and use tax imposed by an authority takes effect in a municipality added to the authority under this section on the first day after the expiration of the first complete calendar quarter that begins after the date the comptroller receives a certified copy of an order adopted by the authority relating to the addition of the municipality or other notice of the addition of the municipality, accompanied by a map of the authority clearly showing the territory added.

CHAPTER 461. STATEWIDE COORDINATION OF PUBLIC TRANSPORTATION

Sec. 461.001. LEGISLATIVE INTENT AND CONSTRUCTION. (a) Public transportation services are provided in this state by many different entities, both public and private. The multiplicity of public transportation providers and services, coupled with a lack of coordination between state oversight agencies, has generated

inefficiencies, overlaps in service, and confusion for consumers. It is the intent of this chapter:

- (1) to eliminate waste in the provision of public transportation services;
 - (2) to generate efficiencies that will permit increased levels of service; and
 - (3) to further the state's efforts to reduce air pollution.
- (b) This chapter shall be liberally construed to achieve its purposes.

Added by Acts 2003, 78th Leg., ch. 1325, Sec. 13.01, eff. Sept. 1, 2003.

The term does not include private carriers that do not receive financial assistance from a governmental entity. It also does not include a person who provides intercity rail or bus service, commercial air transportation, water transportation, or nonstop service to or from a point located outside this state. (b) The department may contract with any public or private transportation provider for the department to arrange for the provision of public transportation services.

Sec. 461.005. ELIMINATION OF OVERLAPPING SERVICE. (a) To eliminate waste and maximize efficiency, the department shall encourage public transportation providers to agree on the allocation of specific services and service areas among the providers. The department may incorporate these discussions in planning processes such as the development of the statewide transportation improvement program or a local transportation improvement plan.

(b) If public transportation providers do not reach an agreement on a service plan under Subsection (a), the department may develop an interim service plan for that area.

(c) The department may require that all or a percentage of the vehicles used to provide public transportation services comply with specified emissions standards. The standards may vary among geographic areas based on the need of each area to reduce levels of air pollution. This subsection does not apply to an authority created under Chapter 451, 452, 453, or 460.

Sec. 461.006. DUTIES OF PUBLIC TRANSPORTATION PROVIDERS. Each public transportation provider shall cooperate with the department in eliminating waste and ensuring efficiency and maximum coverage in the

provision of public transportation services.

Added by Acts 2003, 78th Leg., ch. 1325, Sec. 13.01, eff. Sept. 1, 2003.

Sec. 461.007. INCENTIVES FOR EFFICIENCY. (a) Notwithstanding any other law, including a law establishing a formula for the allocation of public transportation grants, the commission may increase or reduce the amount of a grant made to a public transportation provider based on whether the public transportation provider is complying fully with this chapter.

(b) Notwithstanding any other law, the commission may consider whether a public transportation provider in a geographic area of this state is complying fully with this chapter in executing the commission's other responsibilities relating to that area.

Sec. 501.076. LIMITED POWER OF ATTORNEY. (a) An owner who has a contractual option to transfer ownership of a vehicle in full or partial satisfaction of the balance owed on the vehicle, as provided in Section 348.123(b)(5), Finance Code, may execute a written limited power of attorney that authorizes an agent to complete and sign for the owner, and provide to the transferee, the form to transfer the title under Section 501.071 and the odometer disclosure under Section 501.072, and the other documents necessary to transfer title.

(b) The owner may execute the limited power of attorney at the time the owner enters the contract giving the owner the option to transfer the vehicle or at any time after that date. The limited power of attorney may only be used if an owner elects to transfer the vehicle in full or partial satisfaction of the contract and may not be used by the holder of the contract as part of the holder's exercise of a remedy for a default by the owner under the contract.

(c) The person named as the agent in the limited power of attorney must meet the following requirements:

(1) the person may be a person who has been deputized to perform vehicle registration functions as authorized by rules adopted under Section 520.0071, a licensed vehicle auction company holding a wholesale general distinguishing number under Section 503.022, a person who has a permit similar to one of the foregoing that is issued by the state in which the owner is located, or another person authorized by law to execute title documents in the state in which the owner executes the documents; and

(2) the person may not be the transferee or an employee of the transferee. The person may not act as the agent of both the transferor and transferee in the transaction. For the purposes of this section, a person is not the agent of both the transferor and transferee in a transaction unless the person has the authority to sign the documents pertaining to the transfer of title on behalf of both the transferor and the transferee.

(d) If a limited power of attorney is used under Subsection (a), the holder of the contract shall accompany the power of attorney with a written statement that the vehicle was returned at the election of the owner in full or partial satisfaction of the owner's obligations under the contract and not as the result of the exercise by the holder of the contract of its remedies for default.

(e) A signed and dated written odometer disclosure containing the information described in this subsection may be included on or with the power of attorney if the power of attorney is executed within 120 days before the date of the transfer and is accompanied by the conspicuous written notification described in this subsection. If an odometer disclosure is not obtained in that manner, the transferee or agent or the person to whom the vehicle is delivered at the time of the transfer shall request an odometer disclosure as provided in this subsection. Not more than 120 days before the transfer of the vehicle by the owner, the transferee or agent under

the power of attorney or person receiving delivery of the vehicle shall in writing request the owner to provide a signed and dated written statement stating the odometer reading (not to include tenths of a mile) as of the date of the statement, and further stating words to the effect that either: (i) to the best of the owner's knowledge, the odometer reading reflects the actual mileage of the vehicle; (ii) the actual mileage has gone over the odometer's mechanical limits and the odometer reading reflects the amount of mileage in excess of the mechanical limits of the odometer, if the owner knows that to be the case; or (iii) the odometer reading is not the actual mileage, if the owner knows that to be the case. The statement may consist of a form in which the agent or transferee or person receiving the vehicle includes the identification of the vehicle and owner and which allows the owner to fill in the odometer reading and mark an applicable box to indicate which of condition (i), (ii), or (iii) is applicable and to date and sign the statement. With the request for the owner's statement, the transferee or agent or person receiving the vehicle shall provide a written notification to the owner to the effect that the owner has a duty under law to state the odometer reading, state which of conditions (i), (ii), or (iii) is applicable, and sign, date, and return the statement and that failing to do so or providing false information may result in fines or imprisonment. Unless the written notification is delivered to the owner at substantially the same time that the owner is delivering the signed and dated owner's statement, the written notification must also state a date by which the owner must provide this information and an address to which it may be delivered. This written notification to the owner must be in bold letters, underlined, or otherwise conspicuous and may be in a separate document or included as part of a form to be used for the owner's statement or in another document relating to the potential transfer. The transferee or agent or the person receiving delivery of the vehicle may mail the request and notification to the last known address of the owner or may otherwise send or deliver it to the owner. If there are multiple owners of the same vehicle, the request and notification may be sent to one or more of them and it shall be sufficient for one owner to sign the statement. The owner has a duty to return the signed and dated statement as directed in the notification. In completing the odometer disclosure on the owner's behalf, the agent shall identify the same condition (i), (ii), or (iii) provided in the owner's

statement, unless the agent knows that the condition identified in the owner's statement is not correct. The agent will not indicate in the odometer disclosure it completes on the owner's behalf that the odometer reading is not the actual mileage unless either the owner has so indicated in the owner's statement or the agent knows that the owner's statement is not correct. The agent shall transmit the owner's statement it receives to the transferee after the title transfer is completed. The owner's statement received by the transferee under this subsection need not be filed with the filing office for the other title documents, but the transferee shall retain the owner's statement for a time period and in a similar manner to the retention methods used by a lessor to retain statements under 49 C.F.R. Section 580.8(b), as it may from time to time be amended. The transferee may rely upon the agent's odometer disclosure and the owner's statement unless it knows that they are not correct. A failure by an owner to comply with an obligation under this subsection subjects the owner to the penalties and enforcement provisions of Subchapter H but does not affect the validity of the transfer of title.

