 - (A) in obedience to an official traffic-control device, including a stop sign or yield right-of-way sign; or
 - (B) if a traffic-control signal is present but does not display an indication in any of the signal heads; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(b) An operator on a single-lane or two-lane street or roadway who approaches an intersection that is not controlled by an official traffic-control device and that is located on a divided highway or on a street or roadway divided into three or more marked traffic lanes:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle on the other street or roadway that is within the intersection or approaching the intersection in such proximity as to be a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(c) An operator on an unpaved street or roadway approaching an intersection of a paved street or roadway:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle on the paved street or roadway that is within the intersection or approaching the intersection in such proximity as to be a hazard; and

(d) Except as provided in Subsection (e), an operator approaching an intersection of a street or roadway that is not controlled by an official traffic-control device:

(1) shall stop, yield, and grant immediate use of the intersection to a vehicle that has entered the intersection from the operator's right or is approaching the intersection from the operator's right in a proximity that is a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with traffic using a different street or roadway.

(e) An operator approaching an intersection of a street or roadway from a street or roadway that terminates at the intersection and that is not controlled by an official traffic-control device or controlled as provided by Subsection (b) or (c):

(1) shall stop, yield, and grant immediate use of the intersection to another vehicle that has entered the intersection from the other street or roadway or is approaching the intersection

on the other street or roadway in a proximity that is a hazard; and

(2) after stopping, may proceed when the intersection can be safely entered without interference or collision with the traffic using the other street or roadway.

(f) An operator who is required by this section to stop and yield the right-of-way at an intersection to another vehicle and who is involved in a collision or interferes with other traffic at the intersection to whom right-of-way is to be given is presumed not to have yielded the right-of-way.

(c) An operator approaching an intersection on a roadway controlled by a yield sign shall:

(1) slow to a speed that is reasonable under the existing conditions; and

(2) yield the right-of-way to a vehicle in the intersection or approaching on another highway so closely as to be an immediate hazard to the operator's movement in or across the intersection.

(d) If an operator is required by Subsection (c) to yield and is involved in a collision with a vehicle in an intersection after the operator drove past a yield sign without stopping, the collision is prima facie evidence that the operator failed to yield the right-of-way.

- (1) is directed to do so by a police officer;
- (2) is on a one-way street; or
- (3) is on a street on which the location of the tracks

prevents compliance with this section.

(b) An operator when lawfully passing to the left of a streetcar that has stopped to receive or discharge a passenger:

- (1) shall reduce speed;
- (2) may proceed only on exercising due caution for

pedestrians; and

(2) a crossing gate is lowered, or a flagger warns of the approach or passage of a train;

(3) a railroad engine approaching within approximately 1,500 feet of the highway crossing emits a signal audible from that distance and the engine is an immediate hazard because of its speed or proximity to the crossing;

(4) an approaching railroad train is plainly visible to the operator and is in hazardous proximity to the crossing; or

(5) the operator is required to stop by:

(A) other law;

(4) within 30 feet on the approach to a flashing signal, stop sign, yield sign, or traffic-control signal located at the side of a roadway;

(5) within 20 feet of the driveway entrance to a fire station and on the side of a street opposite the entrance to a fire station within 75 feet of the entrance, if the entrance is properly marked with a sign; or

(6) where an official sign prohibits standing.

(c) An operator may not, except temporarily to load or unload merchandise or passengers, park an occupied or unoccupied vehicle:

(1) within 50 feet of the nearest rail of a railroad crossing; or

(2) where an official sign prohibits parking.

(d) A person may stop, stand, or park a bicycle on a sidewalk if the bicycle does not impede the normal and reasonable movement of pedestrian or other traffic on the sidewalk.

(e) A municipality may adopt an ordinance exempting a private vehicle operated by an elevator constructor responding to an elevator emergency from Subsections (a)(1), (a)(5), (a)(6), (a)(9), (b), and

(c).

(f) Subsections (a), (b), and (c) do not apply if the avoidance of conflict with other traffic is necessary or if the operator is complying with the law or the directions of a police officer or official traffic-control device.

(g) If the governing body of a municipality determines that it is necessary to improve the economic development of the municipality's central business district and that it will not adversely affect public safety, the governing body may adopt an ordinance regulating the standing, stopping, or parking of a vehicle at a place described by Subsection (a)(1), other than a road or highway in the state highway system, in the central business district of the municipality as defined in the ordinance. To the extent of any conflict between the ordinance and Subsection (a)(1), the ordinance controls.

Sec. 545.303. ADDITIONAL PARKING REGULATIONS. (a) An operator who stops or parks on a two-way roadway shall do so with the right-hand wheels of the vehicle parallel to and within 18 inches of the right-hand curb or edge of the roadway.

(b) An operator who stops or parks on a one-way roadway shall stop or park the vehicle parallel to the curb or edge of the roadway in the direction of authorized traffic movement with the right-hand wheels within 18 inches of the right-hand curb or edge of the roadway or the left-hand wheels within 18 inches of the left-hand curb or edge of the roadway. This subsection does not apply where a local ordinance otherwise regulates stopping or parking on the one-way roadway.

(c) A local authority by ordinance may permit angle parking on a roadway. This subsection does not apply to a federal-aid or state highway unless the director of the Texas Department of Transportation determines that the roadway is wide enough to permit angle parking without interfering with the free movement of traffic.

(d) The Texas Department of Transportation, on a highway under the jurisdiction of that department, may place signs prohibiting or restricting the stopping, standing, or parking of a vehicle on the

highway where the director of the Texas Department of Transportation determines that stopping, standing, or parking is dangerous to, or would unduly interfere with, the free movement of traffic on the highway.

(e) To the extent of any conflict between Subsection (a) or (b) and a municipal ordinance adopted under Section 545.302(g), the ordinance controls.

- (1) is unattended on a bridge, viaduct, or causeway or in a tube or tunnel and the vehicle is obstructing traffic;
- (2) is unlawfully parked and blocking the entrance to a private driveway;
- (3) has been reported as stolen;
- (4) is identified as having been stolen in a warrant issued on the filing of a complaint;
- (5) is unattended and the officer has reasonable grounds to believe that the vehicle has been abandoned for longer than 48 hours;
- (6) is disabled so that normal operation is impossible or impractical and the owner or person in charge of the vehicle is:
 - (A) incapacitated and unable to provide for the vehicle's removal or custody; or

(B) not in the immediate vicinity of the vehicle;

(7) is disabled so that normal operation is impossible or impractical and the owner or person in charge of the vehicle does not designate a particular towing or storage company;

(8) is operated by a person an officer arrests for an alleged offense and the officer is required by law to take the person into custody; or

(9) is, in the opinion of the officer, a hazard, interferes with a normal function of a governmental agency, or because of a catastrophe, emergency, or unusual circumstance is imperiled.

(b) An officer acting under Subsection (a) may require that the vehicle be taken to:

(1) the nearest garage or other place of safety;

(2) a garage designated or maintained by the governmental agency that employs the officer; or

(3) a position off the paved or main traveled part of the highway.

(c) A law enforcement agency other than the department that removes an abandoned vehicle in an unincorporated area shall notify the sheriff.

(d) The owner of a vehicle that is removed or stored under this section is liable for all reasonable towing and storage fees incurred.

(e) In this section:

(1) "Towing company" means an individual, corporation, partnership, or other association engaged in the business of towing vehicles on a highway for compensation or with the expectation of compensation for the towing or storage of the vehicles and includes the owner, operator, employee, or agent of a towing company.

(2) "Storage company" means an individual, corporation, partnership, or other association engaged in the business of storing or repairing vehicles for compensation or with the expectation of compensation for the storage or repair of vehicles and includes the owner, operator, employee, or agent of a storage company.

(1) any damage to personal property removed from a roadway or right-of-way under this section, unless the removal is carried out recklessly or in a grossly negligent manner; or

(2) any damage resulting from the failure to exercise the authority granted by this section.

Added by Acts 2003, 78th Leg., ch. 803, Sec. 1, eff. June 20, 2003.

Sec. 545.306. REGULATION OF TOWING COMPANIES IN CERTAIN COUNTIES. (a) The commissioners court of a county with a population

of 3.3 million or more shall by ordinance provide for the licensing of or the granting of a permit to a person to remove or store a vehicle authorized by Section 545.305 to be removed in an unincorporated area of the county. The ordinance must include rules to ensure the protection of the public and the safe and efficient operation of towing and storage services in the county and may not regulate or restrict the use of lighting equipment more than the extent allowed by state and federal law. The sheriff shall determine the rules included in the ordinance with the review and consent of the commissioners court.

(b) The commissioners court shall set the fee for the license or permit in an amount that reasonably offsets the costs of enforcing the ordinance. The commissioners court shall use each license or permit fee to pay salaries and expenses of the sheriff's office for conducting inspections to determine compliance with the ordinance and laws relating to dealers in scrap metal and salvage.

Sec. 545.307. OVERNIGHT PARKING OF COMMERCIAL MOTOR VEHICLE IN OR NEAR RESIDENTIAL SUBDIVISION. (a) In this section:

(1) "Commercial motor vehicle" means:

(A) a commercial motor vehicle, as defined by Section 522.003, and includes a vehicle meeting that definition regardless of whether the vehicle is used for a commercial purpose; or

(B) a road tractor, truck tractor, pole trailer, or semitrailer, as those terms are defined by Section 541.201.

(2) "Residential subdivision" means a subdivision in a county with a population greater than 220,000:

(A) for which a plat is recorded in the county real property records; and

(B) in which the majority of lots are subject to deed restrictions limiting the lots to residential use.

(b) Except as provided by Subsection (b-1), after 10 p.m. and before 6 a.m., a person may not park a commercial motor vehicle or leave the vehicle parked on a street that is maintained by a county or municipality and for which signs are posted as provided by

Subsection (c) if the street:

- (1) is located within a residential subdivision; or
- (2) is adjacent to a residential subdivision and within 1,000 feet of the property line of a residence, school, place of worship, or park.