(f) This section does not in any way impair or impede any transfers made through use of a power of attorney prior to the effective date of this section, and such transfers shall continue to be valid if they comply with the provisions of this section or would otherwise comply with the law in effect prior to the effective date of this section. This section does not apply to powers of attorney authorized under federal law or regulation that authorize a transferee to act as the agent of the transferor under certain circumstances or to powers of attorney otherwise authorized by the law of this state. This section does not affect the use of powers of attorney to sign, complete, and deliver the form to transfer title and other documents necessary to transfer title, including the odometer disclosure, in title transfers other than those described in Subsection (a).

(g) The power of attorney created in this section shall be limited for the purposes and duration specified in this section.

Sec. 501.113. RECORDATION OF SECURITY INTEREST. (a) Recordation of a lien under this chapter is considered to occur when:

- (1) the department's titling system is updated; or
- (2) the county assessor-collector accepts the application of title that discloses the lien with the filing fee.

(b) For purposes of Chapter 9, Business & Commerce Code, the time of recording a lien under this chapter is considered to be the time of filing the security interest, and on such recordation, the recorded lienholder and assignees under Section 501.114 obtain priority over the rights of a lien creditor, as defined by Section

9.102, Business & Commerce Code, for so long as the lien is recorded on the title.

Sec. 501.114. ASSIGNMENT OF LIEN. (a) A lienholder may assign a lien recorded under Section 501.113 without making any filing or giving any notice under this chapter. The lien assigned remains valid and perfected and retains its priority, securing the obligation assigned to the assignee, against transferees from and creditors of the debtor, including lien creditors, as defined by Section 9.102, Business & Commerce Code.

(b) An assignee or assignor may, but need not to retain the validity, perfection, and priority of the lien assigned, as evidence of the assignment of a lien recorded under Section 501.113:

(1) apply to the county assessor-collector for the assignee to be named as lienholder on the title; and

(2) notify the debtor of the assignment.

(c) Failure to make application under Subsection (b) or notify a debtor of an assignment does not create a cause of action against the recorded lienholder, the assignor, or the assignee or affect the continuation of the perfected status of the assigned lien in favor of the assignee against transferees from and creditors of the debtor, including lien creditors, as defined by Section 9.102, Business & Commerce Code.

(d) An application under Subsection (b) must be acknowledged by the assignee.

(e) On receipt of the completed application and fee, the department may:

(1) amend the department's records to substitute the assignee for the recorded lienholder; and

(2) issue a new title as provided by this chapter.

(f) The issuance of a title under Subsection (e) is recordation of the assignment.

(g) Regardless of whether application is made for the assignee to be named as lienholder on the title, the time of the recordation of a lien assigned under this section is considered to be the time the lien was initially recorded under Section 501.113.

(h) Notwithstanding Subsections (a)-(g) and procedures that may be conducted under those subsections, the assignment of a lien does not affect the procedures applicable to the foreclosure of a worker's lien under Chapter 70, Property Code, or the rights of the holder of a worker's lien. Notice given to the last known lienholder of record, as provided by that chapter, is adequate to allow foreclosure under that chapter.

(i) Notwithstanding Subsections (a)-(g) and the procedures that may be conducted under those subsections, the assignment of a lien does not affect the procedures applicable to the release of a holder's lien under Section 348.408, Finance Code.

Sec. 501.115. DISCHARGE OF LIEN. (a) When a debt or claim secured by a lien has been satisfied, the lienholder shall, within a reasonable time not to exceed the maximum time allowed by Section 348.408 or 353.405(b), Finance Code, as applicable, execute and deliver to the owner, or the owner's designee, a discharge of the lien in a manner prescribed by the department.

(b) The owner may submit the discharge and title to the department for a new title.

- (1) does not exist; or
- (2) cannot be located for the owner to obtain a release of the lien.

Sec. 501.117. ELECTRONIC LIEN SYSTEM. (a) The department by rule shall develop a system under which a security interest in a motor vehicle may be perfected, assigned, discharged, and canceled electronically instead of by record maintained on a certificate of title. The department may establish categories of lienholders that may participate in the system and, except as provided by this section, may require a lienholder to participate in the system.

(b) The department shall publish and distribute procedures for using the system to county assessor-collectors and to financial institutions and other potential motor vehicle lienholders.

(c) The provisions of this chapter relating to perfecting, assigning, discharging, and canceling a security interest in a motor vehicle by record maintained on a certificate of title do not apply to the extent the security interest is governed by rules adopted under this section.

(d) The department may not require a depository institution, as defined by Section 180.002, Finance Code, to participate in the system if the department has issued fewer than 100 notifications of security interests in motor vehicles to the depository institution during a calendar year.

(e) The department by rule shall establish a reasonable schedule for compliance with the requirements of Subsection (a) for each category of lienholder that the department requires to participate in the system.

(f) The department may not:

- (1) prohibit a lienholder from using an intermediary to access the system; or
- (2) require a lienholder to use an intermediary to access the system.

(B) \$15 of the fee if the applicant's residence is any

(b-1) Fees collected under Subsection (b) to be sent to the comptroller shall be deposited to the credit of the Texas Mobility Fund, except that \$5 of each fee imposed under Subsection (a)(1) and deposited on or after September 1, 2008, and before September 1, 2015, shall be deposited to the credit of the Texas emissions reduction plan fund.

(b-2) The comptroller shall establish a record of the amount of the fees deposited to the credit of the Texas Mobility Fund under Subsection (b-1). On or before the fifth workday of each month, the Texas Department of Transportation shall remit to the comptroller for deposit to the credit of the Texas emissions reduction plan fund an amount of money equal to the amount of the fees deposited by the comptroller to the credit of the Texas Mobility Fund under Subsection (b-1) in the preceding month. (d) The county owns all interest earned on fees deposited or invested under Subsection (b)(2)(B). The county treasurer shall credit that interest to the county general fund.

SUBCHAPTER H. PENALTIES AND OTHER ENFORCEMENT PROVISIONS

Sec. 501.145. FILING BY PURCHASER; APPLICATION FOR TRANSFER OF TITLE. (a) Not later than the later of the 30th day after the date of assignment on the documents or the date provided by Section 152.069, Tax Code, the purchaser of the used motor vehicle shall file with the county assessor-collector:

- (1) the certificate of title or other evidence of title; or
- (2) if appropriate, a document described by Section 502.457 and the title or other evidence of ownership.

(b) The filing under Subsection (a) is an application for transfer of title as required under this chapter and an application for transfer of the registration of the motor vehicle.

(c) Notwithstanding Subsection (a), if the purchaser is a member of the armed forces of the United States, a member of the Texas National Guard or of the National Guard of another state serving on active duty under an order of the president of the United States, or a member of a reserve component of the armed forces of the United States serving on active duty under an order of the president of the United States, the documents described by Subsection (a) must be filed with the county assessor-collector not later than the 60th

day after the date of assignment of ownership.