(b-1) A person may park a commercial motor vehicle or leave the vehicle parked on a street for which signs are posted as provided by Subsection (c) if the commercial motor vehicle:

- (1) is transporting persons or property to or from the residential subdivision or performing work in the subdivision; and
- (2) remains parked in or adjacent to the subdivision only for the period necessary to complete the transportation or work.

(c) The residents of a residential subdivision may petition a county or municipality in which the subdivision is located for the posting of signs prohibiting the overnight parking of a commercial motor vehicle in the subdivision or on a street adjacent to the subdivision and within 1,000 feet of the property line of a residence, school, place of worship, or park. The petition must be signed by at least 25 percent of the owners or tenants of residences in the subdivision. Not more than one person for each residence may sign the petition, and each person signing must be at least 18 years of age. Promptly after the filing of a petition meeting the requirements of this subsection and subject to Subsection (d), the county or municipality receiving the petition shall post the signs. The signs must:

- (1) be posted:
 - (A) at each entrance of the subdivision through which a commercial motor vehicle may enter the subdivision or within the subdivision if there is not defined entrance to the subdivision; or

(d) A county or municipality receiving a petition under Subsection (c) may condition the posting of the signs on payment by the residents of the residential subdivision of the cost of providing the signs.

(e) A person commits an offense if the person parks a commercial motor vehicle in violation of Subsection (b).

(f) This section does not limit the power of a municipality to

regulate the parking of commercial motor vehicles.

(g) For the purposes of this section, contiguous subdivisions that are developed by the same entity or a successor to that entity and that are given the same public name or a variation of the same public name are considered one subdivision. Separation of one of the subdivisions from another by a road, stream, greenbelt, or similar barrier does not make the subdivisions noncontiguous.

(h) This section does not apply to:

(1) a vehicle owned by a utility that an employee of the utility who is on call 24 hours a day parks at the employee's residence; or

(2) a vehicle owned by a commercial establishment that is parked on the street adjacent to where the establishment is located.

Sec. 545.308. PRESUMPTION. The governing body of a local authority, by ordinance, order, or other official action, may provide that in a prosecution for an offense under this subchapter involving the stopping, standing, or parking of an unattended motor vehicle it is presumed that the registered owner of the vehicle is the person who stopped, stood, or parked the vehicle at the time and place the offense occurred.

SUBCHAPTER H. SPEED RESTRICTIONS

Sec. 545.351. MAXIMUM SPEED REQUIREMENT. (a) An operator may not drive at a speed greater than is reasonable and prudent under the circumstances then existing.

(b) An operator:

(1) may not drive a vehicle at a speed greater than is

reasonable and prudent under the conditions and having regard for actual and potential hazards then existing; and

(2) shall control the speed of the vehicle as necessary to avoid colliding with another person or vehicle that is on or entering the highway in compliance with law and the duty of each person to use due care.

(c) An operator shall, consistent with Subsections (a) and (b), drive at an appropriate reduced speed if:

(1) the operator is approaching and crossing an intersection or railroad grade crossing;

(2) the operator is approaching and going around a curve;

(3) the operator is approaching a hill crest;

(4) the operator is traveling on a narrow or winding roadway; and

(5) a special hazard exists with regard to traffic, including pedestrians, or weather or highway conditions.

Sec. 545.352. PRIMA FACIE SPEED LIMITS. (a) A speed in excess of the limits established by Subsection (b) or under another provision of this subchapter is prima facie evidence that the speed is not reasonable and prudent and that the speed is unlawful.

(b) Unless a special hazard exists that requires a slower speed for compliance with Section 545.351(b), the following speeds are lawful:

(1) 30 miles per hour in an urban district on a street other than an alley and 15 miles per hour in an alley;

(2) except as provided by Subdivision (4), 70 miles per hour on a highway numbered by this state or the United States outside an urban district, including a farm-to-market or ranch-to-market road;

(3) except as provided by Subdivision (4), 60 miles per hour on a highway that is outside an urban district and not a highway numbered by this state or the United States;

(4) outside an urban district:

(A) 60 miles per hour if the vehicle is a school bus that has passed a commercial motor vehicle inspection under Section

548.201 and is on a highway numbered by the United States or this state, including a farm-to-market road; or

(B) 50 miles per hour if the vehicle is a school bus that:

(i) has not passed a commercial motor vehicle inspection under Section 548.201; or

(ii) is traveling on a highway not numbered by the United States or this state;

(5) on a beach, 15 miles per hour; or

(6) on a county road adjacent to a public beach, 15 miles per hour, if declared by the commissioners court of the county.

(c) The speed limits for a bus or other vehicle engaged in the business of transporting passengers for compensation or hire, for a commercial vehicle used as a highway post office vehicle for highway post office service in the transportation of United States mail, for a light truck, and for a school activity bus are the same as required for a passenger car at the same time and location.

(d) In this section:

(1) "Interstate highway" means a segment of the national system of interstate and defense highways that is:

(A) located in this state;

(B) officially designated by the Texas Transportation Commission; and

(C) approved under Title 23, United States Code.

(2) "Light truck" means a truck with a manufacturer's rated carrying capacity of not more than 2,000 pounds, including a pick-up truck, panel delivery truck, and carry-all truck.

(3) "Urban district" means the territory adjacent to and including a highway, if the territory is improved with structures that are used for business, industry, or dwelling houses and are located at intervals of less than 100 feet for a distance of at least one-quarter mile on either side of the highway.

(e) An entity that establishes or alters a speed limit under this subchapter shall establish the same speed limit for daytime and nighttime.

Sec. 545.353. AUTHORITY OF TEXAS TRANSPORTATION COMMISSION TO ALTER SPEED LIMITS. (a) If the Texas Transportation Commission determines from the results of an engineering and traffic investigation that a prima facie speed limit in this subchapter is unreasonable or unsafe on a part of the highway system, the commission, by order recorded in its minutes, and except as provided in Subsection (d), may determine and declare:

- (1) a reasonable and safe prima facie speed limit; and
- (2) another reasonable and safe speed because of wet or inclement weather.

(b) In determining whether a prima facie speed limit on a part of the highway system is reasonable and safe, the commission shall consider the width and condition of the pavement, the usual traffic at the affected area, and other circumstances.

(c) A prima facie speed limit that is declared by the commission under this section is effective when the commission erects signs giving notice of the new limit. A new limit that is enacted for a highway under this section is effective at all times or at other times as determined.

(d) Except as provided by Subsection (h-1), the commission may not:

- (1) modify the rules established by Section 545.351(b);
- (2) establish a speed limit of more than 75 miles per hour;

or

(3) increase the speed limit for a vehicle described by Section 545.352(b)(4).

(e) The commission, in conducting the engineering and traffic investigation specified by Subsection (a), shall follow the "Procedure for Establishing Speed Zones" as adopted by the commission. The commission may revise the procedure to accommodate technological advancement in traffic operation, the design and

construction of highways and motor vehicles, and the safety of the motoring public.

(f) The commission's authority to alter speed limits applies:

- (1) to any part of a highway officially designated or marked by the commission as part of the state highway system; and
- (2) both inside and outside the limits of a municipality, including a home-rule municipality, for a limited-access or controlled-access highway.

(g) For purposes of this section, "wet or inclement weather" means a condition of the roadway that makes driving on the roadway unsafe and hazardous and that is caused by precipitation, including water, ice, and snow.

(h) Notwithstanding Section 545.352(b), the commission may establish a speed limit of 75 miles per hour on a part of the highway system if the commission determines that 75 miles per hour is a reasonable and safe speed for that part of the highway system.

(h-1) Notwithstanding Section 545.352(b), the commission may establish a speed limit of 80 miles per hour on a part of Interstate Highway 10 or Interstate Highway 20 in Crockett, Culberson, Hudspeth, Jeff Davis, Kerr, Kimble, Pecos, Reeves, Sutton, or Ward County if the commission determines that 80 miles per hour is a reasonable and safe speed for that part of the highway.

(h-2) Notwithstanding Section 545.352(b), the commission may establish a speed limit not to exceed 85 miles per hour on a part of the state highway system if:

- (1) that part of the highway system is designed to accommodate travel at that established speed or a higher speed; and
- (2) the commission determines, after an engineering and traffic investigation, that the established speed limit is reasonable and safe for that part of the highway system.

(i) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 265, Sec. 9, eff. September 1, 2011.

(j) The commission may not determine or declare, or agree to determine or declare, a prima facie speed limit for environmental purposes on a part of the highway system.

Sec. 545.3535. AUTHORITY OF TEXAS TRANSPORTATION COMMISSION TO ALTER SPEED LIMITS ON CERTAIN ROADS. (a) The commissioners court of a county by resolution may request the Texas Transportation Commission to determine and declare a reasonable and safe prima facie speed limit that is lower than a speed limit established by Section 545.352 on any part of a farm-to-market or a ranch-to-market road of the highway system that is located in that county and is without improved shoulders.

(b) The commission shall give consideration to local public opinion and may determine and declare a lower speed limit on any part of the road without an engineering and traffic investigation, but the commission must use sound and generally accepted traffic engineering practices in determining and declaring the lower speed limit.

(c) The commission by rule shall establish standards for determining lower speed limits within a set range.

Added by Acts 1997, 75th Leg., ch. 1171, Sec. 1.45, eff. Sept. 1, 1997. Amended by Acts 1999, 76th Leg., ch. 1346, Sec. 2, eff. Sept. 1, 1999.

Sec. 545.354. AUTHORITY OF REGIONAL TOLLWAY AUTHORITIES TO ALTER SPEED LIMITS ON TURNPIKE PROJECTS. (a) (1) In this section, "authority" means a regional tollway authority governed by Chapter 366.

(2) If an authority determines from the results of an engineering and traffic investigation that a prima facie speed limit

described in this subchapter is unreasonable or unsafe on a part of a turnpike constructed and maintained by the authority, the authority by order recorded in its minutes shall determine and declare a reasonable and safe prima facie speed limit for vehicles or classes of vehicles on the turnpike.

(b) In determining whether a prima facie speed limit on a part of a turnpike constructed and maintained by the authority is reasonable or safe, the authority shall consider the width and condition of the pavement, the usual traffic on the turnpike, and other circumstances.

(c) A prima facie speed limit that is declared by the authority in accordance with this section is effective when the authority erects signs giving notice of the new limit. A new limit that is adopted for a turnpike project constructed and maintained by the authority in accordance with this section is effective at all times or at other times as determined.

(d) The authority's power to alter prima facie speed limits is effective and exclusive on any part of a turnpike project constructed and maintained by the authority inside and outside the limits of a municipality, including a home-rule municipality.

(e) The authority may not:

(1) alter the general rule established by Section 545.351(a); or

(2) establish a speed limit of more than 75 miles per hour.

(f) The authority, in conducting the engineering and traffic investigation specified by Subsection (a), shall follow the procedure for establishing speed zones adopted by the Texas Department of Transportation.

Sec. 545.355. AUTHORITY OF COUNTY COMMISSIONERS COURT TO ALTER

SPEED LIMITS. (a) The commissioners court of a county, for a county road or highway outside the limits of the right-of-way of an officially designated or marked highway or road of the state highway system and outside a municipality, has the same authority to increase prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission on an officially designated or marked highway of the state highway system.

(b) The commissioners court of a county may declare a lower speed limit of not less than:

(1) 30 miles per hour on a county road or highway to which this section applies, if the commissioners court determines that the prima facie speed limit on the road or highway is unreasonable or unsafe; or

(2) 20 miles per hour in a residence district, unless the roadway has been designated as a major thoroughfare by a city planning commission.

(c) The commissioners court may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 70 miles per hour.

(d) The commissioners court may modify a prima facie speed limit in accordance with this section only by an order entered on its records.

(e) The commissioners court of a county with a population of more than 2.8 million may establish from the results of an engineering and traffic investigation a speed limit of not more than 75 miles per hour on any part of a highway of that county that is a limited-access or controlled-access highway, regardless of the location of the part of the highway.

Sec. 545.356. AUTHORITY OF MUNICIPALITY TO ALTER SPEED LIMITS.

(a) The governing body of a municipality, for a highway or part of a highway in the municipality, including a highway of the state highway system, has the same authority to alter by ordinance prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission on an officially designated or marked highway of the state highway system. The governing body of a municipality may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75 miles per hour.

(b) The governing body of a municipality, for a highway or part of a highway in the municipality, including a highway of the state highway system, has the same authority to alter prima facie speed limits from the results of an engineering and traffic investigation as the commission for an officially designated or marked highway of the state highway system, when the highway or part of the highway is under repair, construction, or maintenance. A municipality may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75 miles per hour.

(b-1) Except as provided by Subsection (b-3), the governing body of a municipality, for a highway or a part of a highway in the municipality that is not an officially designated or marked highway or road of the state highway system, may declare a lower speed limit of not less than 25 miles per hour, if the governing body determines that the prima facie speed limit on the highway is unreasonable or unsafe.

(b-2) Subsection (b-1) applies only to a two-lane, undivided highway or part of a highway.

(b-3) The governing body of a municipality with a population of 2,000 or less, for a highway or a part of a highway in the municipality that is a one-lane highway used for two-way access and that is not an officially designated or marked highway or road of the state highway system, may declare a lower speed limit of not less than 10 miles per hour, if the governing body determines that the prima facie speed limit on the highway is unreasonable or unsafe.

(c) A prima facie speed limit that is altered by the governing body of a municipality under Subsection (b), (b-1), or (b-3) is effective when the governing body erects signs giving notice of the new limit and at all times or at other times as determined.

(d) The governing body of a municipality that declares a lower

speed limit on a highway or part of a highway under Subsection (b-1) or (b-3), not later than February 1 of each year, shall publish on its Internet website and submit to the department a report that compares for each of the two previous calendar years:

(1) the number of traffic citations issued by peace officers of the municipality and the alleged speed of the vehicles, for speed limit violations on the highway or part of the highway;

(2) the number of warning citations issued by peace officers of the municipality on the highway or part of the highway; and

(3) the number of vehicular accidents that resulted in injury or death and were attributable to speed limit violations on the highway or part of the highway.

Sec. 545.3561. AUTHORITY OF MUNICIPALITY OR COUNTY TO TEMPORARILY LOWER SPEED LIMIT AT VEHICULAR ACCIDENT RECONSTRUCTION SITE. (a) The governing body of a municipality by ordinance may give a designated official with transportation engineering experience establishing speed limits discretion to temporarily lower a prima facie speed limit for a highway or part of a highway in the municipality, including a highway of the state highway system, at the site of an investigation using vehicular accident reconstruction.

(b) A county commissioners court by order may give a designated official with transportation engineering experience establishing speed limits discretion to temporarily lower prima facie speed limits for a county road or highway outside the boundaries of a municipality at the site of an investigation using vehicular accident reconstruction. The authority granted under this subsection does not

include a road or highway in the state highway system.

(c) The Texas Department of Transportation shall develop safety guidelines for the use of vehicular accident reconstruction in investigations. A municipality, county, or designated official shall comply with the guidelines.

(d) A designated official may temporarily lower prima facie speed limits without the approval of or permission from the Texas Department of Transportation. A designated official who intends to temporarily lower a prima facie speed limit at the site of an investigation using vehicular accident reconstruction shall, at least 48 hours before temporary speed limit signs are posted for the vehicular accident reconstruction site, provide to the Texas Department of Transportation notice that includes:

- (1) the date and time of the accident reconstruction;
- (2) the location of the accident reconstruction site;
- (3) the entities involved at the site;
- (4) the general size of the area affected by the site; and
- (5) an estimate of how long the site will be used for the

accident reconstruction.

(e) A temporary speed limit established under this section:

- (1) is a prima facie prudent and reasonable speed limit enforceable in the same manner as other prima facie speed limits established under other provisions of this subchapter; and
- (2) supersedes any other established speed limit that would permit a person to operate a motor vehicle at a higher rate of speed.

(f) A designated official who temporarily lowers a speed limit shall:

- (1) place and maintain at the vehicular accident reconstruction site temporary speed limit signs that conform to the manual and specifications adopted under Section 544.001;
- (2) temporarily conceal all other signs on the highway segment affected by the vehicular accident reconstruction site that give notice of a speed limit that would permit a person to operate a motor vehicle at a higher rate of speed; and
- (3) remove all temporary speed limit signs placed under Subdivision (1) and concealments of other signs placed under Subdivision (2) when the official finds that the vehicular accident reconstruction is complete and all equipment is removed from the vehicular accident reconstruction site.

(g) A temporary speed limit established under this section is

effective when a designated official places temporary speed limit signs and conceals other signs that would permit a person to operate a motor vehicle at a higher rate of speed as required under Subsection (f).

(h) A temporary speed limit established under this section is effective until the designated official under Subsection (a) or (b):

(1) finds that the vehicular accident reconstruction is complete; and

(2) removes all temporary signs, concealments, and equipment used at the vehicular accident reconstruction site.

(i) If a designated official does not comply with the requirements of Subsection (f)(3) for a vehicular accident reconstruction on a state highway associated with the reconstruction, the Texas Department of Transportation may remove signs and concealments.

Added by Acts 2011, 82nd Leg., R.S., Ch. 216 (H.B. 109), Sec. 2, eff. September 1, 2011.

Sec. 545.357. PUBLIC HEARING TO CONSIDER SPEED LIMITS WHERE CERTAIN SCHOOLS ARE LOCATED. (a) The governing body of a municipality in which a public or private elementary or secondary school or an institution of higher education as defined by Section 61.003(8) or (15), Education Code, is located shall on request hold a public hearing at least once each calendar year to consider prima facie speed limits on a highway in the municipality, including a highway of the state highway system, near the school or institution of higher education.

(b) If a county road outside the state highway system is located within 500 feet of a public or private elementary or secondary school or an institution of higher education that is not in a municipality, the commissioners court of the county on request shall hold a public hearing at least once each calendar year to consider the prima facie speed limit on the road near the school or institution of higher education.

(c) A municipal governing body or commissioners court on request may hold one public hearing for all public and private elementary and secondary schools and institutions of higher education in its jurisdiction.

(d) The Texas Transportation Commission, on request, shall hold a public hearing at least once each calendar year to consider prima facie speed limits on highways in the state highway system that are near public or private elementary or secondary schools or institutions of higher education.

Sec. 545.358. AUTHORITY OF COMMANDING OFFICER OF UNITED STATES MILITARY RESERVATION TO ALTER SPEED LIMITS. The commanding officer of a United States military reservation, for a highway or part of a highway in the military reservation, including a highway of the state highway system, has the same authority by order to alter prima facie speed limits from the results of an engineering and traffic investigation as the Texas Transportation Commission for an officially designated or marked highway of the state highway system. A commanding officer may not modify the rule established by Section 545.351(a) or establish a speed limit of more than 75 miles per hour.

An order of the Texas Transportation Commission declaring a speed limit on a part of a designated or marked route of the state highway system made under Section 545.353 or 545.362 supersedes any conflicting designated speed established under Sections 545.356 and 545.358.

Sec. 545.360. DUTY OF TEXAS TRANSPORTATION COMMISSION AND STATE BOARD OF EDUCATION TO PROVIDE INFORMATION AND ASSISTANCE. The chairman of the Texas Transportation Commission and the chairman of the State Board of Education shall provide assistance and information relevant to consideration of speed limits to commissioners courts,

municipal governing bodies, and other interested persons.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.361. SPECIAL SPEED LIMITATIONS. (a) An operator of a motor-driven cycle may not drive at a speed of more than 35 miles per hour during the time specified by Section 547.302(a) unless the cycle is equipped with a headlamp or lamps that reveal a person or vehicle 300 feet ahead.

(b) An operator of a vehicle equipped with solid rubber or cushion tires may not drive at a speed of more than 10 miles per hour.

(c) An operator driving over a bridge or other elevated structure that is a part of a highway may not drive at a speed of more than the maximum speed that can be maintained with safety to the bridge or structure, when signs are posted as provided by this section.