Reenacted, transferred, redesignated and amended by Acts 2011, 82nd Leg., R.S., Ch. 1296 (H.B. 2357), Sec. 59, eff. January 1, 2012.

Sec. 501.146. TITLE TRANSFER; LATE FEE. (a) If the application for the transfer of title is not filed during the period provided by Section 501.145, the late fee is to be paid to the county assessor-collector when the application is filed. If the seller holds a general distinguishing number issued under Chapter 503 of this code or Chapter 2301, Occupations Code, the seller is liable for the late fee in the amount of \$10. If the seller does not hold a general distinguishing number, subject to Subsection (b) the applicant's late fee is \$25.

(b) If the application is filed after the 60th day after the date the purchaser was assigned ownership of the documents under Section 501.0721, the late fee imposed under Subsection (a) accrues an additional penalty in the amount of \$25 for each subsequent 30-day period, or portion of a 30-day period, in which the application is not filed.

(c) Subsections (a) and (b) do not apply if the motor vehicle is eligible to be issued:

(1) classic vehicle license plates under Section 504.501;

or

(2) antique vehicle license plates under Section 504.502.

(d) A late fee imposed under this section may not exceed \$250.

Sec. 501.147. VEHICLE TRANSFER NOTIFICATION. (a) On receipt of a written notice of transfer from the seller of a motor vehicle, the department shall indicate the transfer on the motor vehicle records maintained by the department. As an alternative to a written notice of transfer, the department shall establish procedures that

permit the seller of a motor vehicle to electronically submit a notice of transfer to the department through the department's Internet website. A notice of transfer provided through the department's Internet website is not required to bear the signature of the seller or include the date of signing.

(b) The notice of transfer shall be provided by the department and must include a place for the seller to state:

- (1) a complete description of the vehicle as prescribed by the department;
- (2) the full name and address of the seller;
- (3) the full name and address of the purchaser;
- (4) the date the seller delivered possession of the vehicle to the purchaser;
- (5) the signature of the seller; and
- (6) the date the seller signed the form.

(c) This subsection applies only if the department receives notice under Subsection (a) before the 30th day after the date the seller delivered possession of the vehicle to the purchaser or in accordance with Section 152.069, Tax Code. After the date of the transfer of the vehicle shown on the records of the department, the purchaser of the vehicle shown on the records is rebuttably presumed to be:

- (1) the owner of the vehicle; and
- (2) subject to civil and criminal liability arising out of the use, operation, or abandonment of the vehicle, to the extent that ownership of the vehicle subjects the owner of the vehicle to criminal or civil liability under another provision of law.

(d) The department may adopt rules to implement this section.

(e) This section does not impose or establish civil or criminal liability on the owner of a motor vehicle who transfers ownership of the vehicle but does not disclose the transfer to the department.

(f) The department may not issue a title or register the vehicle until the purchaser applies for a title to the county assessor-collector as provided by this chapter.

(g) A transferor who files the appropriate form with the department as provided by, and in accordance with, this section, whether that form is a part of a title or a form otherwise promulgated by the department to comply with the terms of this section, has no vicarious civil or criminal liability arising out of the use, operation, or abandonment of the vehicle by another person.

Proof by the transferor that the transferor filed a form under this section is a complete defense to an action brought against the transferor for an act or omission, civil or criminal, arising out of the use, operation, or abandonment of the vehicle by another person after the transferor filed the form. A copy of the form filed under this section is proof of the filing of the form.

Transferred, redesignated and amended from Transportation Code, Section 520.023 by Acts 2011, 82nd Leg., R.S., Ch. 1296 (H.B. 2357), Sec. 61, eff. January 1, 2012.

Sec. 501.148. ALLOCATION OF FEES. (a) The county assessor-collector may retain as commission for services provided under this subchapter half of each late fee.

(b) The county assessor-collector shall report and remit the balance of the fees collected to the department on Monday of each week as other fees are required to be reported and remitted. The department shall deposit the remitted fees in the state treasury to the credit of the Texas Department of Motor Vehicles fund.

(c) Of each late fee collected from a person who does not hold a general distinguishing number by the department under Subsection (b), \$10 may be used only to fund a statewide public awareness campaign designed to inform and educate the public about the provisions of this chapter.

(2) the department, and the person was:

(A) discharging official duties as an agent of the department; or

(1) sells, offers to sell, or offers as security for an obligation a motor vehicle registered in this state; and

(2) does not possess the title receipt or certificate of title for the vehicle.

(b) It is not a violation of this section for the beneficial owner of a vehicle to sell or offer to sell a vehicle without having possession of the title to the vehicle if the sole reason he or she does not have possession of the title is that the title is in the possession of a lienholder who has not complied with the terms of Section 501.115(a).

(2) must make a reasonable inquiry as to the right of possession of a motor vehicle by the person delivering the vehicle for transport if the recorded owner of the vehicle is a person other than the person delivering the vehicle for transport.

(b) A person who violates this section commits an offense. An offense under this section is a misdemeanor punishable by a fine of not less than \$50 or more than \$500 for a first offense and, at the jury's discretion, not less than \$100 or more than \$1,000 for a subsequent offense.

The alphanumeric pattern for a license plate issued under this subsection may remain on a token trailer for as long as the registration of the token trailer is renewed or until the token trailer is removed from service or sold. The registration receipt required under Section 621.002 is not required for a vehicle that displays a license plate issued under this subsection.

(e) In addition to all other applicable registration fees, an owner registering a commercial fleet under this section shall pay a one-time license plate manufacturing fee of \$8 for each set of plates issued that includes on the legend the name or logo of the business entity that owns the vehicle instead of the fee imposed by Subsection (c)(2).

SUBCHAPTER I. DEVELOPMENT OF NEW SPECIALTY LICENSE PLATES

Sec. 504.801. CREATION OF NEW SPECIALTY LICENSE PLATES BY THE DEPARTMENT. (a) The department may create new specialty license plates on its own initiative or on receipt of an application from a potential sponsor. A new specialty license plate created under this section must comply with each requirement of Section 504.702 unless

the license is created by the department on its own initiative. The department may permit a specialty license plate created under this section to be personalized. The redesign of an existing specialty license plate at the request of a sponsor shall be treated like the issuance of a new specialty license plate.

(b) Any nonprofit entity may submit an application to the department to sponsor a new specialty license plate. An application may nominate a state agency to receive funds derived from the issuance of the license plates. The application may also identify uses to which those funds should be appropriated.

(c) The department shall design each new specialty license plate in consultation with the sponsor, if any, that applied for creation of that specialty license plate. The department may refuse to create a new specialty license plate if the design might be offensive to any member of the public, if the nominated state agency does not consent to receipt of the funds derived from issuance of the license plate, if the uses identified for those funds might violate a statute or constitutional provision, or for any other reason established by rule. At the request of the sponsor, distribution of the license plate may be limited by the department.

(d) The fee for issuance of license plates created under this subchapter before November 19, 2009, is \$30 unless the department sets a higher fee. This subsection does not apply to a specialty license plate marketed and sold by a private vendor at the request of the specialty license plate sponsor.

(d-1) The fee for issuance of license plates created under this subchapter on or after November 19, 2009, is the amount established under Section 504.851.

(e) For each fee collected for a license plate issued by the department under this section:

(1) \$8 shall be used to reimburse the department for its administrative costs; and

(2) the remainder shall be deposited to the credit of:

(A) the specialty license plate fund, which is an account in the general revenue fund, if the sponsor nominated a state agency to receive the funds; or

(B) the Texas Department of Motor Vehicles fund if the sponsor did not nominate a state agency to receive the funds or if there is no sponsor.