(d) An operator of self-propelled machinery designed or adapted for applying plant food materials or agricultural chemicals and not designed or adapted for the sole purpose of transporting the materials or chemicals may not drive at a speed of more than 30 miles per hour unless the machinery is registered under Chapter 502.

(e) The Texas Transportation Commission, for a state highway, the Texas Turnpike Authority, for any part of a turnpike constructed and maintained by the authority, and a local authority for a highway under the jurisdiction of the local authority, may investigate a bridge or other elevated structure that is a part of a highway. If after conducting the investigation the commission, turnpike authority, or local authority finds that the structure cannot safely withstand vehicles traveling at a speed otherwise permissible under this subtitle, the commission, turnpike authority, or local authority shall:

(1) determine and declare the maximum speed of vehicles that the structure can safely withstand; and

(2) post and maintain signs before each end of the structure stating the maximum speed.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 545.362. TEMPORARY SPEED LIMITS. (a) Subject to Subsection (c), the Texas Transportation Commission may enter an order establishing prima facie speed limits of not more than 75 miles per hour applicable to all highways, including a turnpike under the authority of the Texas Turnpike Authority or a highway under the control of a municipality or county. An order entered under this section does not have the effect of increasing a speed limit on any highway.

(b) The limits established under this section:

(1) are prima facie prudent and reasonable speed limits enforceable in the same manner as prima facie limits established under other provisions of this subchapter; and

(2) supersede any other established speed limit that would permit a person to operate a motor vehicle at a higher rate of speed.

(c) An order may be issued under Subsection (a) only if the commission finds and states in the order that:

(1) a severe shortage of motor fuel or other petroleum product exists, the shortage was caused by war, national emergency, or other circumstances, and a reduction of speed limits will foster conservation and safety; or

(2) the failure to alter state speed limits will prevent the state from receiving money from the United States for highway purposes.

(d) Unless a specific speed limit is required by federal law or directive under threat of loss of highway money of the United States, the commission may not set prima facie speed limits under this section of all vehicles at less than 60 miles per hour, except on a divided highway of at least four lanes, for which the commission may not set prima facie speed limits of all vehicles at less than 65 miles per hour.

(e) Before the commission may enter an order establishing a prima facie speed limit, it must hold a public hearing preceded by the publication in at least three newspapers of general circulation in the state of a notice of the date, time, and place of the hearing and of the action proposed to be taken. The notice must be published at least 12 days before the date of the hearing. At the hearing, all interested persons may present oral or written testimony regarding the proposed order.

(f) If the commission enters an order under this section, it shall file the order in the office of the governor. The governor

shall then make an independent finding of fact and determine the existence of the facts in Subsection (c). Before the 13th day after the date the order is filed in the governor's office, the governor shall conclude the finding of fact, issue a proclamation stating whether the necessary facts exist to support the issuance of the commission's order, and file copies of the order and the proclamation in the office of the secretary of state.

(g) If the governor's proclamation states that the facts necessary to support the issuance of the commission's order exist, the order takes effect according to Subsection (h). Otherwise, the order has no effect.

(h) In an order issued under this section, the commission may specify the date the order takes effect, but that date may not be sooner than the eighth day after the date the order is filed with the governor. If the order does not have an effective date, it takes effect on the 21st day after the date it is filed with the governor. Unless the order by its own terms expires earlier, it remains in effect until a subsequent order adopted by the procedure prescribed by this section amends or repeals it, except that an order adopted under this section expires when this section expires. The procedure for repealing an order is the same as for adopting an order, except that the commission and the governor must find that the facts required to support the issuance of an order under Subsection (c) no longer exist.

(i) If an order is adopted in accordance with this section, the commission and all governmental authorities responsible for the maintenance of highway speed limit signs shall take appropriate action to conceal or remove all signs that give notice of a speed limit of more than the one contained in the order and to erect appropriate signs. All governmental entities responsible for administering traffic safety programs and enforcing traffic laws shall use all available resources to notify the public of the effect of the order. To accomplish this purpose, the governmental entities shall request the cooperation of all news media in the state.

(j) A change in speed limits under this section is effective until the commission makes a finding that the conditions in Subsection (c) require or authorize an additional change in those speed limits or in the highway or sections of highway to which those speed limits apply.

(k) This section expires when the national maximum speed limits

are repealed.

(a) If a person violates a maximum prima facie speed limit imposed under Section 545.362, as that law existed immediately before December 8, 1995, and the person was not traveling at a speed, as alleged in the citation, if not contested by the person, or, if contested by the person, as alleged in the complaint and found by the court, that is greater than the maximum prima facie speed limit for the location that has been established under this chapter, other than under Section 545.362, information in the custody of the department concerning the violation is confidential.

(b) The department may not release the information to any person or to another state governmental entity.

Sec. 545.363. MINIMUM SPEED REGULATIONS. (a) An operator may not drive so slowly as to impede the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or in compliance with law.

(b) When the Texas Transportation Commission, the Texas Turnpike Authority, the commissioners court of a county, or the governing body of a municipality, within the jurisdiction of each, as applicable, as specified in Sections 545.353 to 545.357, determines from the results of an engineering and traffic investigation that slow speeds on a part of a highway consistently impede the normal and reasonable movement of traffic, the commission, authority, county commissioners court, or governing body may determine and declare a minimum speed limit on the highway.

(c) If appropriate signs are erected giving notice of a minimum speed limit adopted under this section, an operator may not drive a vehicle more slowly than that limit except as necessary for safe

operation or in compliance with law.

Sec. 547.401. BRAKES REQUIRED. (a) Except as provided by Subsection (b), a motor vehicle, trailer, semitrailer, pole trailer, or combination of those vehicles shall be equipped with brakes that comply with this chapter.

(b) A trailer, semitrailer, or pole trailer is not required to have brakes if:

- (1) its gross weight is 4,500 pounds or less; or
- (2) its gross weight is heavier than 4,500 pounds but not heavier than 15,000 pounds, and it is drawn at a speed of not more than 30 miles per hour.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 547.402. OPERATION AND MAINTENANCE OF BRAKES. (a) Required brakes shall operate on each wheel of a vehicle except:

- (1) special mobile equipment;

- (3) a trailer, semitrailer, or pole trailer with a gross weight heavier than 4,500 pounds but not heavier than 15,000 pounds drawn at a speed of more than 30 miles per hour, if the brakes operate on both wheels of the rear axle.

(b) A truck or truck-tractor that has at least three axles is not required to have brakes on the front wheels, but must have brakes that:

- (1) operate on the wheels of one steerable axle if the vehicle is equipped with at least two steerable axles; and
- (2) comply with the performance requirements of this chapter.

(c) A trailer or semitrailer that has a gross weight of 15,000 pounds or less may use surge or inertia brake systems to satisfy the

requirements of Subsection (a).

(d) Brakes shall be maintained in good working order and adjusted to operate on wheels on each side of the vehicle as equally as practicable.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 547.403. SERVICE BRAKES REQUIRED. (a) A vehicle required to have brakes by this subchapter, other than special mobile equipment, shall be equipped with service brakes that:

(2) are adequate to control the movement of the vehicle, including stopping and holding, under all loading conditions and when on any grade on which the vehicle is operated.

(b) A vehicle required to have brakes by this subchapter shall be equipped so that one control device operates the service brakes. This subsection does not prohibit an additional control device that may be used to operate brakes on a towed vehicle. A vehicle that tows another vehicle as a commodity when at least one set of the towed vehicle's wheels is on the roadway is not required to comply with this requirement unless the brakes on the towing and towed vehicles are designed to be operated by a single control on the towing vehicle.

Sec. 547.404. PARKING BRAKES REQUIRED. (a) A vehicle required to have brakes by this subchapter, other than a motorcycle or motor-driven cycle, shall be equipped with parking brakes adequate to hold the vehicle:

(1) on any grade on which the vehicle is operated;

(2) under all loading conditions; and

(3) on a surface free from snow, ice, or loose material.

(b) The parking brakes shall be:

(1) designed to operate continuously as required once applied, despite a leakage or an exhaustion of power source; and

(2) activated by the vehicle operator's muscular effort, by spring action, or by equivalent means.

(c) The parking brakes may be assisted by the service brakes or by another power source, unless a failure in the power source would prevent the parking brakes from operating as required by this section.

(d) The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with wheel brake assemblies may be used for the parking brakes and service brakes.

(e) If the means of applying the parking brakes and service brakes are connected, the brake system shall be constructed so that the failure of one part will not cause the vehicle to be without operative brakes.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 547.405. EMERGENCY BRAKES REQUIRED. (a) A vehicle used to tow another vehicle equipped with air-controlled brakes shall be equipped with the following means, together or separate, for applying the trailer brakes in an emergency:

(1) an automatic device that applies the brakes to a fixed pressure from 20 to 45 pounds per square inch if the towing vehicle's air supply is reduced; and

(2) a manual device to apply and release the brakes that is readily operable by a person seated in the operator's seat and arranged so that:

(A) its emergency position or method of operation is clearly indicated; and

(B) its use does not prevent operation of the automatic brakes.

(b) In addition to the single control device required by Section 547.403, a vehicle used to tow another vehicle equipped with vacuum brakes shall be equipped with a second control device that:

(1) is used to operate the brakes on a towed vehicle in an emergency;

(2) is independent of brake air, hydraulic, or other pressure and independent of other controls, unless the braking system is arranged to automatically apply the towed vehicle's brakes if the pressure for the second control device on the towing vehicle fails; and

(3) is not required to provide modulated braking.

(c) Subsections (a) and (b) do not apply to a vehicle that tows another vehicle as a commodity when at least one set of wheels of the towed vehicle is on the roadway.

(1) operate on all wheels; and

(2) are promptly applied automatically and remain applied for at least 15 minutes in case of a breakaway from the towing vehicle.

(e) A motor vehicle used to tow a trailer, semitrailer, or pole trailer equipped with brakes shall be equipped with service brakes arranged so that, in case of a breakaway of the towed vehicle, the towing vehicle is capable of stopping by use of its service brakes.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 547.406. BRAKE RESERVOIR OR RESERVE CAPACITY REQUIRED.