(f) Subchapter D, Chapter 316, Government Code, and Section

403.095, Government Code, do not apply to fees collected under this subchapter.

(g) The department may report to the legislature at any time concerning implementation of this section. The report may include recommendations concerning the appropriations, by amount, state agency, and uses, that are necessary to implement the requests of sponsors.

(h) The department may vary the design of a license plate created under this section to accommodate or reflect its use on a motor vehicle other than a passenger car or light truck.

(i) The sponsor of a new specialty plate may not be a for-profit enterprise.

Sec. 504.802. **MARKETING AND SALE BY PRIVATE VENDOR OF SPECIALTY LICENSE PLATES.** (a) A sponsor of a specialty license plate created under this subchapter may contract with the private vendor authorized under Subchapter J for the marketing and sale of the specialty license plate.

(b) The fee for issuance of a specialty license plate described by Subsection (a) is the amount established under Section 504.851(c).

(c) Notwithstanding any other law, from each fee received from the issuance of a specialty license plate marketed and sold by the private vendor under this section, the department shall:

(1) deduct the administrative costs described by Section 504.801(e)(1);

(2) deposit the portion of the fee for the sale of the plate that the state would ordinarily receive under the contract described by Section 504.851(a) to the credit of:

(A) the specialty license plate fund, if the sponsor nominated a state agency to receive the funds;

(B) the general revenue fund, if the sponsor did not nominate a state agency to receive the funds or if there is no sponsor; or

(C) for a license plate issued under Section 504.614, the public entity that provides or provided funds for the professional sports team's facility; and

(3) pay to the private vendor the remainder of the fee.

(d) A sponsor of a specialty license plate may reestablish its specialty license plate under Sections 504.601 and 504.702 and be credited its previous deposit with the department if a contract entered into by the sponsor under Subsection (a) terminates.

SUBCHAPTER J. MARKETING OF SPECIALTY PLATES THROUGH PRIVATE VENDOR

Sec. 504.851. CONTRACT WITH PRIVATE VENDOR. (a) The department may enter into a contract with the private vendor whose proposal is most advantageous to the state, as determined from competitive sealed proposals that satisfy the requirements of this section, for the marketing and sale of:

(1) personalized license plates; or

(2) with the agreement of the private vendor, other specialty license plates authorized by Subchapters G and I.

(a-1) The department may not issue specialty, personalized, or souvenir license plates with background colors other than white, unless the plates are marketed and sold by the private vendor.

(a-2) Specialty license plates authorized for marketing and sale under Subsection (a) may be personalized and must include:

(1) specialty license plates created under Subchapters G and I on or after November 19, 2009; and

(2) at the request of the specialty license plate sponsor,

an existing specialty license plate created under Subchapters G and I before November 19, 2009.

(a-3) The department may contract with the private vendor for the vendor to:

(1) host all or some of the specialty license plates on the vendor's website;

(2) process the purchase of specialty license plates hosted on the vendor's website and pay any additional transaction cost; and

(3) share in the personalization fee for the license plates hosted on the vendor's website.

(b) The board by rule shall establish fees for the issuance or renewal of personalized license plates that are marketed and sold by the private vendor. Fees must be reasonable and not less than the greater of:

(1) the amounts necessary to allow the department to recover all reasonable costs to the department associated with the evaluation of the competitive sealed proposals received by the department and with the implementation and enforcement of the contract, including direct, indirect, and administrative costs; or

(2) the amount established by Section 504.853(b).

(c) The board by rule shall establish the fees for the issuance or renewal of souvenir license plates, specialty license plates, or souvenir or specialty license plates that are personalized that are marketed and sold by the private vendor or hosted on the private vendor's website. The state's portion of the personalization fee may not be less than \$40 for each year issued. Other fees must be reasonable and not less than the amounts necessary to allow the department to recover all reasonable costs to the department associated with the evaluation of the competitive sealed proposals received by the department and with the implementation and enforcement of the contract, including direct, indirect, and administrative costs. A fee established under this subsection is in addition to:

(1) the registration fee and any optional registration fee prescribed by this chapter for the vehicle for which specialty license plates are issued;

(2) any additional fee prescribed by this subchapter for the issuance of specialty license plates for that vehicle; and

(3) any additional fee prescribed by this subchapter for the issuance of personalized license plates for that vehicle.

(c-1) Subsections (b) and (c) do not apply to the sale at auction of a specialty plate or personalized specialty plate that is not used on a motor vehicle.

(d) At any time as necessary to comply with Subsection (b) or (c), the board may increase or decrease the amount of a fee established under the applicable subsection.

(e) The portion of a contract with a private vendor regarding the marketing and sale of personalized license plates is payable only from amounts derived from the collection of the fee established under Subsection (b). The portion of a contract with a private vendor regarding the marketing, hosting, and sale of souvenir license plates, specialty license plates, or souvenir or specialty license plates that are personalized under Section 504.102 is payable only from amounts derived from the collection of the fee established under Subsection (c).

(f) The department may approve new design and color combinations for personalized or specialty license plates that are marketed and sold by a private vendor under a contract entered into with the private vendor. Each approved license plate design and color combination remains the property of the department.

(g) The department may approve new design and color combinations for specialty license plates authorized by this chapter, including specialty license plates that may be personalized, that are marketed and sold by a private vendor under a contract entered into with the private vendor. Each approved license plate design and color combination remains the property of the department. Except as otherwise provided by this chapter, this subsection does not authorize:

(1) the department to approve a design or color combination for a specialty license plate that is inconsistent with the design or color combination specified for the license plate by the section of this chapter that authorizes the issuance of the specialty license plate; or

(2) the private vendor to market and sell a specialty license plate with a design or color combination that is inconsistent with the design or color combination specified by that section.

(g-1) The department may not:

(1) publish a proposed design or color combination for a specialty license plate for public comment in the Texas Register or otherwise, except on the department's website for a period not to

exceed 10 days; or

(2) restrict the background color, color combinations, or color alphanumeric license plate numbers of a specialty license plate, except as determined by the Department of Public Safety as necessary for law enforcement purposes.

(h) Subject to the limitations provided by Subsections (g) and (g-1), the department may disapprove a design, cancel a license plate, or require the discontinuation of a license plate design or color combination that is marketed, hosted, or sold by a private vendor under contract at any time if the department determines that the disapproval, cancellation, or discontinuation is in the best interest of this state or the motoring public.

(i) A contract entered into by the department with a private vendor under this section:

(1) must comply with any law generally applicable to a contract for services entered into by the department;

(2) must require the private vendor to render at least quarterly to the department periodic accounts that accurately detail all material transactions, including information reasonably required by the department to support fees that are collected by the vendor, and to regularly remit all money payable to the department under the contract; and

(3) may allow or require the private vendor to establish an electronic infrastructure coordinated and compatible with the department's registration system, by which motor vehicle owners may electronically send and receive applications, other documents, or required payments, and that, when secure access is necessary, can be electronically validated by the department.

(j) From amounts received by the department under the contract described by Subsection (a), the department shall deposit to the credit of the Texas Department of Motor Vehicles fund an amount sufficient to enable the department to recover its administrative costs for all license plates issued under this section, any payments to the vendor under the contract, and any other amounts allocated by law to the Texas Department of Motor Vehicles fund. To the extent that the disposition of other amounts received by the department is governed by another law, those amounts shall be deposited in accordance with the other law. Any additional amount received by the department under the contract shall be deposited to the credit of the general revenue fund.