(a) A bus, truck, or truck-tractor equipped with air brakes shall be equipped with at least one reservoir that:

(2) has a means for readily draining accumulated oil or water.

(b) A truck with at least three axles that is equipped with vacuum brakes or a truck-tractor or truck used to tow a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to ensure that, with the reserve capacity or vacuum reservoir fully charged and with the engine stopped, the service brakes can be fully applied without depleting the vacuum supply by more than 40 percent.

(c) A motor vehicle, trailer, semitrailer, or pole trailer that is equipped with an air or vacuum reservoir or reserve capacity shall be equipped with a check valve or equivalent device to prevent depletion of the air or vacuum supply by failure or leakage.

(d) An air brake system installed on a trailer shall be

designed to prevent a backflow of air from the supply reservoir through the supply line.

Sec. 547.407. BRAKE WARNING DEVICES REQUIRED. (a) A bus, truck, or truck-tractor that uses air to operate its brakes or the brakes of a towed vehicle shall be equipped with:

(1) a warning signal, other than a pressure gauge, that is readily audible or visible to the vehicle operator and that shows when the air reservoir pressure is below 50 percent of the air compressor governor cut-out pressure; and

(2) a pressure gauge visible to the vehicle operator that shows in pounds per square inch the pressure available for braking.

(b) A truck-tractor or truck used to tow a vehicle equipped with vacuum brakes, or a truck with at least three axles that is equipped with vacuum brakes, shall be equipped with a warning signal, other than a gauge showing vacuum, that is readily audible or visible to the vehicle operator and that shows when the vacuum in the reservoir or reserve capacity is less than eight inches of mercury. This subsection does not apply to an operation in which a motor vehicle, trailer, or semitrailer is transported as a commodity when at least one set of the vehicle's wheels is on the roadway.

(c) If a vehicle required to be equipped with a warning device is equipped with air and vacuum power to operate its brakes or the brakes on a towed vehicle, the warning devices required may be combined into a single device that is not a pressure or vacuum gauge.

Sec. 547.408. PERFORMANCE REQUIREMENTS FOR BRAKES. (a) A motor vehicle or combination of vehicles shall be equipped with service brakes capable of:

(1) developing a braking force that is not less than:

(A) 52.8 percent of the gross weight of the vehicle for a passenger vehicle; or

- (1) a county or a portion of a county designated by department rule in accordance with Section 548.301; or
- (2) a county adjacent to a county described in Subdivision (1).

(b) The registered owner of a motor vehicle commits an offense if the vehicle, in an area described by Subsection (a), emits:

- (1) hydrocarbons, carbon monoxide, or nitrogen oxide in an amount that is excessive under United States Environmental Protection Agency standards or standards provided by department rule; or
- (2) another vehicle-related pollutant that is listed by a

department rule adopted to comply with Part A, National Emission Standards Act (42 U.S.C. Sections 7602-7619), or rules of the United States Environmental Protection Agency in an amount identified as excessive under that rule.

(c) The department shall provide a notice of violation to the registered owner of a vehicle that is detected violating Subsection (b). The notice of violation must be made by personal delivery to the registered owner or by mailing the notice to the registered owner at the last known address of the owner. The department shall include in the notice the date and location of the violation detected and instructions for the registered owner explaining how the owner must proceed to obtain and pass a verification emissions inspection and to make any repair to the vehicle necessary to pass the inspection and explaining any extension or assistance that may be available to the owner for making any necessary repair. Notice by mail is presumed delivered on the 10th day after the date the notice is deposited in the mail.

(d) A registered owner of a vehicle commits an offense if:

If a person has previously been convicted of an offense under this section, an offense under this section is a misdemeanor punishable by a fine of not less than \$200 and not more than \$1,000.

(f) It is an affirmative defense to an offense under this section that the registered owner of the vehicle, before the 31st day after the date the owner receives a notice of violation:

(1) after a verification emissions inspection indicated that the vehicle did not comply with applicable emissions standards, repaired the vehicle as necessary and passed another verification emissions inspection; and

(2) has complied with rules of the department concerning a violation under this section.

(g) The department may contract with a private person to implement this section. The person must comply with terms, policies, rules, and procedures the department adopts to administer this section.

(j) Enforcement of the remote sensing component of the vehicle emissions inspection and maintenance program may not involve any method of screening in which the registered owner of a vehicle found to have allowable emissions by remote sensing technology is charged a fee.

(k) The department by rule may require that a vehicle determined by on-road testing to have excessive emissions be assessed an on-road emissions testing fee not to exceed the emissions testing fee charged by a certified emissions testing facility.

(l) The department by rule may establish procedures for reimbursing a fee for a verification test required by Subsection (c) if the owner demonstrates to the department's satisfaction that:

(1) the vehicle passed the verification emissions test not later than the 30th day after the date the vehicle owner received notice that the vehicle was detected as having excessive emissions; and

(2) the vehicle did not receive any repair, modification, alteration, or additive to the fuel, fuel tank, fuel delivery system, engine, exhaust system, or any attached emissions control components that would have, or could have, caused the vehicle to experience improved emissions performance between the date of detection and the date of the verification emissions test.

(b) The amount of the administrative penalty may not exceed \$1,000 for each violation. The aggregate penalty for multiple violations may not exceed \$10,000. Each day a violation continues or occurs is a separate violation for purposes of imposing a penalty.

(c) For purposes of Subsection (a), the procedures for determining and administering an administrative penalty against a person charged with violating this chapter are the same as those prescribed by Section 643.251 for determining and administering an administrative penalty against a motor carrier under that section.

(c-1) The conservation commission may impose an administrative penalty on a person in the amount of not more than \$500 for each violation of this subchapter or a rule adopted by the conservation commission under this subchapter.

A hearing on a revocation or suspension under Subsection (d) that takes effect on receipt of the notice must be held not later than 14 days after the department receives the request for hearing. (k) On the basis of the evidence submitted at the hearing, the director may deny the application or revoke or suspend the certificate.

(l) If an administrative law judge of the State Office of Administrative Hearings conducts a hearing under this section and the proposal for decision supports the position of the department, the proposal for decision may recommend a denial of an application or a revocation or suspension of a certificate only. The proposal may not recommend a reprimand or a probated or otherwise deferred disposition of the denial, revocation, or suspension. If the administrative law judge makes a proposal for a decision to deny an application or to suspend or revoke a certificate, the administrative law judge shall include in the proposal a finding of the costs, fees, expenses, and reasonable and necessary attorney's fees the state incurred in bringing the proceeding. Sec. 601.009. REPORT FROM OTHER STATE OR CANADA. (a) On receipt of a certification by the department that the operating privilege of a resident of this state has been suspended or revoked in another state or a province of Canada under a financial responsibility law, the department shall contact the official who issued the certification to request information relating to the specific nature of the resident's failure to comply.

(b) Except as provided by Subsection (c), the department shall suspend the resident's driver's license and vehicle registrations if the evidence shows that the resident's operating privilege was suspended in the other state or the province for violation of a financial responsibility law under circumstances that would require the department to suspend a nonresident's operating privilege had the accident occurred in this state.

(c) The department may not suspend the resident's driver's license and registration if the alleged failure to comply is based on the failure of the resident's insurance company or surety company to:

- (1) obtain authorization to write motor vehicle liability insurance in the other state or the province; or
- (2) execute a power of attorney directing the appropriate official in the other state or the province to accept on the company's behalf service of notice or process in an action under the policy arising out of an accident.

(2) the operation of a neighborhood electric vehicle or a golf cart that is operated only as authorized by Section 551.304 or 551.403; or

(3) a volunteer fire department for the operation of a motor vehicle the title of which is held in the name of a volunteer fire department.

(b) Subsection (a)(3) does not exempt from the requirement of Section 601.051 a person who is operating a vehicle described by that subsection.

Sec. 601.053. EVIDENCE OF FINANCIAL RESPONSIBILITY. (a) As a condition of operating in this state a motor vehicle to which Section 601.051 applies, the operator of the vehicle on request shall provide to a peace officer, as defined by Article 2.12, Code of Criminal Procedure, or a person involved in an accident with the operator evidence of financial responsibility by exhibiting:

(1) a motor vehicle liability insurance policy covering the vehicle that satisfies Subchapter D or a photocopy of the policy;

(2) a standard proof of motor vehicle liability insurance form prescribed by the Texas Department of Insurance under Section 601.081 and issued by a liability insurer for the motor vehicle;

(b) Except as provided by Subsection (c), an operator who does not exhibit evidence of financial responsibility under Subsection (a) is presumed to have operated the vehicle in violation of Section 601.051.

(c) Subsection (b) does not apply if the peace officer determines through use of the verification program established under

Subchapter N that financial responsibility has been established for the vehicle. If a peace officer has access to the verification program, the officer may not issue a citation for a violation of Section 601.051 unless the officer attempts to verify through the program that financial responsibility has been established for the vehicle and is unable to make that verification.

(d) The display of an image that includes financial responsibility information on a wireless communication device under Subsection (a)(2-a) does not constitute effective consent for a law enforcement officer, or any other person, to access the contents of the wireless communication device except to view the financial responsibility information.

(e) The authorization of the use of a wireless communication device to display financial responsibility information under Subsection (a)(2-a) does not prevent:

(1) a court of competent jurisdiction from requiring a person to provide a paper copy of the person's evidence of financial responsibility in a hearing or trial or in connection with discovery proceedings; or

(2) the commissioner of insurance from requiring a person to provide a paper copy of the person's evidence of financial responsibility in connection with any inquiry or transaction conducted by or on behalf of the commissioner.

of financial responsibility from an owner for another person required to establish evidence of financial responsibility if the other person is:

- (1) an operator employed by the owner; or
- (2) a member of the owner's immediate family or household.

(b) The evidence of financial responsibility applies to a person who becomes subject to Subsection (a)(1) or (2) after the effective date of that evidence.

(c) Evidence of financial responsibility accepted by the department under Subsection (a) is a substitute for evidence by the other person and permits the other person to operate a motor vehicle for which the owner has provided evidence of financial responsibility.

(d) The department shall designate the restrictions imposed by this section on the face of the other person's driver's license.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 601.055. SUBSTITUTION OF EVIDENCE OF FINANCIAL RESPONSIBILITY. (a) If a person who has filed evidence of financial responsibility substitutes other evidence of financial responsibility that complies with this chapter, and the department accepts the other evidence, the department shall:

- (1) consent to the cancellation of a bond or certificate of insurance filed as evidence of financial responsibility; or
- (2) direct the comptroller to return money or securities deposited with the comptroller as evidence of financial responsibility to the person entitled to the return of the money or securities.

(b) The comptroller shall return money or securities deposited with the comptroller in accordance with the direction of the department under Subsection (a)(2).

(1) consent to the cancellation of a bond or certificate of insurance filed as evidence of financial responsibility;

(2) direct the comptroller to return money or securities deposited with the comptroller as evidence of financial responsibility to the person entitled to the return of the money or securities; or

(3) waive the requirement of filing evidence of financial responsibility.

(b) Evidence of financial responsibility may be canceled, returned, or waived under Subsection (a) if:

(1) the department, during the two years preceding the request, has not received a record of a conviction or a forfeiture of bail that would require or permit the suspension or revocation of the driver's license, vehicle registration, or nonresident's operating privilege of the person by or for whom the evidence was provided;

(2) the person for whom the evidence of financial responsibility was provided dies or has a permanent incapacity to operate a motor vehicle; or

(3) the person for whom the evidence of financial responsibility was provided surrenders the person's license and vehicle registration to the department.

(c) A cancellation, return, or waiver under Subsection (b)(1) may be made only after the second anniversary of the date the evidence of financial responsibility was required.

(d) The comptroller shall return the money or securities as directed by the department under Subsection (a)(2).

(e) The department may not act under Subsection (a)(1) or (2) if:

(1) an action for damages on a liability covered by the evidence of financial responsibility is pending;

(2) a judgment for damages on a liability covered by the evidence of financial responsibility is not satisfied; or

(3) the person for whom the bond has been filed or for whom money or securities have been deposited has, within the two years preceding the request for cancellation or return of the evidence of financial responsibility, been involved as an operator or owner in a motor vehicle accident resulting in bodily injury to, or property damage to the property of, another person.

(f) In the absence of evidence to the contrary in the records of the department, the department shall accept as sufficient an

affidavit of the person requesting action under Subsection (a) stating that:

- (1) the facts described by Subsection (e) do not exist; or
- (2) the person has been released from the liability or has been finally adjudicated as not liable for bodily injury or property damage described by Subsection (e)(3).

(g) A person whose evidence of financial responsibility has been canceled or returned under Subsection (b)(3) may not be issued a new driver's license or vehicle registration unless the person establishes financial responsibility for the remainder of the two-year period beginning on the date the evidence of financial responsibility was required.

Sec. 601.057. EVIDENCE THAT DOES NOT FULFILL REQUIREMENTS; SUSPENSION. If evidence filed with the department does not continue to fulfill the purpose for which it was required, the department shall suspend the driver's license and all vehicle registrations or nonresident's operating privilege of the person who filed the evidence pending the filing of other evidence of financial responsibility.

(a-1) Effective January 1, 2011, the minimum amounts of motor vehicle liability insurance coverage required to establish financial responsibility under this chapter are:

(1) \$30,000 for bodily injury to or death of one person in one accident;

(2) \$60,000 for bodily injury to or death of two or more persons in one accident, subject to the amount provided by Subdivision (1) for bodily injury to or death of one of the persons; and

(3) \$25,000 for damage to or destruction of property of others in one accident.

(b) The coverage required under this section may exclude, with respect to one accident:

- (1) provided in accordance with the coverage required by this chapter for bodily injury, death, and property damage; and
- (2) subject to this chapter.

(c) The liability of the insurance company for the insurance required by this chapter becomes absolute at the time bodily injury, death, or damage covered by the policy occurs. The policy may not be canceled as to this liability by an agreement between the insurance company and the insured that is entered into after the occurrence of the injury or damage. A statement made by or on behalf of the insured or a violation of the policy does not void the policy.

(d) The policy may not require the insured to satisfy a judgment for bodily injury, death, or property damage as a condition precedent under the policy to the right or duty of the insurance company to make payment for the injury, death, or damage.

(e) The insurance company may settle a claim covered by the policy. If the settlement is made in good faith, the amount of the settlement is deductible from the amounts specified in Section 601.072.

(f) The policy, any written application for the policy, and any rider or endorsement that does not conflict with this chapter constitute the entire contract between the parties.

(g) Subsections (c)-(f) apply to the policy without regard to whether those provisions are stated in the policy.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 601.074. OPTIONAL TERMS. (a) A motor vehicle liability insurance policy may provide that the insured shall reimburse the insurance company for a payment that, in the absence of this chapter, the insurance company would not have been obligated to make under the terms of the policy.

(b) A policy may allow prorating of the insurance provided under the policy with other collectible insurance.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 601.075. PROHIBITED TERMS. A motor vehicle liability insurance policy may not insure against liability:

(1) for which the insured or the insured's insurer may be held liable under a workers' compensation law;

(3) for injury to or destruction of property owned by, rented to, in the care of, or transported by the insured.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

SUBCHAPTER E. ALTERNATIVE METHODS OF ESTABLISHING FINANCIAL RESPONSIBILITY

Sec. 601.121. SURETY BOND. (a) A person may establish financial responsibility by filing with the department a bond:

(1) with at least two individual sureties, each of whom owns real property in this state that is not exempt from execution

under the constitution or laws of this state;

(2) conditioned for payment in the amounts and under the same circumstances as required under a motor vehicle liability insurance policy;

(3) that is not cancelable before the sixth day after the date the department receives written notice of the cancellation;

(4) accompanied by the fee required by Subsection (e); and

(5) approved by the department.

(b) The real property required by Subsection (a)(1) must be described in the bond approved by a judge of a court of record. The assessor-collector of the county in which the property is located must certify the property as free of any tax lien. The sureties in combination must have equity in the property in an amount equal to at least twice the amount of the bond.

(c) The bond is a lien in favor of the state on the real property described in the bond. The lien exists in favor of a person who holds a final judgment against the person who filed the bond.

(d) On filing of a bond, the department shall issue to the person who filed the bond a certificate of compliance with this section.

(e) The department shall file notice of the bond in the office of the county clerk of the county in which the real property is located. The notice must include a description of the property described in the bond. The county clerk or the county clerk's deputy, on receipt of the notice, shall acknowledge the notice and record it in the lien records. The recording of the notice is notice in accordance with statutes governing the recordation of a lien on real property.

(f) If a judgment rendered against the person who files a bond under this section is not satisfied before the 61st day after the date the judgment becomes final, the judgment creditor, for the judgment creditor's own use and benefit and at the judgment creditor's expense, may bring an action in the name of the state against the sureties on the bond, including an action to foreclose a lien on the real property of a surety. The foreclosure action must be brought in the same manner as, and is subject to the law applicable to, an action to foreclose a mortgage on real property.

(g) Cancellation of a bond filed under this section does not prevent recovery for a right or cause of action arising before the date of the cancellation.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 601.122. DEPOSIT OF CASH OR SECURITIES WITH COMPTROLLER.

(A) are of the type that may legally be purchased by savings banks or trust funds; and

(B) have a market value equal to the required amount.

(b) On receipt of the deposit, the comptroller shall issue to the person making the deposit a certificate stating that a deposit complying with this section has been made.

(c) The comptroller may not accept the deposit and the department may not accept the certificate unless the deposit or certificate is accompanied by evidence that an unsatisfied judgment of any character against the person making the deposit does not exist in the county in which the person making the deposit resides.

(d) The comptroller shall hold a deposit made under this section to satisfy, in accordance with this chapter, an execution on a judgment issued against the person making the deposit for damages that:

(1) result from the ownership, maintenance, use, or operation of a motor vehicle after the date the deposit was made; and

(2) are for:

(A) bodily injury to or death of any person, including damages for care and loss of services; or

(B) damage to or destruction of property, including the loss of use of the property.

(e) Money or securities deposited under this section are not subject to attachment or execution unless the attachment or execution arises out of a suit for damages described by Subsection (d).

JUDGE. (a) A person may establish financial responsibility by making a deposit with the county judge of the county in which the motor vehicle is registered.

(b) The deposit must be made in cash or a cashier's check in the amount of at least \$55,000.

(c) On receipt of the deposit, the county judge shall issue to the person making the deposit a certificate stating that a deposit complying with this section has been made. The certificate must be acknowledged by the sheriff of that county and filed with the department.

(b) The department may issue a certificate of self-insurance to a person if:

(1) the person applies for the certificate; and

(2) the department is satisfied that the person has and will continue to have the ability to pay judgments obtained against the person.

(c) The self-insurer must supplement the certificate with an agreement that, for accidents occurring while the certificate is in force, the self-insurer will pay the same judgments in the same amounts as an insurer would be obligated to pay under an owner's motor vehicle liability insurance policy issued to the self-insurer if such policy were issued.

(d) The department for cause may cancel a certificate of self-insurance after a hearing. The self-insurer must receive at least five days' notice of the hearing. Cause includes failure to pay a judgment before the 31st day after the date the judgment becomes final.

(2) files evidence of financial responsibility as required by this chapter.

(b) If the owner or operator chooses to establish financial responsibility under Subsection (a)(2) by filing evidence of motor vehicle liability insurance, the owner or operator must file a certificate of insurance for a policy that has a policy period of at least six months and for which the premium for the entire policy period is paid in full.

(c) Notwithstanding Section 601.085, coverage for a motor vehicle under a motor vehicle liability policy for which a person files with the department a certificate of insurance under Subsection (b) may not be canceled unless:

(1) the person no longer owns the motor vehicle;

(b) The department may not require security in an amount:

- (1) less than \$1,000; or
- (2) more than the limits prescribed by Section 601.072.

- (1) a report of an investigating officer;
- (2) an accident report of a party involved; and
- (3) an affidavit of a person who has knowledge of the

facts.