(k) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1296, Sec. 247(22), eff. January 1, 2012.

(l) A contract entered into with the private vendor shall provide for the department to recover all costs incurred by the department in implementing this section. Under the contract, the department may require the private vendor to reimburse the department in advance for:

(1) not more than one-half of the department's anticipated costs in connection with the contract; and

(2) the department's anticipated costs in connection with the introduction of a new specialty license plate.

(m) If the private vendor ceases operation:

(1) the program may be operated temporarily by the department under new agreements with the license plate sponsors until another vendor is selected and begins operation; and

(2) the private vendor's share of the revenue is deposited to the credit of the general revenue fund.

(2) purchase through the private vendor a license to display the alphanumeric pattern on a license plate for any term allowed by law.

(2) the person with whom the department has contracted:

(C) if the person is an insurance support organization, to warrant that the person will not seek to obtain information about a holder of a driver's license under the contract unless the license holder is insured by a client of the organization, and that the person will provide the department with the name of each client to whom the insurance support organization provides information received from the department under the contract.

(d) The attorney general may file a suit against a person with whom the department has contracted under this section for:

(e) If the attorney general brings an action against a person under Subsection (d) and an injunction is granted against the person or the person is found liable for a civil penalty, the attorney general may recover reasonable expenses, court costs, investigative costs, and attorney's fees. Each day a violation continues or occurs is a separate violation for purposes of imposing a penalty under Subsection (d).

(i) The department shall impose a fee on each person with whom the department contracts under this section for the services provided by the department under the contract. The fee must be reasonable and be not less than the amount necessary to allow the department to recover all reasonable costs to the department associated with entering into the contract and providing services to the person under the contract, including direct, indirect, and administrative costs and costs related to the development and deployment of the pilot program.

(j) The department may establish a reasonable deadline by which a person must apply to enter into a contract with the department under this section and may not enter into a contract with a person who fails to apply before that deadline.

(k) To the fullest extent practicable, the services of the

department under a contract entered into under this section shall be provided by, through, or in conjunction with the interactive system established under Section 521.055.

(l) At the conclusion of the term of the pilot program, and on the recommendation of the department, the commission may authorize the department to implement the pilot program as a permanent program.

The department by rule shall establish a system to ensure that addresses of driver's license holders are verified and matched to United States Postal Service delivery addresses by use of address-matching software. The software must meet certification standards under the Coding Accuracy Support System adopted by the United States Postal Service or a subsequent standard adopted by the United States Postal Service to replace Coding Accuracy Support System standards for preparation of bulk mailings. If the department contracts with a provider for bulk mailing services, the contract must require that the provider use address-matching software that meets or exceeds certification standards under the Coding Accuracy Support System or subsequent standards adopted by the United States Postal Service.

(1) for whom the jury has recommended that the license not be revoked under Section 13(g), Article 42.12, Code of Criminal Procedure; or

(2) who is placed under community supervision under that article and is required as a condition of community supervision to not operate a motor vehicle unless the vehicle is equipped with the device described by Section 13(i) of that article, unless the person was punished under Section 49.09(a) or (b), Penal Code, and was subject to Section 49.09(g) of that code.

Text of subsection effective on January 1, 2017

(d) Except as provided by Subsection (e) and Section 521.342(b), during a period of probation the department may not revoke the person's license if the person is required under Article 42A.403 or 42A.404, Code of Criminal Procedure, to successfully complete an educational program designed to rehabilitate persons who have operated motor vehicles while intoxicated, unless the person was punished under Section 49.09(a) or (b), Penal Code, and was subject to Section 49.09(h) of that code. The department may not revoke the license of a person:

(1) for whom the jury has recommended that the license not be revoked under Article 42A.407(a), Code of Criminal Procedure; or

(2) who is placed under community supervision under Chapter 42A, Code of Criminal Procedure, and is required as a condition of community supervision to not operate a motor vehicle unless the

vehicle is equipped with the device described by Article 42A.408 of that chapter, unless the person was punished under Section 49.09(a) or (b), Penal Code, and was subject to Section 49.09(g) of that code.

(e) After the date has passed, according to department records, for successful completion of the educational program designed to rehabilitate persons who operated motor vehicles while intoxicated, the director shall revoke the license of a person who does not successfully complete the program or, if the person is a resident without a license to operate a motor vehicle in this state, shall issue an order prohibiting the person from obtaining a license.

Text of subsection effective until January 1, 2017

(f) After the date has passed, according to department records, for successful completion of an educational program for repeat offenders as required by Section 13, Article 42.12, Code of Criminal Procedure, the director shall suspend the license of a person who does not successfully complete the program or, if the person is a resident without a license, shall issue an order prohibiting the person from obtaining a license.

(g) A revocation, suspension, or prohibition order under Subsection (e) or (f) remains in effect until the department receives notice of successful completion of the educational program. The director shall promptly send notice of a revocation or prohibition order issued under Subsection (e) or (f) by first class mail to the person at the person's most recent address as shown in the records of the department. The notice must include the date of the revocation or prohibition order, the reason for the revocation or prohibition, and a statement that the person has the right to request in writing that a hearing be held on the revocation or prohibition. Notice is considered received on the fifth day after the date the notice is mailed. A revocation or prohibition under Subsection (e) or (f) takes effect on the 30th day after the date the notice is mailed.

The person may request a hearing not later than the 20th day after the date the notice is mailed. If the department receives a request under this subsection, the department shall set the hearing for the earliest practical time and the revocation or prohibition does not take effect until resolution of the hearing.

(h) The hearing shall be held in a municipal or justice court in the county of the person's residence in the manner provided for a suspension hearing under Subchapter N. The issues to be determined at the hearing are whether the person has successfully completed a required educational program and whether the period for completion of the program has passed. If the presiding officer determines that the educational program has not been completed and the period for completion has passed, the officer shall confirm the revocation or prohibition and shall notify the department of that fact. The director may not revoke or prohibit the license if the officer finds that the program has been completed, that, before the hearing, the court that originally imposed the requirement to attend an educational program has granted an extension that has not expired, or that the period for completion has not passed. If the person or the person's agent fails to appear at the hearing, the department shall revoke the person's license until the department receives notice of successful completion of the educational program.

Text of subsection effective until January 1, 2017

(i) On the date that a suspension order under Section 521.343(c) is to expire, the period of suspension or the corresponding period in which the department is prohibited from issuing a license is automatically increased to two years unless the department receives notice of successful completion of the educational program as required by Section 13, Article 42.12, Code of Criminal Procedure. (1) the safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles;

(2) violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property; and

(3) the continuance in force of a license to drive is predicated on compliance with laws and ordinances relating to the operation of motor vehicles in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the states to:

(1) promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where the operators drive motor vehicles; and

(2) make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances, and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the states.

Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered or the conviction was a result of the forfeiture of bail, bond, or other security; and include any special findings made in connection with the conviction. (b) As to other convictions reported pursuant to this compact, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(c) If the laws of a state do not provide for offenses or violations denominated or described in precisely the words employed in Subsection (a), those offenses or violations of a substantially similar nature and the laws of that state shall be understood to contain such provisions as may be necessary to ensure that full force and effect is given to this compact.

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any state to apply any of its other laws relating to licenses to drive to any person or circumstance nor to invalidate or prevent any driver's license agreement or other cooperative arrangement between a member state and a nonmember state.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

The order may grant enforcement of some or all traffic rules requested in the petition.