(d) The department shall make the determination required by Subsection (a) only if the department has not received, before the 21st day after the date the department receives a report of a motor vehicle accident, satisfactory evidence that the owner or operator has:

- (2) complies with the other requirements of this chapter.

(b) The fee imposed by this section is in addition to other fees imposed by law.

(c) A person is required to pay only one fee under this section, without regard to the number of driver's licenses and vehicle registrations to be reinstated for or issued to the person in connection with the payment.

A maximum weight set under this subsection may not exceed the maximum set by statute for that weight.

(b) The executive director of the Texas Department of Transportation must make the finding under this section on an engineering and traffic investigation and in making the finding shall consider the width, condition, and type of pavement structures and other circumstances on the road.

(f) This section does not apply to a vehicle delivering groceries, farm products, or liquefied petroleum gas.

(b) The department may issue a permit to a person to operate over a farm-to-market or ranch-to-market road superheavy or oversize equipment that:

(1) is used to transport oilfield drill pipe or drill collars stored in a pipe box; and

(2) has a gross weight or size that exceeds the limits allowed by law to be transported over a state highway.

(c) The department may issue an annual permit to allow the operation on a state highway of equipment that exceeds weight and size limits provided by law for the movement of:

- (1) an implement of husbandry by a dealer;
- (2) water well drilling machinery and equipment or harvesting equipment being moved as part of an agricultural operation; or
- (3) superheavy or oversize equipment that:
 - (A) cannot reasonably be dismantled; and
 - (B) does not exceed:
 - (i) 12 feet in width;

alternative method that is accessible by law enforcement personnel in the field and provides for the enforcement of the registration requirements of this subchapter.

(f) A cab card or a vehicle registration issued under the alternative method described in Subsection (e) must be valid for the same duration of time as a motor carrier's certificate issued under Section 643.054(b) or Section 643.061(c)(1).

(d) Instead of the registration procedures described by Sections 643.052-643.059, the department shall adopt rules that allow a leasing business to report annually to the department on the number of vehicles requiring registration that the leasing business actually operated in the previous 12 months. The rules may not require the vehicles operated to be described with particularity. The registration fee for each vehicle operated may be paid at the time the report is filed.

If the employee's inspection shows that an enforcement action, such as the issuance of a citation, is warranted for a violation of this title or a rule adopted under this title, including a federal safety regulation adopted under this chapter, the noncommissioned employee may take enforcement action only if the employee is under the supervision of an officer of the department.

(e) If the department determines to impose a penalty, the department shall issue a notice of claim. The department shall send the notice of claim by certified mail, registered mail, personal delivery, or another manner of delivery that records the receipt of the notice by the person responsible. The notice of claim must include a brief summary of the alleged violation and a statement of the amount of the recommended penalty and inform the person that the person is entitled to a hearing on the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty. A person who is subject to an administrative penalty imposed by the department under this section is required to pay the penalty or respond to the department within 20 days of receipt of the department's notice of claim.

(i) If a penalty is proposed under Subsection (h), the administrative law judge shall include in the proposal for a decision a finding setting out costs, fees, expenses, and reasonable and necessary attorney's fees incurred by the state in bringing the proceeding. The director may adopt the finding and make it a part of a final order entered in the proceeding.

(j) Based on the findings of fact, conclusions of law, and proposal for a decision, the director by order may find that a violation has occurred and impose a penalty or may find that no

violation occurred. The director may, pursuant to Section 2001.058(e), Government Code, increase or decrease the amount of the penalty recommended by the administrative law judge within the limits prescribed by this chapter.

(k) Notice of the director's order shall be given to the affected person in the manner required by Chapter 2001, Government Code, and must include a statement that the person is entitled to seek a judicial review of the order.

(B) sending a copy of the affidavit to the director by certified mail.

(n) Before the sixth day after the date the director receives a copy of an affidavit filed under Subsection (m)(2), the department may file with the court a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty if the court finds that the alleged facts are true. The person who files an affidavit under Subsection (m)(2) has the burden of proving that the person is financially unable to:

- (1) pay the amount of the penalty; and
- (2) file the supersedeas bond.

(q) The department shall impound any commercial motor vehicle owned or operated by a person in violation of Subsection (p) after the department has first served the person with a notice of claim. Service of the notice may be by certified mail, registered mail, personal delivery, or any other manner of delivery showing receipt of the notice.

(r) A commercial motor vehicle impounded by the department under Subsection (q) shall remain impounded until the administrative penalties imposed against the person are remitted to the department, except that an impounded commercial motor vehicle left at a vehicle storage facility controlled by the department or any other person shall be considered an abandoned motor vehicle on the 11th day after the date of impoundment if the delinquent administrative penalty is not remitted to the department before that day. Chapter 683 applies to the commercial motor vehicle, except that the department is entitled to receive from the proceeds of the sale the amount of the delinquent administrative penalty and costs.

(s) All costs associated with the towing and storage of the commercial motor vehicle and load shall be the responsibility of the person and not the department or the State of Texas.

(t) A proceeding under this section is subject to Chapter 2001, Government Code.

(u) Each penalty collected under this section shall be deposited to the credit of the Texas mobility fund.

This subsection does not apply if there is a grave emergency in which failure to operate a motor vehicle would result in a greater hazard to passengers. However, the person may operate the motor vehicle only to the nearest location at which the passengers' safety is ensured.

(c) A carrier may not permit or require a person to operate a motor vehicle from one location to another in a period that would necessitate the operation of the vehicle at a speed in excess of the applicable speed limit.

(d) An operator shall make a meal stop of not less than 30 minutes at least every six hours. The carrier shall provide for reasonable rest stops at least once between each meal stop.

(e) The operator of a truck transporting migrant agricultural workers for more than 500 miles shall stop for at least eight hours to provide rest for the operator and passengers either before or at the completion of each 500 miles.

(2) lighting devices and reflectors;

(3) the steering mechanism;

(4) the horn;

(5) each windshield wiper; and

(6) each rearview mirror.

(c) Adequate means must be provided positively to prevent the shifting of the lower half of each fifth wheel attached to the frame of a truck tractor or dolly. The lower half of each fifth wheel must be securely fastened to the frame by U-bolts that are of adequate size and are securely tightened. Another method may be used if the method provides equivalent security. A U-bolt may not be of welded construction and must be installed so as not to crack, warp, or deform the frame. The upper half of each fifth wheel must be fastened with at least the security required for the lower half. A locking means must be provided in each fifth wheel mechanism, including adapters when used, so that the upper and lower half will not separate without the use of a positive manual release, such as a release mechanism that the operator uses from the cab. If the fifth wheel is designed and constructed to be readily separable, the requirement for a fifth wheel coupling device applies to a vehicle manufactured after December 31, 1952.

(d) Vehicle tires must be of adequate capacity to support the vehicle's gross weight. Each tire must have a tread configuration on the part of the tire that is in contact with the road and may not be so smooth as to expose any tread fabric. A tire may not have a defect likely to cause failure. A front tire may not be regrooved, recapped, or retreaded.

(c) The side walls and ends of the passenger compartment must extend at least 60 inches from the floor. If necessary, sideboards may be attached to the body of the motor vehicle. Stake body construction meets the requirements of this subsection only if the space six inches or larger between any two stakes is suitably closed to prevent the passengers from falling off the vehicle.

(d) The floor and interior of the sides and ends of the passenger compartment must be free of protruding nails, screws, splinters, or any other protruding object that is likely to injure a passenger or the passenger's clothes.

(e) The motor vehicle must have an adequate means of exiting and entering the passenger compartment from the rear or from the right side of the vehicle. Each exit and entrance must have a gate or door that has at least one latch or fastening device that will keep the gate or door securely closed during transportation. The latch or fastening device must be readily operative without the use of tools. An exit or entrance must:

- (1) be at least 18 inches wide;
- (2) have a top and clear opening of at least 60 inches or as high as the passenger compartment side wall if the side wall is less than 60 inches high; and
- (3) have a bottom that is at the floor of the passenger compartment.

(f) If the motor vehicle has a permanently attached roof, the vehicle must have at least one emergency exit on a side or rear of the vehicle that does not have a regular exit or entrance. The exit must have a gate or door and a latch and hold as prescribed by Subsection (e).

(g) If necessary, a ladder or steps shall be used to enter and exit the passenger compartment. The maximum vertical spacing of footholds may not exceed 12 inches and the lowest step may not be

more than 18 inches above the ground when the vehicle is empty.

(h) The motor vehicle must include handholds or other devices that will enable passengers to enter and exit the vehicle without hazard.

(i) The motor vehicle must have a way for passengers to communicate with the operator, including a telephone, speaker tube, buzzer, pull cord, or other mechanical or electrical device.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 17.34(a), eff. Sept. 1, 1999.

Sec. 647.014. PASSENGER SEATING. One seat must be provided for each passenger. Passengers shall remain seated while the vehicle is in motion.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 17.34(a), eff. Sept. 1, 1999.

Sec. 647.015. PASSENGER SEATING REQUIREMENTS FOR CERTAIN TRIPS.

(a) A motor vehicle transporting migrant agricultural workers for a total distance of 100 miles or more must have a passenger compartment in accordance with this section.

(b) Each passenger seat must:

- (1) be securely attached to the vehicle during use;
- (2) be not less than 16 or more than 19 inches above the floor;
- (3) be at least 13 inches deep;
- (4) be equipped with backrests that extend at least 36 inches above the floor;

- (8) not have any cracks in the backrests, if slatted, that are more than two inches wide; and
- (9) have any exposed wood surfaces planed or sanded smooth and free of splinters.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 17.34(a), eff. Sept. 1, 1999.

Sec. 647.016. PASSENGER PROTECTION FROM WEATHER. (a) If necessary to protect passengers from inclement weather, including rain, snow, or sleet, the passenger compartment must be equipped with a top that is at least 80 inches above the floor and with a means of closing the sides and ends. A tarpaulin or other removable protective device may be used if secured in place.

(b) The motor vehicle must have a safe method of protecting the passengers from cold or undue exposure. A motor vehicle may not have a heater that:

- (1) conducts engine exhaust gases or engine compartment air into or through a space occupied by an individual;
- (2) uses a flame that is not completely enclosed;
- (3) might spill or leak fuel if the vehicle is tilted or overturned;
- (4) uses heated or unheated air that comes from or through the engine compartment or from direct contact with any part of the exhaust system unless the heater ducts prevent contamination of the air from the exhaust or engine compartment gases; or
- (5) is not securely fastened to the motor vehicle.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 17.34(a), eff. Sept. 1, 1999.

Sec. 647.017. OPERATIONAL REQUIREMENTS. (a) A person may not operate a motor vehicle transporting migrant agricultural workers that is loaded or that has a load that is distributed or secured in a manner that prevents the vehicle's safe operation.

(b) A person may not operate a motor vehicle if:

- (1) a tailgate, tailboard, tarpaulin, door, fastening device, or equipment or rigging is not securely in place;
- (2) an object:
 - (A) obscures the operator's view in any direction;
 - (B) interferes with the free movement of the operator's arms or legs;
 - (C) obstructs the operator's access to emergency

accessories; or

(D) obstructs a person's entrance or exit from the cab or operator's compartment; or

(3) property on the vehicle is stowed so that it:

(A) restricts the operator's freedom of motion in properly operating the vehicle;

(B) obstructs a person's exit from the vehicle; or

(C) does not provide adequate protection to passengers and others from injury resulting from a falling or displaced article.

(c) An operator who leaves a motor vehicle unattended shall securely set the parking brake, chock the wheels, and take all reasonable precautions to prevent the vehicle from moving.

Added by Acts 1999, 76th Leg., ch. 62, Sec. 17.34(a), eff. Sept. 1, 1999.

Sec. 647.018. CERTIFICATE OF COMPLIANCE. A carrier is considered to be in compliance with this chapter if the carrier holds a certificate of compliance with the United States Department of Transportation regulations governing transportation of migrant agricultural workers in interstate commerce.

NONRESIDENT VIOLATOR COMPACT OF 1977**Art. I. FINDINGS, DECLARATION OF POLICY, AND PURPOSE**

(a) The party jurisdictions find that:

(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction:

(i) Must post collateral or bond to secure appearance for trial at a later date; or

(ii) If unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or

(iii) Is taken directly to court for his trial to be held.

(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

(3) The purpose of the practices described in paragraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to his home jurisdiction and disregard his duty under the terms of the traffic citation.

(4) A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.

(5) The practice described in paragraph (1) above causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand

trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

(6) The deposit of a driver's license as a bail bond, as described in paragraph (2) above, is viewed with disfavor.

(7) The practices described herein consume an undue amount of law enforcement time.

(b) It is the policy of the party jurisdictions to:

(1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

(2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

Art. IV. PROCEDURE FOR HOME JURISDICTION

(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the Compact Manual.

Art. V. APPLICABILITY OF OTHER LAWS

Art. VI. COMPACT ADMINISTRATOR PROCEDURES

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a Board of Compact Administrators is established. The board shall be composed of one representative from each party jurisdiction to be known as the compact administrator. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction he represents. (f) The board may contract with, or accept services or personnel from, any governmental or intergovernmental agency, person, firm, or corporation, or any private nonprofit organization or institution.

(b) Adoption of an amendment shall require endorsement of all party jurisdictions and shall become effective 30 days after the date of the last endorsement.

(c) Failure of a party jurisdiction to respond to the compact chairman within 120 days after receipt of the proposed amendment shall constitute endorsement.

Art. X. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes stated herein. The provisions of this compact shall be

severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party jurisdiction or of the United States or the applicability thereof to any government, agency, person, or circumstance, the compact shall not be affected thereby. (A) of the owner's right to contest the imposition of the civil penalty against the person in an administrative adjudication hearing;

(B) that imposition of the civil penalty may be contested by submitting a written request for an administrative adjudication hearing before the expiration of the period specified under Subdivision (8); and

(b) If, at the time of the violation alleged in the notice of violation, the motor vehicle depicted in a photograph or digital image taken by a photographic traffic signal enforcement system was owned by a person in the business of selling, renting, or leasing motor vehicles or by a person who was not the person named in the notice of violation, the presumption under Subsection (a) is rebutted on the presentation of evidence establishing that the vehicle was at that time:

(1) being test driven by another person;

(2) being rented or leased by the vehicle's owner to another person; or

(3) owned by a person who was not the person named in the notice of violation.

(e) If, at the time of the violation alleged in the notice of violation, the motor vehicle depicted in the photograph or digital image taken by the photographic traffic signal enforcement system was owned by a person in the business of renting or leasing motor vehicles and the vehicle was being rented or leased to an individual, the owner of the motor vehicle shall provide to the local authority or the entity with which the local authority contracts under Section 707.003(a)(1) the name and address of the individual who was renting or leasing the motor vehicle depicted in the photograph or digital image and a statement of the period during which that individual was renting or leasing the vehicle. The owner shall provide the information required by this subsection not later than the 30th day

after the date the notice of violation is received. If the owner provides the required information, it is presumed that the individual renting or leasing the motor vehicle committed the violation alleged in the notice of violation and the local authority or contractor may send a notice of violation to that individual at the address provided by the owner of the motor vehicle.

(2) evidence of the facts contained in the affidavit.

(g) At the conclusion of the administrative adjudication

hearing, the hearing officer shall enter a finding of liability for the civil penalty or a finding of no liability for the civil penalty. A finding under this subsection must be in writing and be signed and dated by the hearing officer.

(h) A finding of liability for a civil penalty must specify the amount of the civil penalty for which the person is liable. If the hearing officer enters a finding of no liability, a civil penalty for the violation may not be imposed against the person.

(i) A finding of liability or a finding of no liability entered under this section may:

(5) if the person is younger than 21 years of age and has any detectable amount of alcohol in the person's system, the person's license to operate a motor vehicle will be automatically suspended for not less than 60 days even if the person submits to the taking of the specimen, but that if the person submits to the taking of the specimen and an analysis of the specimen shows that the person had an alcohol concentration less than the level specified by Chapter 49, Penal Code, the person may be subject to criminal penalties less severe than those provided under that chapter;

(7) the person has a right to a hearing on the suspension or denial if, not later than the 15th day after the date on which the person receives the notice of suspension or denial or on which the person is considered to have received the notice by mail as provided by law, the department receives, at its headquarters in Austin, a written demand, including a facsimile transmission, or a request in another form prescribed by the department for the hearing.

(a-1) The blood specimen must be taken in a sanitary place.

(b) If the blood specimen was taken according to recognized medical procedures, the person who takes the blood specimen under this chapter, the facility that employs the person who takes the blood specimen, or the hospital where the blood specimen is taken is immune from civil liability for damages arising from the taking of the blood specimen at the request or order of the peace officer or pursuant to a search warrant as provided by this chapter and is not subject to discipline by any licensing or accrediting agency or body. This subsection does not relieve a person from liability for

negligence in the taking of a blood specimen. The taking of a specimen from a person who objects to the taking of the specimen or who is resisting the taking of the specimen does not in itself constitute negligence and may not be considered evidence of negligence.

(c) A licensed or certified emergency medical technician-intermediate or emergency medical technician-paramedic may take a blood specimen only if authorized by the medical director for the entity that employs the technician-intermediate or technician-paramedic. The specimen must be taken according to a protocol developed by the medical director that provides direction to the technician-intermediate or technician-paramedic for the taking of a blood specimen at the request or order of a peace officer. In this subsection, "medical director" means a licensed physician who supervises the provision of emergency medical services by a public or private entity that:

- (1) provides those services; and
- (2) employs one or more licensed or certified emergency medical technician-intermediates or emergency medical technician-paramedics.

(c-1) A protocol developed under Subsection (c) may address whether an emergency medical technician-intermediate or emergency medical technician-paramedic engaged in the performance of official duties is entitled to refuse to:

- (1) go to the location of a person from whom a peace officer requests or orders the taking of a blood specimen solely for the purpose of taking that blood specimen;
- (2) take a blood specimen if the technician-intermediate or technician-paramedic reasonably believes that complying with the peace officer's request or order to take the specimen would impair or interfere with the provision of patient care or the performance of other official duties; or

(3) provide the equipment or supplies necessary to take a blood specimen.

(c-2) If a licensed or certified emergency medical technician-intermediate or emergency medical technician-paramedic takes a blood specimen at the request or order of a peace officer, a peace officer must:

- (1) observe the taking of the specimen; and
- (2) immediately take possession of the specimen for

purposes of establishing a chain of custody.

(d) A person whose blood specimen is taken under this chapter in a hospital is not considered to be present in the hospital for medical screening or treatment unless the appropriate hospital personnel determine that medical screening or treatment is required for proper medical care of the person.

Acts 1995, 74th Leg., ch. 165, Sec. 1, eff. Sept. 1, 1995.

Sec. 724.019. ADDITIONAL ANALYSIS BY REQUEST. (a) A person who submits to the taking of a specimen of breath, blood, urine, or another bodily substance at the request or order of a peace officer may, on request and within a reasonable time not to exceed two hours after the arrest, have a physician, qualified technician, chemist, or registered professional nurse selected by the person take for analysis an additional specimen of the person's blood.

(b) The person shall be allowed a reasonable opportunity to contact a person specified by Subsection (a).

(c) A peace officer or law enforcement agency is not required to transport for testing a person who requests that a blood specimen be taken under this section.

(d) The failure or inability to obtain an additional specimen or analysis under this section does not preclude the admission of evidence relating to the analysis of the specimen taken at the

request or order of the peace officer.

(e) A peace officer, another person acting for or on behalf of the state, or a law enforcement agency is not liable for damages arising from a person's request to have a blood specimen taken.

- (1) show the grounds for the officer's belief that the person had been operating a motor vehicle or watercraft powered with

an engine having a manufacturer's rating of 50 horsepower or above while intoxicated; and

(2) contain a copy of:

(A) the refusal statement requested under Section 724.031; or