(d) As a condition of extending a traffic rule under Subsection (c), the commissioners court may require the special district to pay for all or a part of the costs of extending enforcement to the roads of the district. (d) This section does not prohibit a person from placing on private property adjacent to a highway a sign that gives useful directional information and that cannot be mistaken for an official sign.

(e) A sign, signal, light, or marking prohibited under this section is a public nuisance. The authority with jurisdiction over the highway may remove that sign, signal, light, or marking without notice.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 544.007. TRAFFIC-CONTROL SIGNALS IN GENERAL. (a) A traffic-control signal displaying different colored lights or colored lighted arrows successively or in combination may display only green, yellow, or red and applies to operators of vehicles as provided by this section.

(b) An operator of a vehicle facing a circular green signal may proceed straight or turn right or left unless a sign prohibits the turn. The operator shall yield the right-of-way to other vehicles and to pedestrians lawfully in the intersection or an adjacent crosswalk when the signal is exhibited.

(c) An operator of a vehicle facing a green arrow signal, displayed alone or with another signal, may cautiously enter the intersection to move in the direction permitted by the arrow or other indication shown simultaneously. The operator shall yield the right-of-way to a pedestrian lawfully in an adjacent crosswalk and other traffic lawfully using the intersection.

(d) An operator of a vehicle facing only a steady red signal shall stop at a clearly marked stop line. In the absence of a stop line, the operator shall stop before entering the crosswalk on the near side of the intersection. A vehicle that is not turning shall

remain standing until an indication to proceed is shown. After stopping, standing until the intersection may be entered safely, and yielding right-of-way to pedestrians lawfully in an adjacent crosswalk and other traffic lawfully using the intersection, the operator may:

(1) turn right; or

(2) turn left, if the intersecting streets are both one-way streets and a left turn is permissible.

(e) An operator of a vehicle facing a steady yellow signal is warned by that signal that:

(1) movement authorized by a green signal is being terminated; or

(2) a red signal is to be given.

(f) The Texas Transportation Commission, a municipal authority, or the commissioners court of a county may prohibit within the entity's jurisdiction a turn by an operator of a vehicle facing a steady red signal by posting notice at the intersection that the turn is prohibited.

(g) This section applies to an official traffic-control signal placed and maintained at a place other than an intersection, except for a provision that by its nature cannot apply. A required stop shall be made at a sign or marking on the pavement indicating where the stop shall be made. In the absence of such a sign or marking, the stop shall be made at the signal.

(h) The obligations imposed by this section apply to an operator of a streetcar in the same manner they apply to the operator of a vehicle.

(i) An operator of a vehicle facing a traffic-control signal, other than a freeway entrance ramp control signal or a pedestrian hybrid beacon, that does not display an indication in any of the signal heads shall stop as provided by Section 544.010 as if the intersection had a stop sign.

(j) In this section:

(1) "Freeway entrance ramp control signal" means a traffic-control signal that controls the flow of traffic entering a freeway.

(2) "Pedestrian hybrid beacon" means a pedestrian-controlled traffic-control signal that displays different colored lights successively only when activated by a pedestrian.

Sec. 544.0075. CERTAIN TRAFFIC-ACTUATED ELECTRIC TRAFFIC-CONTROL SIGNALS. (a) This section applies only to a traffic-actuated electric traffic-control signal that consists of a traffic-control signal for which the intervals vary according to the demands of vehicular traffic as registered by a detector and that is installed and operating at an intersection.

(b) In addition to any other type of vehicle the presence of which the detector for the traffic-actuated electric traffic-control signal may register, the detector for a traffic-actuated electric traffic-control device to which this section applies must be capable of registering the presence of a motorcycle.

Sec. 544.008. FLASHING SIGNALS. (a) The operator of a vehicle facing a flashing red signal shall stop at a clearly marked stop line. In the absence of a stop line, the operator shall stop before entering the crosswalk on the near side of the intersection. In the absence of a crosswalk, the operator shall stop at the place nearest the intersecting roadway where the operator has a view of approaching traffic on the intersecting roadway. The right to proceed is subject to the rules applicable after stopping at a stop sign.

(b) The operator of a vehicle facing a flashing yellow signal may proceed through an intersection or past the signal only with caution.

(c) This section does not apply at a railroad crossing.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 544.009. LANE-DIRECTION-CONTROL SIGNALS. If a lane-direction-control signal is placed over an individual lane of a highway, a vehicle may travel in a lane over which a green signal is

shown but may not enter or travel in a lane over which a red signal is shown.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 544.010. STOP SIGNS AND YIELD SIGNS. (a) Unless directed to proceed by a police officer or traffic-control signal, the operator of a vehicle or streetcar approaching an intersection with a stop sign shall stop as provided by Subsection (c).

(b) If safety requires, the operator of a vehicle approaching a yield sign shall stop as provided by Subsection (c).

(c) An operator required to stop by this section shall stop before entering the crosswalk on the near side of the intersection. In the absence of a crosswalk, the operator shall stop at a clearly marked stop line. In the absence of a stop line, the operator shall stop at the place nearest the intersecting roadway where the operator has a view of approaching traffic on the intersecting roadway.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 544.011. LANE USE SIGNS. If, on a highway having more than one lane with vehicles traveling in the same direction, the Texas Department of Transportation or a local authority places a sign that directs slower traffic to travel in a lane other than the farthest left lane, the sign must read "left lane for passing only."

Sec. 544.012. NOTIFICATION OF PHOTOGRAPHIC TRAFFIC MONITORING SYSTEM. (a) In this section:

(1) "Photographic traffic monitoring system" means a system that:

(A) consists of a camera and vehicle sensor installed to work in conjunction with an electrically operated traffic-control signal; and

(B) is capable of producing one or more recorded images

that depict the license plate attached to a motor vehicle that is not operated in compliance with the instructions of the traffic-control signal.

(2) "Recorded image" means an image that:

(A) depicts a motor vehicle; and

(B) is automatically recorded on a photograph or digital image.

(b) This section applies only to a municipality that pursuant to an ordinance of the municipality employs a photographic traffic monitoring system to enforce compliance with the instructions of traffic-control signals in the municipality.

(c) The municipality shall install signs along each roadway that leads to an intersection at which a photographic traffic monitoring system is in active use. The signs must be at least 100 feet from the intersection or located according to standards established in the manual adopted by the Texas Transportation Commission under Section 544.001, be easily readable to any operator approaching the intersection, and clearly indicate the presence of a photographic monitoring system that records violations that may result in the issuance of a notice of violation and the imposition of a monetary penalty.

(d) A municipality that fails to comply with Subsection (c) may not impose or attempt to impose a civil or administrative penalty against a person, including the owner of a motor vehicle or an operator, for a failure to comply with the instructions of a traffic-control signal located at the applicable intersection.

(e) Subsection (d) does not prohibit a peace officer from arresting or issuing a citation and notice to appear to a person whom the officer observes to have failed to comply with the instructions of a traffic-control signal located at the intersection.

Sec. 544.013. CHANGEABLE MESSAGE SIGN SYSTEM. (a) In this section, "changeable message sign" means a sign that conforms to the manual and specifications adopted under Section 544.001. The term includes a dynamic message sign.

(b) The Texas Department of Transportation in cooperation with

local governments shall actively manage a system of changeable message signs located on highways under the jurisdiction of the department to mitigate traffic congestion by providing current information to the traveling public, including information about traffic incidents, weather conditions, road construction, and alternative routes when applicable.

CHAPTER 545. OPERATION AND MOVEMENT OF VEHICLES

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 545.001. DEFINITIONS. In this chapter:

(1) "Pass" or "passing" used in reference to a vehicle means to overtake and proceed past another vehicle moving in the same direction as the passing vehicle or to attempt that maneuver.

(2) "School bus" includes a multifunction school activity bus.

Sec. 545.002. OPERATOR. In this chapter, a reference to an operator includes a reference to the vehicle operated by the operator if the reference imposes a duty or provides a limitation on the movement or other operation of that vehicle.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

SUBCHAPTER B. DRIVING ON RIGHT SIDE OF ROADWAY AND PASSING

Sec. 545.051. DRIVING ON RIGHT SIDE OF ROADWAY. (a) An operator on a roadway of sufficient width shall drive on the right half of the roadway, unless:

(1) the operator is passing another vehicle;

(2) an obstruction necessitates moving the vehicle left of the center of the roadway and the operator yields the right-of-way to

a vehicle that:

(A) is moving in the proper direction on the unobstructed portion of the roadway; and

(B) is an immediate hazard;

(3) the operator is on a roadway divided into three marked lanes for traffic; or

(4) the operator is on a roadway restricted to one-way traffic.

(b) An operator of a vehicle on a roadway moving more slowly than the normal speed of other vehicles at the time and place under the existing conditions shall drive in the right-hand lane available for vehicles, or as close as practicable to the right-hand curb or edge of the roadway, unless the operator is:

(1) passing another vehicle; or

(2) preparing for a left turn at an intersection or into a private road or driveway.

(c) An operator on a roadway having four or more lanes for moving vehicles and providing for two-way movement of vehicles may not drive left of the center line of the roadway except:

(1) as authorized by an official traffic-control device designating a specified lane to the left side of the center of the roadway for use by a vehicle not otherwise permitted to use the lane;

(2) under the conditions described by Subsection (a)(2);

or

(3) in crossing the center line to make a left turn into or out of an alley, private road, or driveway.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.052. DRIVING PAST VEHICLE MOVING IN OPPOSITE DIRECTION. An operator moving in the opposite direction of the movement of another operator shall:

(1) move to or remain to the right; and

(2) on a roadway wide enough for not more than one line of vehicle movement in each direction, give the other operator:

(A) at least one-half of the main traveled portion of the roadway; or

(B) if complying with Paragraph (A) is not possible, as much of the roadway as possible.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.053. PASSING TO THE LEFT; RETURN; BEING PASSED. (a) An operator passing another vehicle:

(1) shall pass to the left of the other vehicle at a safe distance; and

(2) may not move back to the right side of the roadway until safely clear of the passed vehicle.

(b) An operator being passed by another vehicle:

(1) shall, on audible signal, move or remain to the right in favor of the passing vehicle; and

(2) may not accelerate until completely passed by the passing vehicle.

(c) Subsection (b) does not apply when passing to the right is permitted.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.054. PASSING TO THE LEFT: SAFE DISTANCE. (a) An operator may not drive on the left side of the center of the roadway in passing another vehicle unless:

(1) driving on the left side of the center of the roadway is authorized by this subtitle; and

(2) the left side is clearly visible and free of approaching traffic for a distance sufficient to permit passing without interfering with the operation of the passed vehicle or a vehicle approaching from the opposite direction.

(b) An operator passing another vehicle shall return to an authorized lane of travel:

(1) before coming within 200 feet of an approaching vehicle, if a lane authorized for vehicles approaching from the opposite direction is used in passing; or otherwise

(2) as soon as practicable.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.055. PASSING TO THE LEFT: PASSING ZONES. (a) An operator shall obey the directions of a sign or marking in Subsection

(c) or (d) if the sign or marking is in place and clearly visible to an ordinarily observant person.

(b) An operator may not drive on the left side of the roadway in a no-passing zone or on the left side of any pavement striping designed to mark a no-passing zone. This subsection does not prohibit a driver from crossing pavement striping, or the center line in a no-passing zone marked by signs only, to make a left turn into or out of an alley or private road or driveway.

(c) The Texas Transportation Commission, on a state highway under the jurisdiction of the commission, may:

(1) determine those portions of the highway where passing or driving to the left of the roadway would be especially hazardous; and

(2) show the beginning and end of each no-passing zone by appropriate signs or markings on the roadway.

(d) A local authority, on a highway under the jurisdiction of the local authority, may:

(1) determine those portions of the highway where passing or driving to the left of the roadway would be especially hazardous; and

(2) show the beginning and end of each no-passing zone by appropriate signs or markings on the roadway.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.056. DRIVING TO LEFT OF CENTER OF ROADWAY:

LIMITATIONS OTHER THAN PASSING. (a) An operator may not drive to the left side of the roadway if the operator is:

(1) approaching within 100 feet of an intersection or railroad grade crossing in a municipality;

(2) approaching within 100 feet of an intersection or railroad grade crossing outside a municipality and the intersection or crossing is shown by a sign or marking in accordance with Section 545.055;

(3) approaching within 100 feet of a bridge, viaduct, or tunnel; or

(4) awaiting access to a ferry operated by the Texas Transportation Commission.

(b) The limitations in Subsection (a) do not apply:

- (1) on a one-way roadway; or
- (2) to an operator turning left into or from an alley or private road or driveway.

(c) The Texas Transportation Commission shall post signs along the approach to a ferry operated by the commission notifying operators that passing is prohibited if there is a standing line of vehicles awaiting access to the ferry.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.057. PASSING TO THE RIGHT. (a) An operator may pass to the right of another vehicle only if conditions permit safely passing to the right and:

- (1) the vehicle being passed is making or about to make a left turn; and
- (2) the operator is:
 - (A) on a highway having unobstructed pavement not occupied by parked vehicles and sufficient width for two or more lines of moving vehicles in each direction; or
 - (B) on a one-way street or on a roadway having traffic restricted to one direction of movement and the roadway is free from obstructions and wide enough for two or more lines of moving vehicles.

(b) An operator may not pass to the right by leaving the main traveled portion of a roadway except as provided by Section 545.058.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.058. DRIVING ON IMPROVED SHOULDER. (a) An operator may drive on an improved shoulder to the right of the main traveled portion of a roadway if that operation is necessary and may be done safely, but only:

- (1) to stop, stand, or park;
- (2) to accelerate before entering the main traveled lane of traffic;
- (3) to decelerate before making a right turn;
- (4) to pass another vehicle that is slowing or stopped on the main traveled portion of the highway, disabled, or preparing to make a left turn;

- (5) to allow another vehicle traveling faster to pass;
- (6) as permitted or required by an official traffic-control device; or
- (7) to avoid a collision.

(b) An operator may drive on an improved shoulder to the left of the main traveled portion of a divided or limited-access or controlled-access highway if that operation may be done safely, but only:

- (1) to slow or stop when the vehicle is disabled and traffic or other circumstances prohibit the safe movement of the vehicle to the shoulder to the right of the main traveled portion of the roadway;
- (2) as permitted or required by an official traffic-control device; or
- (3) to avoid a collision.

(c) A limitation in this section on driving on an improved shoulder does not apply to:

- (1) an authorized emergency vehicle responding to a call;
- (2) a police patrol; or
- (3) a bicycle.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.059. ONE-WAY ROADWAYS AND ROTARY TRAFFIC ISLANDS. (a) The Texas Transportation Commission may designate a highway or separate roadway under the jurisdiction of the commission for one-way traffic and shall erect appropriate signs giving notice of the designation.

(b) On a roadway that is designated and on which signs are erected for one-way traffic, an operator shall drive only in the direction indicated.

(c) An operator moving around a rotary traffic island shall drive only to the right of the island.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.060. DRIVING ON ROADWAY LANED FOR TRAFFIC. (a) An operator on a roadway divided into two or more clearly marked lanes for traffic:

(1) shall drive as nearly as practical entirely within a single lane; and

(2) may not move from the lane unless that movement can be made safely.

(b) If a roadway is divided into three lanes and provides for two-way movement of traffic, an operator on the roadway may not drive in the center lane except:

(1) if passing another vehicle and the center lane is clear of traffic within a safe distance;

(2) in preparing to make a left turn; or

(3) where the center lane is designated by an official traffic-control device for movement in the direction in which the operator is moving.

(c) Without regard to the center of the roadway, an official traffic-control device may be erected directing slow-moving traffic to use a designated lane or designating lanes to be used by traffic moving in a particular direction.

(d) Official traffic-control devices prohibiting the changing of lanes on sections of roadway may be installed.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

On a roadway divided into three or more lanes and providing for one-way movement of traffic, an operator entering a lane of traffic from a lane to the right shall yield the right-of-way to a vehicle entering the same lane of traffic from a lane to the left.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.062. FOLLOWING DISTANCE. (a) An operator shall, if following another vehicle, maintain an assured clear distance between the two vehicles so that, considering the speed of the vehicles, traffic, and the conditions of the highway, the operator can safely stop without colliding with the preceding vehicle or veering into another vehicle, object, or person on or near the highway.

(b) An operator of a truck or of a motor vehicle drawing another vehicle who is on a roadway outside a business or residential district and who is following another truck or motor vehicle drawing

another vehicle shall, if conditions permit, leave sufficient space between the vehicles so that a vehicle passing the operator can safely enter and occupy the space. This subsection does not prohibit a truck or a motor vehicle drawing another vehicle from passing another vehicle.

(c) An operator on a roadway outside a business or residential district driving in a caravan of other vehicles or a motorcade shall allow sufficient space between the operator and the vehicle preceding the operator so that another vehicle can safely enter and occupy the space. This subsection does not apply to a funeral procession.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.063. DRIVING ON DIVIDED HIGHWAY. (a) On a highway having two or more roadways separated by a space, physical barrier, or clearly indicated dividing section constructed to impede vehicular traffic, an operator shall drive on the right roadway unless directed or permitted to use another roadway by an official traffic-control device or police officer.

(b) An operator may not drive over, across, or in a dividing space, physical barrier, or section constructed to impede vehicular traffic except:

(1) through an opening in the physical barrier or dividing section or space; or

(2) at a crossover or intersection established by a public authority.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.065. STATE AND LOCAL REGULATION OF LIMITED-ACCESS OR CONTROLLED-ACCESS HIGHWAYS. (a) The Texas Transportation Commission by resolution or order recorded in its minutes may prohibit the use

of a limited-access or controlled-access highway under the jurisdiction of the commission by a parade, funeral procession, pedestrian, bicycle, electric bicycle, motor-driven cycle, or nonmotorized traffic.

(b) If the commission adopts a rule under Subsection (a), the commission shall erect and maintain official traffic-control devices on the portions of the limited-access or controlled-access highway to which the rule applies.

(c) A local authority by ordinance may prohibit the use of a limited-access or controlled-access roadway under the jurisdiction of the authority by a parade, funeral procession, pedestrian, bicycle, electric bicycle, motor-driven cycle, or nonmotorized traffic.

(d) If a local authority adopts an ordinance under Subsection (c), the authority shall erect and maintain official traffic-control devices on the portions of the limited-access or controlled-access roadway to which the ordinance applies.

(1-a) "Department" means the Texas Department of Transportation.

(2) "Highway" means a public highway that:

(A) is in the designated state highway system;

(B) is designated a controlled access facility; and

(C) has a minimum of three travel lanes, excluding access or frontage roads, in each direction of traffic that may be part of a single roadway or may be separate roadways that are constructed as an upper and lower deck.

(b) The commission by order may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway. If the lanes to be restricted by the commission are located within a municipality, the commission shall consult with the municipality before adopting an order under this section. A municipality by ordinance may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway in the municipality.

(c) An order or ordinance under Subsection (b) must allow a restricted vehicle to use any lane of the highway to pass another vehicle and to enter and exit the highway.

(d) Before adopting an ordinance, a municipality shall submit to the department a description of the proposed restriction. The municipality may not enforce the restrictions unless the department's executive director or the executive director's designee has approved the restrictions.

(e) Department approval under Subsection (d) must:

- (1) be based on a traffic study performed by the department to evaluate the effect of the proposed restriction; and
- (2) to the greatest extent practicable, ensure a systems approach to preclude the designation of inconsistent lane restrictions among adjacent municipalities.

(f) The department's executive director or the executive director's designee may suspend or rescind approval of any restrictions approved under Subsection (d) for one or more of the following reasons:

- (1) a change in pavement conditions;
- (2) a change in traffic conditions;

- (4) construction or maintenance activity; or
- (5) emergency or incident management.

(B) is designated a controlled access facility; and
(C) has a minimum of three travel lanes, excluding access or frontage roads, in each direction of traffic.

(b) A county commissioners court by order may restrict, by class of vehicle, through traffic to two or more designated lanes of a highway located in the county and outside the jurisdiction of a municipality.

(c) An order under Subsection (b) must allow a restricted vehicle to use any lane of the highway to pass another vehicle and to enter and exit the highway.

(d) Before issuing an order under this section, the commissioners court shall submit to the department a description of the proposed restriction. The commissioners court may not enforce the restrictions unless:

(1) the department's executive director or the executive director's designee has approved the restrictions; and

(2) the appropriate traffic-control devices are in place.

(e) Department approval under Subsection (d) must to the greatest extent practicable ensure a systems approach to preclude the designation of inconsistent lane restrictions among adjacent counties or municipalities.

(f) The department's executive director or the executive director's designee may suspend or rescind approval under this section for one or more of the following reasons:

(1) a change in pavement conditions;

(2) a change in traffic conditions;

(4) "Executive director" means the executive director of the department.

(b) The executive director or the executive director's designee may restrict a commercial motor vehicle to a specific lane of traffic in a construction or maintenance work zone for a highway that is part of the state highway system if the executive director or the executive director's designee determines that, based on a traffic study performed by the department to evaluate the effect of the restriction, the restriction is necessary to improve safety.

(c) The department shall erect and maintain official traffic control devices necessary to implement and enforce a lane restriction imposed under this section. A lane restriction may not be enforced until the appropriate traffic control devices are in place.

(d) The executive director or the executive director's designee may rescind a lane restriction imposed under this section at any time that the executive director or the executive director's designee determines that the restriction is no longer necessary to improve safety.

(e) A lane restriction imposed under this section expires when the lane that is subject to the restriction is no longer in a construction or maintenance work zone.

(f) The department shall remove traffic control devices erected under this section if the lane restriction is rescinded under Subsection (d) or expires under Subsection (e).

(1) shall stop before reaching the school bus when the bus is operating a visual signal as required by Section 547.701; and

(2) may not proceed until:

(A) the school bus resumes motion;
